Making a difference while making a profit
Can for-profit health ventures be an effective way to improve the health of poor people around the globe? HSPH students sought to answer that question by working with organizations in Nicaragua, India, and Cambodia.

Using business skills to propel 'big impact' health improvements
Five years ago, Shane Kiernan was an investment banker for a private equity real estate fund, helping evaluate potential acquisitions. Today he's working towards a degree in health policy and management from HSPH.

Ministering to health
More than a dozen serving health ministers from Africa, Southeast Asia, Latin America, and the Caribbean recently gathered for a three-day workshop to share experiences and broaden their leadership skills.

Event Highlights

What do you love about HSPH?
In honor of HSPH's centennial year, we are asking people from across the School's community to share what they love about HSPH.
Nancy Krieger, professor of social epidemiology, has been awarded the Wade Hampton Frost Lectureship from the American Public Health Association's Epidemiology section. This award recognizes a person who has made a significant contribution to addressing a public health issue of major importance by applying epidemiologic methods. Krieger will be honored at the APHA's annual meeting in Boston in November.

HSPH researcher awarded $5.6 million for role in new antibacterial resistance research effort

Scott Evans, senior research scientist in the Department of Biostatistics, has been awarded $5.6 million for his role in the Antibacterial Resistance Leadership Group, a new clinical research network funded by the National Institute of Allergy and Infectious Diseases, part of the National Institutes of Health. Evans will direct the network’s statistical and data management center, which is composed of a Statistical and Data Analysis Center located at HSPH and a Data Management and Informatics Center located at Duke University.

HarvardX’s fall course lineup includes new HSPH offerings

Harvard is planning to offer a dozen new online courses in the 2013-14 school year through HarvardX—the University’s branch of the online education platform edX—including new courses taught by HSPH faculty.

Recruitment to begin for new DrPH program

The Faculty at HSPH recently approved the development of a new leadership-focused Doctor of Public Health (DrPH). The first cohort of students to this program will arrive on campus in Summer/Fall 2014.
