**Other Federal Funding Announcements**

**Department of Defense**  
FY13 DOD CDMRP Program Pre-Announcements

The Fiscal Year 2013 (FY13) Defense Appropriations Act provides research funding for the peer reviewed programs managed by the Department of Defense (DOD) office of Congressionally Directed Medical Research Programs (CDMRP).
Funding Opportunities now available:

- Defense Medical Research and Development Program (FY13/14)
- Psychological Health/Traumatic Brain Injury

*New - HRSA: Ryan White HIV/AIDS Program National HIV Training and Technical Assistance Cooperative Agreements
Closing Date: March 3, 2014

*New - CDC: Longitudinal Study of a Population-based Cohort Grant
Closing Date: March 31, 2014

*New - HRSA: National Rural Health Policy and Community Development Program Grant
Closing Date: March 31, 2014

*New - CDC: Improving Access to Eye Care among Persons at High Risk of Glaucoma Modification 1
Closing Date: April 1, 2014

*New - USAID: Ghana USAID-Accra Systems for Health
Closing Date: April 2, 2014

*New - CDC: National Network of Sexually Transmitted Diseases Clinical Prevention Training Centers (NNPTC)
Closing Date: May 6, 2014

*New - NIH: Network and Infrastructure Support for Development of Interdisciplinary Aging Research (R24)
Closing Date: May 28, 2014

*New - NIH: Administrative Supplements to Existing NIH Grants and Cooperative Agreements (Parent Admin Supp) Grant
Closing Date: January 30, 2017

DHHS: Services Grant Program for Residential Treatment for Pregnant and Postpartum Women (Short Title: PPW) Grant
Closing Date: March 31, 2014

DHHS: Pre-application: Opportunities for Collaborative Research at the NIH Clinical Center (X02) Modification 3
Closing Date: November 20, 2014

NIH: Postbaccalaureate Research Education Program (PREP) (R25) Grant
Closing Date: January 25, 2016

DRDC: Birth by Cesarean Delivery and Failure on First Otoacoustic Emissions Hearing
Closing Date: February 28, 2014

HRSA: Service Area Competition - Additional Area (SAC-AA) DC, FL, GA, ID, IL, KS, MO, MT, NY, OR, PA
Closing Date: February 19, 2014
DRDC: Development of quality measures to facilitate reporting of newborn hearing screening and follow-up data by providers to jurisdictional EHDI programs
Closing Date: February 28, 2014

DRDC: Evaluating Developmental Monitoring with “Learn the Signs. Act Early.” Materials in Child Care Settings
Closing Date: February 28, 2014

DRDC: Linkage of electronic medical records and administrative databases: a novel tool for surveillance and health services research for rare conditions
Closing Date: February 28, 2014

DRDC: Project to Learn About Youth – Mental Health (PLAY-MH)
Closing Date: February 28, 2014

DRDC: Validating and/or modifying mainstream health weight interventions for people with disabilities
Closing Date: February 28, 2014

HRSA: Supporting Healthy Start Performance Project
Closing Date: March 3, 2014

CDC: Motor Vehicle Injury Prevention: Evaluation of Increased Nighttime Enforcement of Seatbelt Use
Closing Date: March 19, 2014

CDC: Research on Integration of Injury Prevention in Health Systems
Closing Date: March 19, 2014

CDC: Research to Prevent Prescription Drug Overdoses
Closing Date: March 19, 2014

RWJF: Public Health Law Research: Making the Case for Laws That Improve Health
Closing Date: April 15, 2014

NIH: Alzheimer's Disease Core Centers (P30)
Closing Date: May 14, 2014

NIH: Alzheimer's Disease Research Centers (P50)
Closing Date: May 14, 2014

NIH: Mentored Career Development Award in Biomedical Big Data Science for Clinicians and Doctorally Prepared Scientists (K01) Grant
Closing Date: April 1, 2015

