

Weekly Funding Opportunity Announcements
Wednesday, November 6, 2013

NIH Funding Announcements – New This Week

For the week ending 11/1/13

New RFA's:

Announcement Number	Issuing Organization	Release Date	Opening Date (SF424 Only)	Expiration Date	Activity Code(s)	Title
RFA-AA-14-001	NIAAA	11-05-2013	12-21-2013	01-22-2014	U10,	Limited Competition: Collaborative Study on the Genetics of Alcoholism (COGA) (U10)
RFA-HD-14-024	NICHD	11-05-2013	02-28-2014	04-01-2014	U01,	Female Contraceptive Development Program (U01)
RFA-CA-14-001	NCI	11-04-2013		01-14-2014	U54,	Population-based Research Optimizing Screening through Personalized Regimens (PROSPR) Revision to Enhance the Collection of Cervical Cancer Screening Data (U54)
RFA-HL-14-028	NHLBI	11-01-2013		02-07-2014	R01,	Blood and Vascular Systems Response to Sepsis (R01)

New PA's:

Announcement Number	Issuing Organization	Release Date	Opening Date (SF424 Only)	Expiration Date	Activity Code(s)	Title
PAR-13-384	NINDS	11-05-2013	12-25-2013	01-26-2016	R25,	NINDS Research Education Programs for Residents and Fellows in Neurology, Neurosurgery, Neuropathology, Neuroradiology and

						Emergency Medicine (R25)
PAR-13-385	NICHD	11-05-2013	12-30-2013	01-31-2015	R01,	Developmental Origins of Health and Disease (DOHaD): Epigenetic Modification in Gametogenesis and Transgenerational Inheritance (R01)
PAR-13-383	NIAAA	11-04-2013	12-14-2013	01-15-2016	U01,	Replication of Key Clinical Trials Initiative (U01)

Other Federal Funding Announcements

Department of Defense

FY13 DOD CDMRP Program Pre-Announcements

The Fiscal Year 2013 (FY13) Defense Appropriations Act provides research funding for the peer reviewed programs managed by the Department of Defense (DOD) office of Congressionally Directed Medical Research Programs (CDMRP).

Funding Opportunities now available:

- [Breast Cancer](#)
- [Defense Medical Research and Development Program](#)
- [Duchenne Muscular Dystrophy](#)
- [Gulf War Illness](#)
- [Lung Cancer](#)
- [Peer Reviewed Cancer](#)
- [Spinal Cord Injury](#)

***New** - [HRSA: Service Area Competition - Additional Area \(SAC-AA\) ? Marquette, Michigan; Omaha, Nebraska; and Hood River, Oregon](#)

Closing Date: November 22, 2013

***New** - [NIH: Enhancing the Capacity for Biomedical Research on Tuberculosis for HIV-infected Mothers and Children in India \(R01\) Grant](#)

Closing Date: December 27, 2013

***New** - [NIH: Sub-Saharan African Collaborative HIV and Cancer Consortia \(U54\) Grant](#)

Closing Date: January 17, 2014

***New** - [PhRMA Foundation: Adherence Intervention Evaluation Award Center for Adherence Improvement](#)
Closing Date: February 1, 2014

***New** - [NIH: Secondary Analyses of Social and Behavioral Datasets in Aging \(R03\) Grant](#)
Closing Date: February 3, 2014

***New** - [NIH: Pilot Clinical Trials to Eliminate the Latent HIV Reservoir \(U01\) Grant](#)
Closing Date: March 7, 2014

***New** - [NIH: Clinical Research in the Prevention, Diagnosis, and Treatment of HIV-Related Heart, Lung, and Blood \(HLB\) Diseases in Adults and Children \(R01\) Grant](#)
Closing Date: January 8, 2015

***New** - [NIH: Establishing Outcome Measures for Clinical Studies of Oral and Craniofacial Diseases and Conditions \(R21\)](#)
Closing Date: September 7, 2015

***New** - [NIH: Establishing Outcome Measures for Clinical Studies of Oral and Craniofacial Diseases and Conditions \(R01\)](#)
Closing Date: September 7, 2015

