Working with homeless women teaches student valuable lessons
Anvita Kulkarni, SM '16 is seeing firsthand how social variables such as race and income affect health.

In search of an elusive foe
The bacteria that cause tuberculosis are experts at survival, allowing the disease to persist even when faced with the immune system and drugs. Sarah Fortune is on a mission to figure out why.

Student tracks sounds of the city
The sounds of life in Boston — from blaring music to jackhammers to vehicle noise — are the laboratory of Erica Walker, a doctoral candidate in environmental epidemiology, who is bicycling around Boston mapping noise levels in the city.