NIH: Courses for Skills Development in Biomedical Big Data Science (R25)
Closing Date: April 1, 2016

NIH: Open Educational Resources for Biomedical Big Data (R25)
Closing Date: April 1, 2016

DHHS: FY14 Mobilization for Health: National Prevention Partnership Awards (NPPA) Program Modification 8
Closing Date: March 3, 2014

NIH: Using Social Media to Understand and Address Substance Use and Addiction (R01) Grant
Closing Date: March 25, 2014

**NIH: Using Social Media to Understand and Address Substance Use and Addiction (R21) Grant**

Closing Date: March 25, 2014

**NIH: Centers for AIDS Research and Developmental Centers for AIDS Research (P30) Modification 1**

Closing Date: July 28, 2016

**NIH: Substance Use and Abuse, Risky Decision Making and HIV/AIDS (R01) Grant**

Closing Date: May 7, 2017

**NIH: Substance Use and Abuse, Risky Decision Making and HIV/AIDS (R21) Grant**

Closing Date: May 7, 2017

**NIH: Substance Use and Abuse, Risky Decision Making and HIV/AIDS (R03) Grant**

Closing Date: May 7, 2017

**DHHS: FY14 Mobilization for Health: National Prevention Partnership Awards (NPPA) Program Modification 3**

Closing Date: March 3, 2014

**NIH: Programs to Increase Diversity Among Individuals Engaged in Health-Related Research (PRIDE)(R25) Grant**

Closing Date: March 13, 2014

**CDC: Motor Vehicle Injury Prevention: Evaluation of Increased Nighttime Enforcement of Seatbelt Use**

Closing Date: March 19, 2014

**NIH: Environmental Health Sciences Core Centers (EHS CC) (P30) Grant**

Closing Date: April 22, 2014

**DHHS: Centers for AIDS Research and Developmental Centers for AIDS Research (P30) Grant**

Closing Date: July 28, 2016

**NIH: Administrative Supplements for Research on Sex/Gender Differences (Admin Supp) Grant**

Closing Date: February 6, 2014

**CDC: Centers for Disease Control and Prevention Centers for Disease Control and Prevention Evaluating Promising Strategies to Build the Evidence Base for Sexual Violence Prevention Grant**

Closing Date: March 19, 2014

**CDC: Centers for Disease Control and Prevention Centers for Disease Control and Prevention Research on Integration of Injury Prevention in Health Systems Grant**

Closing Date: March 19, 2014

**CDC: Research Grants for Preventing Violence and Violence Related Injury Grant**

Closing Date: March 19, 2014

**DOD: FY13 - FY14 Department of Defense HIV/AIDS Prevention Program: Military Specific HIV/AIDS Prevention, Care, and Treatment Program for PEPFAR (President’s Emergency Plan for AIDS Relief) Funded Countries Modification 12**

Closing Date: September 30, 2014
NIH: International Collaborations in Infectious Diseases Research (U01) Grant
Closing Date: March 7, 2014

NIH: International Collaborations in Infectious Diseases Research (U19) Grant
Closing Date: March 7, 2014

DHHS: Office of the Assistant Secretary for Health Announcement of the Anticipated Availability of Funds for Research on Research Integrity Modification 1
Closing Date: April 14, 2014

DHHS: Agency for Health Care Research and Quality Advances in Patient Safety through Simulation Research (R18) Grant
Closing Date: September 25, 2016

NIH: Collaborative Activities to Promote Metabolomics Research (Admin Supp) Grant
Closing Date: February 14, 2014

DHHS: Agency for Health Care Research and Quality Exploratory and Developmental Grant to Improve Health Care Quality through Health Information Technology (IT) (R21) Grant
Closing Date: November 16, 2016

USAID: Innovate for Health - Ghana - Modification 2
Closing Date: June 30, 2014

NIH: Cancer Center Support Grants (CCSGs) for NCI-designated Cancer Centers (P30) Grant
Closing Date: January 7, 2017

