What's killing the bees? HSPH researcher Alex Lu and colleagues believe that a common pesticide is responsible for a phenomenon known as colony collapse disorder. Bee survival is critical to the food supply, a third of which depends directly or indirectly on honeybee pollination.

Ariadne Labs, a center for health systems innovation, launches new space
HSPH's Atul Gawande and his colleagues at Ariadne Labs — a collaboration between Brigham and Women's Hospital and HSPH — have relocated to a new space in the Landmark Center.

Why Public Health? Tzipi Strauss
This video series asks HSPH students and alumni to talk about what drew them to the field. Tzipi Strauss, SM '13, is a pediatrician who wanted to gain skills to help her in a new management role at a children's hospital in Israel.

Around the School
Biostatistics prof honored