Other Funding Opportunities

***New - National Science Foundation - Alliance for Graduate Education and the Professoriate (AGEP)/ NSF 14-505**

Below, please find details of a limited submission opportunity: [NSF 14-505/ Alliance for Graduate Education and the Professoriate \(AGEP\)](#)

Please note that there are three components to this opportunity; one component, AGEP Transformation, limits the number of applications from across Harvard. The other two components do not place a limit on the number of applications from Harvard, but **“projects must be distinct and not overlap or have similar activities or education research components with proposals in other AGEP tracks”*

The three components are:

- AGEP Transformation: Harvard may serve as lead on only one AGEP Transformation proposal (there is no limit on how many AGEP Transformation proposals Harvard may partner on)
- AGEP Knowledge Adoption and Translation (AGEP-KAT)- no limit to the number of proposals that can be submitted*
- AGEP Broadening Participation Research in STEM Education (AGEP-BPR)- no limit to the number of proposals that can be submitted*

The office of the Vice Provost for Research will run an internal competition (described below) to determine the AGEP Transformation proposal that will go forward from Harvard.

Sponsor: National Science Foundation

Program: Alliance for Graduate Education and the Professoriate (AGEP)/ NSF 14-505

Internal Due Date: 12/9/13

Sponsor LOI: Not applicable

Internal Competition Instructions: Applicants should submit, in one PDF, the following to autumn_bennett@harvard.edu by the internal due date

- A two (2) page proposal (related graphics may go a third page)
- CVs of the PI and, if applicable, Co-PI(s) (any format acceptable)
- Name of partner organization(s)/institution(s). Business address of the organization and year of founding. Please indicate if the partnership is confirmed or still under discussion
- Budget narrative (not more than 500 words)

Sponsor Due Date: 2/5/14 for AGEP Transformation Applications

Key Features of the FOA

- This opportunity calls for strategic alliances of partner institutions and organizations
- These alliances are for 3 ½ years (42 months)
- Estimated number of AGEP Transformation awards: 5
- Anticipated funding amount: \$4,800,000
- Anticipated Type of Award: Standard Grant or Continuing Grant or Cooperative Agreement
- Awardees may be eligible for up to five years of additional support after the initial project

From the announcement:

AGEP is particularly interested in building knowledge areas related to the following questions:

- What are the underlying issues affecting the differential participation rates in STEM graduate education, postdoctoral training, and academic STEM careers of URMs?
- What additional or different factors exist for URMs who are men, women, persons with disabilities, and/or low socio-economic individuals?
- What are the experiences and interactions in graduate and postdoctoral settings that enhance or inhibit URM academic performance and encourage or discourage URM persistence to degree and career interest in the professoriate?
- What are the interpersonal, behavioral, and institutional causes of variable URM success in STEM graduate and postdoctoral training?
- What are the organizational and STEM cultural factors that make STEM graduate and postdoctoral training environments and STEM professional careers, especially academic careers, more or less welcoming and inviting to URMs?
- How does a diverse STEM graduate student body, postdoctoral trainee population, and professional workforce and academy impact STEM innovation and productivity?

***New – The Damon Runyon Clinical Investigator Award**

2014 OPEN APPLICATION

DEADLINE: Monday, February 17, 2014

INSTITUTIONAL NOMINATIONS ARE NO LONGER REQUIRED TO APPLY

Every year the possibility of major breakthroughs occurring as a direct result of clinical cancer investigation increases. And yet, every year the number of young physicians entering clinical cancer research decreases.

The Damon Runyon Research Foundation seeks to help reverse this trend, and asks that you encourage eligible candidates at your institution to apply for its Clinical Investigator Award program, which supports the most promising young physician-scientists willing to devote their careers to the development and application of new diagnostic approaches and therapeutic strategies for cancer and cancer prevention through clinical investigation. Institutional nominations are not required and there is no limit to the number of applications that can be received from a particular institution, however, only one application will be accepted from a mentor (*including co-mentorships*) or investigator per review session.