NIH: Analysis of Genome-Wide Gene-Environment (G x E) Interactions (R21) Grant
Closing Date: February 14, 2014

NIH: Female Contraceptive Development Program (U01)
Closing Date: March 31, 2014

NIH: Developmental Origins of Health and Disease (DOHaD): Epigenetic Modification in Gametogenesis and Transgenerational Inheritance (R01) Grant
Closing Date: January 30, 2015

NIH: Replication of Key Clinical Trials Initiative (U01) Grant
Closing Date: January 14, 2016

NIH: NINDS Research Education Programs for Residents and Fellows in Neurology, Neurosurgery, Neuropathology, Neuroradiology and Emergency Medicine (R25) Grant
Closing Date: January 25, 2016

NIH: Nutrition and Alcohol-Related Health Outcomes (R03) Modification 1
Closing Date: January 7, 2017

NIH: Nutrition and Alcohol-Related Health Outcomes (R21) Modification 1
Closing Date: January 7, 2017
NIH: Nutrition and Alcohol-Related Health Outcomes (R01) Modification 1
Closing date: May 7, 2017

USAID: Integrated Nutrition, Hygiene, and Sanitation' Grant
Pre-Notice

NIH: Pilot Clinical Trials to Eliminate the Latent HIV Reservoir (U01) Grant
Closing Date: March 7, 2014

NIH: Clinical Research in the Prevention, Diagnosis, and Treatment of HIV-Related Heart, Lung, and Blood (HLB) Diseases in Adults and Children (R01) Grant
Closing Date: January 8, 2015

NIH: Establishing Outcome Measures for Clinical Studies of Oral and Craniofacial Diseases and Conditions (R21) Grant
Closing Date: September 7, 2015

NIH: Establishing Outcome Measures for Clinical Studies of Oral and Craniofacial Diseases and Conditions (R01) Grant
Closing Date: September 7, 2015

NIH: Advancing the Science of Geriatric Palliative Care (R21) Modification 1
Closing Date: January 7, 2017

NIH: Advancing the Science of Geriatric Palliative Care (R01) Modification 1
Closing Date: January 7, 2017

NIH: Pre-application: Opportunities for Collaborative Research at the NIH Clinical Center (X02) Modification 1
Closing Date: November 20, 2014

NIH: Opportunities for Collaborative Research at the NIH Clinical Center (U01) Modification 2
Closing Date: March 20, 2015

NIH: Research on Malignancies in the Context of HIV/AIDS (R21) Grant
Closing Date: September 7, 2016

NIH: Research on Malignancies in the Context of HIV/AIDS (R01) Grant
Closing Date: September 7, 2016

NIH: Modeling Social Behavior (R01)
Closing Date: January 7, 2017

NIH - Evaluating Natural Experiments in Healthcare to Improve Diabetes Prevention and Treatment (R18) Grant
Closing Date: November 1, 2016

NIH: Pragmatic Research in Healthcare Settings to Improve Diabetes Prevention and Care (R18) Grant
Closing Date: November 1, 2016

NIH - Research on the Health Determinants and Consequences of Violence and its Prevention, Particularly Firearm Violence (R03) Grant
Closing Date: January 7, 2017
NIH - Research on the Health Determinants and Consequences of Violence and its Prevention, Particularly Firearm Violence (R01) Grant
Closing Date: January 7, 2017

NIH - Planning Grants for Pragmatic Research in Healthcare Settings to Improve Diabetes Prevention and Care (R34) Grant
Closing Date: November 1, 2016

NIH - Research on the Health Determinants and Consequences of Violence and its Prevention, Particularly Firearm Violence (R21) Grant
Closing Date: January 7, 2017

NIH - Opportunities for Collaborative Research at the NIH Clinical Center (U01)
Closing Date: November 20, 2014

NIH - Nutrition and Alcohol-Related Health Outcomes (R21)
Closing Date: February 7, 2017

