SPECIAL SEMINAR

Cardiometabolic Disease: Can You Blame It on Your Parents?

Hagit Hochner, Ph.D.

Lecturer in Epidemiology
Braun School of Public Health, Hebrew University-Hadassah
Jerusalem, Israel

Thursday, October 16, 2014
2:00 – 3:00PM
Kresge 907

In this seminar Dr. Hochner will present data based on the Jerusalem Perinatal Study, a family-based longitudinal birth cohort. Dr. Hochner will provide examples from their work done within the framework of the developmental origins of health and disease focusing on parental influences during pregnancy in relation to offspring long term cardiometabolic risk factors. Parental effects on offspring cardiometabolic traits through parent-of-origin mechanisms will also be presented.

Open to the Public

Refreshments will be provided