The award will provide \$450,000 over three years in financial support for the investigator's scientific needs. In addition, the Foundation will retire up to \$100,000 of any medical school debt owed by the awardee. The Foundation is seeking independent investigators engaged in disease-oriented research that is characterized by exceptional innovation and creativity. The goal is to support the best young physician-scientists whose work is likely to meaningfully impact the practice of cancer medicine. Preference is given to those whose research adheres to the "Handshake Rule," meaning that the physician will conduct research studies that directly involve patients. After review of candidate's written proposals, finalists will be invited to come to the Foundation to be interviewed by the selection committee. Those candidates who epitomize the goals of the award—and are most likely to be successful in this challenging career—will be offered the Damon Runyon Clinical Investigator Award.

Damon Runyon also has a novel partnership with the National Institutes of Health (NIH) and the National Cancer Institute (NCI), which gives Damon Runyon Clinical Investigators unique open access to the NIH Clinical Center. The goal of this partnership is to give investigators the opportunity to partner with the NIH/NCI, allowing them to tap into the special expertise and resources at the Clinical Center to undertake pilot studies of specific diseases and to develop collaborative partnerships that accelerate clinical and translational cancer research. Please see our website for details on potential opportunities for partnership.

The 2014 application deadline is Monday, February 17. Detailed information about the award, eligibility criteria, application guidelines and forms are available on the Foundation's website, www.damonrunyon.org. If you have any questions, please call the Foundation at 212-455-0520.

***New - The Leona M. and Harry B. Helmsley Charitable Trust Breakthrough Therapeutics Initiative**

The Type 1 Diabetes Program (T1D) at The Leona M. and Harry B. Helmsley Charitable Trust (Trust) is launching an initiative to identify new drugs or therapies that will benefit T1D patients and their caregivers. Through the Breakthrough Therapeutics Initiative (BTI) the Trust will invest in one-year projects that have a strong rational but no preliminary data for testing candidate therapeutics in T1D.

T1D is an autoimmune disease caused by a combination of genetic and environmental factors. It is characterized by the declining function and loss of beta cells which produce insulin in response to glucose. Today, the disease is primarily managed by receiving exogenous insulin thru injections or an insulin pump. Therapies that could restore function of beta cells are not yet available, therefore, there is an unmet need for novel therapies that focus on beta cells and/or reverse autoimmunity.

To learn more about this initiative and begin the first stage of an application by submitting a letter of inquiry, we encourage you to review the Trust's website at: <http://helmsleytrust.org/program-areas/health-medical-research/type-1-diabetes/breakthrough-therapeutics-initiative>

The complete Request for Proposals (RFP) and frequently asked questions (FAQs), including eligibility requirements and the timeline for reviewing applications and awarding of grants are also available on our website.

Please note that we are not accepting telephone calls regarding the initiative; however, email inquiries may be sent to T1Dresearch@helmsleytrust.org.

We hope that you will review the RFP and consider submitting a letter of inquiry.

Best regards,

The T1D Team

**Burroughs Wellcome Fund - Innovation in Regulatory Science Awards
Now Accepting Preproposals**

The Innovation in Regulatory Science Award provides \$500,000 over five years to support investigators who are addressing research questions that will lead to innovation in regulatory science, with ultimate translation of those results into improving the regulatory process.

To find out more information, please visit the [Innovation in Regulatory Science Awards website](#).

The preproposal deadline is **November 18, 2013**.

Limited Submission Opportunity: Rita Allen Foundation Scholars Program

Sponsor: Rita Allen Foundation

Program: Rita Allen Foundation Scholars Program

Internal Due Date: **Monday, December 2, 2013, 5:00 pm EST**

Internal Competition Instructions:

Interested applicants from HSPH and the Cambridge Campus are requested to send the following to autumn_bennett@harvard.edu by the stated deadline:

- A 2 page proposal/ narrative plan of work. A third page may be used for related graphics
- A current CV (any format acceptable)
- Nomination letter from a Department Chair or Center Director
- Details of current and pending support from other funding sources

Sponsor Due Date: Applications accepted on a rolling basis until January 26, 2014

Overview of Opportunity:

The Rita Allen Foundation Scholars Program provides grants to scientists in the early stages of their career who do basic biomedical research in the following areas: analgesics, cancer, immunology, and neuroscience.

