

Henning Tiemeier, MA, MD PhD

CURRICULUM VITAE

Date Revised: March 8th, 2018
Address: 677 Huntington Avenue,
Department of Social and Behavioral Science, Boston, MA 02115
Email tiemeier@hsph.harvard.edu
Phone: (617) 432-1081

EDUCATION:

1995	Sociology	MA.	University of Bonn
1995	Medicine	MD	University of Bonn
2001	Epidemiology	MSc	Erasmus Medical Center, Rotterdam
2003	Epidemiology	PhD.	Erasmus University, Rotterdam

Dissertation Title: Biological risk factors for late life depression. A population-based approach. Mentor: Dr. Monique Breteler

POSTDOCTORAL TRAINING

3/2003-12/2004	Child Psychiatry & Epidemiology	Erasmus Medical Center Rotterdam
		Mentor: Dr. Frank Verhulst, Dr. Albert Hofman
1/2005-8/2005	Child Psychiatry Imaging Branch	Bethesda, NIMH Visiting fellow
		Mentor : Jay Giedd

RESIDENCY (not completed)

1/1996-6/1997	Neurology	University Hospital, Bonn, Germany
---------------	-----------	------------------------------------

ACADEMIC APPOINTMENTS

1997-1999	Researcher	Mental Health Service (Dutch National Institute of Mental Health)	Trimbos Institute
1999-2003	Junior researcher	Epidemiology	Erasmus MC
2005-2008	Assistant Professor	Child Psychiatry/Epidemiology	Erasmus MC
2008-2011	Associate Professor	Child Psychiatry/Epidemiology	Erasmus MC
2011-present	Full Professor	Psychiatric Epidemiology	Erasmus MC
2018-present	Professor and Chair	Maternal and Child Health	Harvard School of Public Health

LICENSURE AND CERTIFICATION

7/1997 Medical doctor in Germany (Approbation)
1/1999 Medical Doctor in the Netherlands (BIG registratie)

OTHER PROFESSIONAL APPOINTMENTS

2003-2004 Member Scientific Advisory Committee Health Council of the Netherlands (*Gezondheidsraad*) Committee No 718, Sleep, Health and Noise
2015-present Member of Scientific Advisory Committee ABCD Study, only international advisor, appointed by NIDA, NIH (Dr. N. Volkow)

MAJOR ADMINISTRATIVE RESPONSIBILITIES

2001-2003 Study coordinator Rotterdam Study Erasmus Medical Center
2005-2017 PI Generation R and Rotterdam Study Erasmus Medical Center

HONORS AND DISTINCTIONS:

2004 Foreign Country Senior Research Stipend, Sophia Stichting, Erasmus Children's Hospital
2008 Norbert and Charlotte Rieger Award Am. Acad. of Child & Adolescent Psychiatry best scientific paper (\$4500), together with Sabine Roza
2009 VIDI-personal grant of the Netherlands Organisation for Scientific Research, 1 of 20 most excellent mid-career (<9 years post PhD) researchers in Life Sciences in the Netherlands
2012 Campaign for America's Kids award, Am. Acad of Child & Adolescent Psychiatry Conference prize for best submission
2014 Child Maltreatment Article of the Year Am. Prof. Society on the Abuse of Children Senior author of Rijlaarsdam et al. "Maternal Childhood Maltreatment and Offspring Emotional and Behavioral Problems: Mechanisms of Risk Transmission"
2017 VICI personal grant of the Netherlands Organisation for Scientific Research, 1 of 4 most excellent researchers in in Life Sciences in the Netherland. How we shape our children's brains. From early adversity to adolescent depression (€1.500.000). Prestigious Dutch personal research award