NIH: Sustained Release of Antivirals for Treatment and Prevention of HIV
Closing Date: January 7, 2016

NIH: Translational Research to Improve Diabetes and Obesity Outcomes (R01)
Closing Date: January 7, 2017

NIH: Bridges to the Doctorate (R25)
Closing Date: September 25, 2015

NIH: Mechanisms of Alcohol and Stimulant Co-Addiction (R01)
Closing Date: January 7, 2017

NIH: Neuroscience Research on Drug Abuse (R21)
Closing Date: January 7, 2017

NIH: National Cancer Institute Program Project Applications (P01)
Closing Date: January 7, 2015

NIH: Increased Knowledge and Innovative Strategies to Reduce HIV Incidence-iKnow Projects
Closing Date: January 7, 2016

NIH: Methods for Prevention Packages Program III (MP3 III) (R01)
Closing Date: January 7, 2016

NIH: Behavioral and Social Science Research on Understanding and Reducing Health Disparities (R01)
Closing Date: September 7, 2016

NIH: Exploratory/Developmental Research Grant Program (Parent R21)
Closing Date: September 7, 2016

NIH: Research Centers in Injury and Peri-operative Sciences (P50)
Closing Date: September 7, 2016

NIH: Research Project Grant (Parent R01)
Closing Date: September 7, 2016

**NIH: Small Research Grant Program (Parent R03)**
Closing Date: September 7, 2016

**PCORI Funding Opportunities**
PCORI has three broad funding cycles a year. Starting with May 2013, cycles are designated by the month and year that applications are due. More targeted and special funding opportunities may be available outside of these cycles.

**NIH: Novel NeuroAIDS Therapeutics: Integrated Preclinical/Clinical Program (P01)**
Closing Date: January 7, 2016

**NIH: Implications of New Digital Media Use for Underage Drinking, Drinking-Related Behaviors, and Prevention Research (R21)**
Closing Date: September 7, 2016

**NIH: NIA Program Project Applications (P01)**
Closing Date: September 7, 2016

**NIH: NICHD Program Project Grant (P01)**
Closing Date: September 7, 2016

**NIH: Secondary Analyses of Alcohol and Chronic Disease (R21)**
Closing Date: September 7, 2016

**CDC: Prevention NIOSH Small Research Program**
Closing Date: September 8, 2015

**CDC: Prevention NIOSH Exploratory/Developmental Grant Program**
Closing Date: September 8, 2015

**CDC: Occupational Safety and Health Research**
Closing Date: March 5, 2018

**NIH: Tobacco Control Regulatory Research**
Closing Date: January 16, 2015

**NIH: NIAID Resource-Related Research Projects (R24)**
Closing Date: September 7, 2016

**NIH: NINDS Research Education Opportunities (R25)**
Closing Date: September 7, 2016

**NIH: Chronic Inflammation and Age-related Disease (R01) Grant**
Closing Date: September 7, 2014

**FDA: Advancing Medical Device Postmarket Surveillance Infrastructure and Epidemiologic Methodologies through Multi-stakeholder Partnership**
Closing Date: April 30, 2017

**NIH: National Cooperative Reprogrammed Cell Research Groups (NCRCRG) to Study Mental Illness (U19)**
Closing Date: January 7, 2016
NIH: Countermeasure Against Chemical Threats (CounterACT) Cooperative Research Projects (U01)
Closing Date: September 16, 2015

NIH: Innovative Measurement Tools for Community Engaged Research Efforts (R01)
Closing Date: September 7, 2016

NIH: Symptom Management in HIV-Infected Individuals with Comorbid Conditions (R01)
Closing Date: September 7, 2016

NIH: MARC Undergraduate Student Training in Academic Research (U-STAR) National Research Service Award (NRSA) Institutional Research
Closing Date: June 24, 2015

NIH: Dissemination and Implementation Research in Health
Closing Date: January 7, 2016