Key Features of the FOA:

- Scholars can receive up to \$110,000 for a maximum of five years
- Applicants should be in the first three year of their appointment to Assistant Professor
- Scholar grant funds may be used for direct project expenses including up to 50% of the Scholar's Compensation
- Post Docs and Associate Professors are not eligible to apply for this opportunity

For this opportunity Harvard is viewed as two institutions, each allowed one nomination. The division of the University is as follows:

Harvard Medical School (Interested Applicants from HMS please refer to the HMS Foundation Funds office/ Betty Carbutari 617-432-7463) and Harvard School of Public Health and the Cambridge Campus

The Office of the Vice Provost for Research will run an internal competition to select an applicant from HSPH/Cambridge Campus for submission to the Rita Allen Foundation.

Rita Allen Foundation and American Pain Society – 2014 Award in Pain

This year the Rita Allen Foundation has partnered with the American Pain Society to offer an additional **2014 Award in Pain**.

Applications open November 1, 2013 and close January 17, 2014.

The Rita Allen Foundation (RAF) and American Pain Society (APS) announce the 2014 Award in Pain. The RAF and APS may award two grants in the amount of \$50,000 annually, for a period of up to three years to those research proposals demonstrating the greatest merit and potential for success.

Eligible candidates will have completed their training and provided persuasive evidence of distinguished achievement or extraordinary promise in basic science research in pain. Candidates should be in the early stages of their career with an appointment at faculty level. The entire award is to be allocated to projects specifically chosen

by the recipient. Overhead is not supported.

Research Topics

Proposed research projects should be directed towards the molecular biology of pain and/or basic science topics related to the development of new analgesics for the management of pain due to terminal illness.

Deadlines

Applications may be submitted online and are due by midnight Eastern Time on January 17, 2014. Grant awards will be announced in April 2014 and funds will be awarded for the initial twelve month grant period upon satisfactory execution of the grant agreement between the RAF and the grant recipient's institution. For any questions regarding the application please see the detailed **program guidelines**.

General Information

The application must include a written proposal in English of no more than six pages, including a page of no more than 20 references, and curriculum vitae. The candidate's application must include a letter of support from the Department Chair or Institute Head demonstrating strong support for the candidate's proposed research and career development. Two other required letters of support are from the candidate's PhD advisor, and a mentor who has impacted the candidate's research. The candidate will provide the e-mail contact information for the individuals requested to submit letters of support and each individual will be contacted by the online system requesting that their letters be uploaded directly into the candidate's application. The candidate should list current and pending research support from all sources.

Eligibility

- To be eligible for the Rita Allen Foundation Award in Pain the applicant:
- Must demonstrate the strong support of the appropriate administrators and Department Chair or Institute Head.
- Should have been on a tenure track for no more than three years and support will be reconsidered if a Rita Allen Foundation Scholar is awarded tenure.
- Must conduct the research and be appointed at an institution in the United States or Canada.
- Each candidate must indicate if an application has been submitted for another APS research award and the candidate may accept only one APS research award.

Grant Budget and Grantee Obligations:

- Eligible grant expenses may include Principal Investigator salary but not institutional overhead
- Recipients are required to submit a 500 word annual progress report and a financial report to the RAF in accordance with the terms of the grant agreement.
- Investigators are required to present an abstract presentation of the sponsored research at a future APS Annual Scientific Meeting.

Click here to view previous Rita Allen Foundation Award in Pain recipients.

The Award in Pain is not a limited submission, so there are no restrictions on how many applicants may apply. However, applicants will need their applications physically signed by the Institution's Signing Official.

The Rita Allen Foundation and the American Pain Society have informed the OVPR that they consider the Financial Officer of the applicant's respective school the signing official for this opportunity.

Limited Submission Opportunity: Brain Research Foundation/ 2014 Seed Grant Program (Neuroscience)

The Brain Research Foundation has invited Harvard to nominate two (2) faculty members to submit a Letter of

Intent for the 2014 Seed Grant Program. The BRF considers Harvard one institution for this opportunity, and as such HMS is not eligible to make two separate nominations.

Eligible PIs for this opportunity must be full time Assistant or Associate Professors working in the field of Neuroscience. This includes molecular and clinical neuroscience as well as studies of neural, sensory, motor, cognitive, behavioral and emotional functioning in health and disease. The grant period is for one year in the amount of 50,000 (direct costs).

Proposals must be new research projects not funded by other sources.

