Why Public Health? John Jackson
In our video series “Why Public Health?” we ask HSPH students and alumni to talk about what drew them to the field. John Jackson, ScD ’13, epidemiology, studies links between drug safety and mental health.

Applying global health lessons to U.S. health care
Suzanne Brundage, SM ’14, hopes to bring lessons she’s learned from her global health policy work — such as building coalitions and connecting the dots for policy makers between health and economic prosperity and security — to bear on domestic health challenges.

Change in cycle track policy needed to boost ridership, public health
A new study by HSPH researchers calls for more cycle tracks — physically separated, bicycle-exclusive paths adjacent to sidewalks — to encourage more people of all ages to ride bicycles.

Event Highlights
