**Tonight: Sustainability for Health Leadership Series**
Rick Fedrizzi, CEO and Founder of the U.S. Green Building Council will speak about why sustainability is a win-win for the economy and the environment as the Center for Health and the Global Environment launches its Sustainability for Health Leadership Series at the Harvard Club of Boston on Thursday, September 22. Dean Michelle A. Williams will deliver opening remarks.

---

**Widespread burden**
In low- and middle-income countries, one in four women experience antepartum (before birth) depression and one in five experience postpartum depression —rates significantly higher than in high-income countries.

---

**Watch: The public health response to eating disorders**
More than 30 million Americans grapple with eating disorders. During a Forum webcast, experts discussed the root causes and potential solutions to this growing public health concern.

---

Doug Dockery celebrates 40 years
Doug Dockery recently celebrated 40 years in public health with friends and colleagues at a pirate-themed party. Dockery has studied the exposures and health effects of fine particulate air pollution and was principal investigator for the landmark Harvard Six Cities Study. Dockery became an assistant professor at Harvard Chan School in 1987, and served as department chair from 2005 to 2016.

Join the Massachusetts Clean Air Challenge
By choosing a more sustainable mode of transportation you could win a $100 Amazon gift card and other prizes. The challenge runs through September 25.

Administrative Fellowship Program seeks applications
Broaden and enhance your management experience and professional skills in this year-long program.

Register for Forum on Population Health Equity
This year’s Forum will feature keynote talks by Jeffrey Brenner, Kathryn Edin, and Nancy Krieger; panel discussions on “Social Network Interventions to Address Health Equity” and “Housing, Neighborhoods, and Social Mobility”; and a series of nano courses on population health equity.