To facilitate the interest in this opportunity the Office of the Vice Provost for Research is running the following internal competition:

Sponsor: Brain Research Foundation

Program: 2014 Seed Grant Program

Internal Due Date: Monday, November 25th, 2013 at 5:00 pm EST

Internal Competition Instructions: Interested applicants should submit the following to autumn_bennett@harvard.edu

- Nomination letter from a Department Chair/ Center Director
- A two page research proposal. A third page may be used for related graphics, if needed.
- A current CV (no specific format required)
- A budget (one page max.) describing how the award funds would be used. The budget may be in table or narrative form and does not need to follow an established template. If, after internal review, more information or clarification is needed, follow up will not affect the standing of an otherwise completed and timely submission.

Sponsor Due Date: January 8, 2014

Overview:

“The purpose of our Program is to provide start-up monies for new research projects in the field of Neuroscience that will likely lead to extramural funding from the National Institutes of Health (NIH) or other outside funding sources.”

The Life Sciences Research Foundation – Postdoctoral Fellowship Program

The LSRF solicits monies from industry, foundations and individuals to support postdoctoral fellowships in the life sciences. Active solicitation of funds continues, for which we need the assistance of all concerned individuals. We recognize that discoveries and the application of innovations in biology for the public's good will depend upon the training and support of the highest quality young scientists in the very best research environments. LSRF awards fellowships across the spectrum of the life sciences: biochemistry; cell, developmental, molecular, plant, structural, organismic population and evolutionary biology; endocrinology; immunology; microbiology; neurobiology; physiology; virology.

[Click here](#) for more information.

United States-Israel Educational Foundation (USIEF), the Fulbright commission for Israel

The United States-Israel Educational Foundation (USIEF), the Fulbright commission for Israel, offers 8 fellowships to American post-doctoral researchers in support of work to be carried out at Israeli universities during the course of the 2014/2015-2015/2016 academic years.

The US Post-Doctoral Fellowship Program is open to candidates in all academic disciplines. Please click below for further details:

http://www.bsf.org.il/data/FormsToDownload/Fulbright_Israel_Post_Doctoral2013.doc

Keystone Symposia Early Career Investigator Travel Awards (ECITA)

Keystone Symposia has now some additional funds for Early Career Investigator Travel Awards (ECITA). These awards are for Assistant Professors from designated URM backgrounds in the U.S., who are “bench” researchers. The purpose is to support their research success by providing funds for them to attend one of the Keystone Symposia research meetings (Up to \$1800).

The application may be found on-line at www.keystonesymposia.org/diversity <<http://www.keystonesymposia.org/diversity>> See ECITA.

- There will be (9) awards for the 2013/2014 Keystone Symposia meeting season.
- The applicants must choose a scheduled meeting from March 1, 2013 through February 28, 2014 and have all receipts submitted for reimbursement to Keystone Symposia within 2 weeks post the end of the meeting.
- Reimbursement is only for registration, ground and air transportation, and lodging.
- Applications are reviewed by meeting organizers and the DLSP office.
- Awards are made based on the applicant's research question and the likelihood of getting the question answered at the meeting selected.
- All awards will be made on a "first come - first served" basis.
- Award Amount: 1,950 USD. This is a reimbursement award - all receipts must be submitted at one time for reimbursement.
- The application process for such awards will open March 1, 2013.
- [Click here](#) to download the application.

Applicants MUST be engaged in laboratory research and focused on a career in “bench” research.

Robert Wood Johnson Foundation: Active Calls for Proposals

Conference on
Complex Systems, Health Disparities & Population Health: Building Bridges

February 24-25, 2014
Natcher Conference Center
NIH Campus, Bethesda, MD

Presented by the University of Michigan Network on Inequality, Complexity and Health

Improving population health and eliminating health disparities is a critical task, yet our efforts are stymied by the complexity of the task, involving as it does causes of poor health that range from public policy to the nature of our neighborhoods to how we behave to biology. On February 24-25, 2014, at the National Institutes of Health Natcher Conference Center in Bethesda, Maryland, join scholars and practitioners from the United States and abroad to learn about and see examples of how complex systems science can help guide our research and policy efforts to eliminate health disparities and improve the health of our population.