NIH: Understanding and Promoting Health Literacy
Closing Date: May 7, 2016

NIH: Research on Alcohol and HIV/AIDS (R03)
Closing Date: May 7, 2016

NIH: Regional and International Differences in Health and Longevity at Older Ages (R03)
Closing Date: September 7, 2016

NIH: Obesity Policy Evaluation Research (R01)
Closing Date: May 7, 2016

NIH: School Nutrition and Physical Activity Policies, Obesogenic Behaviors, and Weight Outcomes
Closing Date: May 7, 2016

CDC: NIOSH Exploratory/Developmental Grant Program
Closing Date: September 8, 2015

CDC: NIOSH Small Research Program
Closing Date: September 8, 2015

Harvard Internal Funding Opportunities

*New – Office of Research Strategy and Development - Career Incubator Fund (CIF) Request for Applications*

The Office of Research Strategy and Development is pleased to announce the next round of HSPH Career Incubator Funding (CIF).

A key goal of the HSPH Career Incubator Fund (CIF) is to encourage and support the scientific career development of Assistant and Associate Professors on the tenure ladder at HSPH. To advance this goal, HSPH will solicit proposals for (a) Pilot Projects, or (b) Data Collection/Analysis Projects that will provide faculty the opportunity to
develop their research ideas, collect pilot data, or conduct secondary data analysis to be used as pilot data. A key goal of the CIF is to maximize faculty competitiveness for extramural funding. Although not required, we are particularly interested in proposals that are interdisciplinary in nature. A key goal is to allow faculty to develop innovative and novel ideas/methods.

**ELIGIBILITY**
Primary HSPH Assistant and Associate Professors who are within 3-8 years of initial appointment are eligible to apply. The goal is to support faculty whose start-up packages have ended. (See attached RFA for additional detail on eligibility criteria.)

**NUMBER AND SIZE OF AWARDS**
*Pilot Projects*: We expect to make up to four awards of $50,000 each for one-year Pilot Projects.
*Data Collection/Analysis Projects*: We expect to make two $10,000 awards to support a smaller Data Collection/Analysis Project

**SECOND YEAR FUNDING/COMPETITIVE RENEWAL APPLICATIONS NO LONGER ACCEPTED**
In the past, we have accepted renewal requests for a second year of CIF funding. *Please note that we no longer accept applications from previous Career Incubator Fund awardees.*

**DEADLINE**
April 14, 2014

SEE ATTACHED RFA FOR DETAILED APPLICATION INSTRUCTIONS AND CIF FACE PAGE.

---

**Other Funding Opportunities**

*New – PCORI – Eugene Washington PCORI Engagement Awards Program*

PCORI will host on **Thursday, February 13**, from 1:00-2:00 p.m. ET, a public webinar to provide details about the Eugene Washington PCORI Engagement Awards program. [Register here.](#)

The Engagement Awards were created to forge opportunities for patients and other stakeholder communities to become more involved in patient-centered research. Each award provides support for up to $250,000 with a project period of no more than two years. In 2014, PCORI will award up to $15 million to support projects in three categories:

- Knowledge Awards
- Training and Development Awards
- Dissemination Awards

Together, the awards will help establish a diverse community of passionate individuals with opportunities to participate in patient-centered research.

During the webinar, members of PCORI's engagement team will discuss the value of including patients and stakeholders in research, how the engagement awards will support the institute's growing research portfolio, which organizations are eligible, and how to apply. The webinar also will provide information about PCORI's review process and the timeline for the Engagement Award decisions.
Part of the webinar will be dedicated to answering questions from attendees about the awards program. You may submit questions in advance by email to ea@pcori.org.

