Biosafety considerations for laboratory acquired infections: A repeat case of *Mycobacterium marinum* infection in a research lab technician

**Presenter:** David Rainey, MD, MPH, MEd  
Resident Physician, Harvard Occupational and Environmental Medicine

**Discussant:** Karen B. Byers, MS, RBP, CBSP,  
Biosafety Manager  
Dana Farber Cancer Institute

**Learning Objectives:** Participants will be able to 1) identify key history findings associated with *Mycobacterium marinum* infection; 2) explain the importance of published reports for evidence-based biosafety programs; and 3) to discuss why objective, no-fault reporting of incidents is key to improved biosafety prevention programs.

**Sponsored by:**  
- Harvard-NIOSH Education and Research Center (T42 OH008416), the Environmental and Occupational Medicine and Epidemiology Program, the Harvard-NIEHS Center for Environmental Health (P30 ES000002), the Department of Environmental Health, and funded in part by the National Institute for Occupational Safety and Health.

The Harvard T.H. Chan School of Public Health is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. The Harvard T.H. Chan School of Public Health takes responsibility for the content, quality, and scientific integrity of this CME activity.

The Harvard T.H. Chan School of Public Health designates this educational activity for a maximum of 0.75 AMA PRA category 1 credit™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

All are welcome to attend. ♦ Light snacks and drinks available or bring your own.
