Should it stay or should it go? Common hand injuries/problems in occupational health: What cases can be managed in a primary care setting? What cases should be referred to a specialist?

Presenter: Kevin Loh, DO, MPH  
Resident, Occupational and Environmental Medicine  
Harvard T.H. Chan School of Public Health

Discussant: Debra Mulley, MD  
Orthopedic Hand Surgeon, Cambridge Health Alliance

Learning Objectives: Participants will be able to 1) discuss some common hand problems seen in a primary care/occupational health practice; 2) describe how to treat these conditions primarily; and 3) to describe what cases and when to refer to hand surgery.

Sponsored by the Harvard-NIOSH Education and Research Center (T42 OH008416), the Environmental and Occupational Medicine and Epidemiology Program, the Harvard-NIEHS Center for Environmental Health (P30 ES000002), the Department of Environmental Health, and funded in part by the National Institute for Occupational Safety and Health.

Harvard T.H. Chan School of Public Health is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Harvard T.H. Chan School of Public Health designates this educational activity for a maximum of 1 AMA PRA Category I Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity. If physician participants wish to claim less than 1 AMA PRA Category I Credits™, please notify program staff prior to the conclusion of the activity.

All are welcome to attend. ♦ Light lunch and drinks available or bring your own.