RESEASRCH SUPPORT

Years	PI/Co-I	Funding Source	Project
2004-2009	PI	Netherlands Organisation for Scientific Research-ZonMw (ZON 80-81000-98-031)	A community study of sleep state misperception in elderly persons using actigraphy, 180k €
2006-2011	PI	Sophia Children's Hospital Res. Foundation (SSWO-2007-516)	Does the father matter? The influence of father-child interaction on behaviour problems in children 214k €
2007-2012	PI	Dutch Medical Research Council ZonMw Youth	At HOME in the Netherlands. Validating an observation

		program (ZON 80-82405-98-103)	method for Youth Health Care to identify at risk families, 326k €
2008 -2013	Co-I (WP2)	EU FP 7-KBBE Agriculture (Project ID 212652)	NUTRIMENTHE: Effect of Diet on the Mental Performance of Children
2009 -2013	PI	Sophia Children's Hospital Res. Foundation (SSWO Grant No. 268)	The development of ADHD. An epigenetic gene network approach, 270k €
2009 -2014	PI	Netherlands Organisation for Scientific Research (NWO) (ZonMW-VIDI No. 017.106.370)	When sleep and depression come of age. The impact of altered circadian rhythms and disturbed sleep structure on late life depression. 800 k €
2011 -2015	Co-I	Dutch Medical Research Council (NWO ZonMw TOP No. 91211021)	The Neurobiology and Brain Developmental Trajectories in Children at Risk for Severe Psychopathology 650k €
2012 -2016	PI	Sophia Children's Hospital Res. Foundation (SSWO Grant No. 201310)	Intergenerational transmission of Oppositional Defiant Disorder: an epigenetic process? 182k €
2013-(2018)	Co-I	EU FP 7 Health Innovation 1; grant agreement (No. 602768)	Action: Aggression in Children: Unravelling gene and environment interplay to inform treatment strategies, 278k €
2013-(2023)	Co-I	Netherlands Organization for Scientific Research (NWO No. 024.001.003)	Epidemiological studies of methylation and risk transmission of psychiatric disorders, 540k €
2014-(2018)	PI	ErasmusMC MRACE-programme (MRC-2013-169)	No rest for the wicked. Family chaos disturbs circadian rhythm in children problem behaviour
2015-(2019)	Co-I	EU Horizon 2020 PHC-01-2014 – Dynahealth (No. 633595)	Understanding health, ageing and disease: determinants, risk factors and pathways, 180k€
2015-(2018)	Co-I	National Institutes of Environmental Health Sciences (No. NIH-HHSN273201500003C)	In utero exposure to organophosphates pesticides and neurodevelopment, 280k \$
2015-(2019)	Applicant and Co-I	EU Horizon 2020 PHC-03-2015: No.602768	CoSTREAM: Common mechanisms and pathways in Stroke and Alzheimer's disease, 815k € for Rotterdam

2016-2017	PI	Hersenstichting Nederland, Dutch Brain Foundation (No. GH2015.4.01)	How do the Dutch sleep? A meta-analysis of sleep duration and sleep patterns in the Netherlands, 100k€
2017-(2020)	Site-PI	EU H2020-Marie Skłodowska-Curie Actions Innovative Training Networks 2016 (No 721567)	CAPICE: Childhood and Adolescence Psychopathology: unravelling the complex etiology, 220k€
2017-2021	PI	VICI, Netherlands Organisation for Scientific Research, Personal grant, 016.VICI.170.200	How we shape our children's brains: From early life to adolescent adversity, 1.500k€
2017-2022	PI	Sophia Children's Hospital Res. Foundation (SSWO Grant No. 17-19)	Unraveling pathophysiological mechanisms of thyroid hormone development, 81k€
2017-(2022)	Co-I	EU-NORFACE-Era-Net: Dynamics of Inequality Across the Life-course (DIAL)	SEED: - Social Inequality and its effects on child development: A study of birth cohorts in the UK, Germany and the Netherlands (220k€)
2017-(2022)	Co-I	Dutch Medical Research Council Memorabel subsidieronde 5	Social factors in cognitive decline and dementia: towards an early intervention approach

STUDENT MENTORSHIP

2003-2008	S. J. Roza	Prenatal and Early Postnatal Brain Development, <i>cum laude</i>
2005-2008	E. v/d Vegt	The Impact of Early Childhood Adversities
2004-2008	J.F. v/d Berg	Sleep in Later Life: A population-based study
2004-2009	P.W. Jansen	Social Inequalities in Pregnancy Outcome and Childhood
2003-2010	H. Luijendijk	Vascular heart and brain disease and late life depression
2005-2010	J. Henrichs	Prenatal Determinants of Early Behavioural Development
2005-2010	M. Luijk	Infant attachment & stress regulation: a neurobiological study
2005-2010	N. J. Wolff	Psychological risk factors of pain in children
2005-2011	A. Tharner	Parents and Infants: Determinants of Attachment in a
2004-2011	M. Dekker	Pre-receptor regulation of cortisol in HPA axis functioning and metabolism.
2007-2012	S. Walter	Determinants of healthy ageing: studies of disabilities and survival in the elderly
2007-2012	F.Velders	Genes, Parental Psychiatric Symptoms and Child Emotional Problems
2006-2012	T. v.Batenburg	Causes and consequences of infant neuromotor development

2008-2013	5. E. Szekely	Children's emotional Functioning in the Preschool Period
2008-2013	K. Hek	Anxiety disorders and depression in older Adults
2009-2013	R. Kok	"Do as I say" Parenting and the biology of child self-Regulation
2009-2013	8. N. Lucassen	Do Fathers matter. In Search of Causes and Consequences of Parental Sensitivity
2009-2013	A. Ghassabian	Neurobiological Pathways to Childhood Psychopathology
2008-2013	J. Rijlaarsdam	Social Disadvantage and Child Emotional and Behavioural
2009-2014	M. Basten	Poor Self-Regulation in Young Children
2008-2014	B. Dierckx	Of Scaredy Cats and Cold Fish. The autonomic nervous system and child behaviour.
2009-2014	M. Verlinden	Population-based studies of bullying in young children
2010-2015	A. Luik	Neuropsychiatric studies of sleep and 24- hour activity Rhythms.
2010-2015	A. Ringoot	"Small Talk" Young children in the general population as informants of problem behaviour.
2009-2015	J. Steenweg	Prenatal nutrition and early childhood Behaviour
2011-2015	S. Mous	The Distracted brain. The neurobiology and neuro-psychology of ADHD.
2011-2015	S. Thijssen	Neurobiological Correlates of Externalizing and Prosocial Behaviour in Children.
2011-2015	E. Pappa	Genetics and Epigenetics of children's behaviour problems
2011-2015	D. Windhorst	Differential Susceptibility to parenting
2010-2016	N. van Mil	Prenatal influences on Foetal Growth and Children's Cognition and Behaviour.
2011-2016	S. Mirza	The Interface of Neurology and Psychiatry. Modern Epidemiological Approaches.
2012-2016	A. Sajjad	Early life determinants, cognition, and survival in population-based studies
2019-2016	N. Saridjan	Of cortisol and children. HPA-axis activity and the development of pre-schoolers.
2011-2016	R. Cents	Like mother, like child? Intergenerational transmission of psychopathology; a focus on parenting.
2012-2016	L. de Barse	"I do not want to eat that" Epidemiological studies of eating problems in the family
2012-2016	L. Blanken	On the Spectrum: The Neurobiology of childhood psychiatric symptoms.
2012-2016	R. Muetzel	The connections within: pediatric neuroimaging of brain development.
2011-2017	A. Wildeboer	Nice traits or nasty states. Dispositional and situational correlates of prosocial and antisocial behavior.
2013-2017	S. Cardona Cano	Trajectories of Picky Eating. From normal rite of passage to a developmental problem
2011-2017	L. van Ravesteyn	Treatment and impact of mental disorders during pregnancy

Type of supervision: Promotor, ongoing

2012-present	Olivera Jovanova, PhD student
2013-present	Desana Kocevaska, PhD student
2014-present	Alexander Neumann, PhD student
2014 present	Rosa Mulder, PhD student
2014-present	Philip Jansen, PhD student
2014-present	Ivonne Derks, PhD student
2014-present	Elize Verhoef, PhD student
2015-present	Koen Bolhuis, PhD student
2016-present	Michiel van den Dries, PhD student
2016-present	Andrea Cortes Hidalgo, PhD student
2016 present	Runyu Zou, PhD student
2017-present	Nienke Dijkstra, PhD student
2017-present	Elisabeth Diemer, PhD student
2018 present	Lisa Steenkamp, PhD student

Type of supervision: post doc supervision

2008-2010	Maris Kuningas	Senior Pharmacovigilance Inspector. Netherlands Health Care Inspectorate
2009-2011	Rachel Newson	Unilever, London
2009-2014	Hanan El Marroun	Assistant professor Erasmus MC, Child Psychiat.
2010-2013	Pauline Jansen	Associated Prof. Erasmus University, Psychology
2012-2015	Rosanne Freak-Poli	Post doc Monash University, Australia