**Institute for Health Metrics and Evaluation - Roux Prize for turning evidence into health impact**

The Roux Prize is a new US$100,000 award recently launched by the Institute for Health Metrics and Evaluation (IHME) to recognize individuals or groups who have used disease burden evidence to take action that makes people healthier. Nominees may come from anywhere in the world and could include, but are not limited to, staff in government agencies, researchers at academic institutions, volunteers in charitable organizations, or health providers working in the community. The only requirement is that they have used Global Burden of Disease (GBD) findings at some point since the publication of the first GBD study in 1993 to improve health at the local, national, or global level.

GBD is a systematic, scientific effort to quantify the comparative magnitude of health loss due to diseases, injuries, and risk factors. Data on disease burden have led to changes on a variety of health issues, ranging from global tobacco control to better diagnosis and treatment of children with diabetes in Ghana to laws in Vietnam encouraging helmet use among riders of motorcycles and bicycles to reduce road injury deaths.

Applications are due March 31, 2014, and the winner will be announced at an event in September 2014. More information can be found at rouxprize.org. A digital Roux prize flier is available online: ihmeuw.org/rouxprize-flier

For questions or additional information, please contact:

**Burrough’s Wellcome Fund - Institutional Program Unifying Population and Laboratory Based Sciences**

The goal of this program is to establish training programs that partner researchers working in schools of medicine and schools (or academic divisions) of public health. With those required institutional partners in place, programs have the freedom to involve a diverse range of other potential partners including those working in international settings, industrial settings, national laboratories, laboratories of federal agencies, and quantitative population research groups outside of the life sciences.

Visit the Burroughs Wellcome Fund website for eligibility guidelines.

Preproposal Deadline: February 17, 2014
HEI has issued its Winter 2014 RFA booklet. It can be downloaded from www.healtheffects.org/funding.htm. The booklet includes:
- RFP 14-1, Enhancing Near-Road Exposure Assessment Through Characterization of Non-tailpipe and Tailpipe Emissions Near Urban Roads and in Tunnels, and
- RFA 14-2, Walter A. Rosenblith New Investigator Award
The booklet has detailed instructions for applicants, as well as new sets of application forms.

The Louis and Artur Lucian Award for Research in Circulatory Diseases

Nominations are now being accepted for the 2014 Louis and Artur Lucian Award for Research in Circulatory Diseases. Please see attached PDF.

There are no limits on how many applicants can come from an institution.

The nomination deadline is March 21, 2014.

This is a prestigious award, and as shown on the sheet of Past Recipients in the attached information, Harvard Medical School has done very well in past years.

American Asthma Foundation – Scholars Program – Early to Mid-Career Opportunity

Nominations are Internally Coordinated

Harvard has been contacted by the American Asthma Foundation in regards to their 2014 AAF Scholars program. While this is not a limited submission opportunity, the foundation has asked for assistance in reaching out to investigators, specifically, the foundation is interested in receiving applications from investigators who are studying asthma for the first time.

From the foundation:

We seek innovative scientists from across the broad spectrum of science, asking them to apply their expertise to asthma. Faculty already in asthma are also eligible to apply, but they must be proposing work that is a clear departure from their current research program. So in targeting faculty for a 2014 AAF Scholar Award, the best matches will likely not be in the asthma field.

Further information about this opportunity can be found attached.

Interested faculty may send their names and contact information in an email to autumn_bennett@harvard.edu with the subject line: Asthma

The foundation’s application deadline is February 12, 2014. Any emails received with names of those who are interested in this opportunity will be forwarded on to the foundation through February 5th, 2014. The foundation will use the contact information they receive to work directly with interested candidates. The role of the OVPR is to be a conduit of information to start the process.

The Klarman Family Foundation Grants Program in Eating Disorders Research

We are pleased to announce the 2014 Grant Cycle for The Klarman Family Foundation Grants Program in Eating Disorders Research. The Program’s short-term goal is to support the most outstanding science and expand the
pool of scientists whose research explores the basic biology of feeding, anorexia nervosa, bulimia nervosa, and/or binge eating disorder. The long-term goal is to improve the lives of patients suffering from these conditions. Examples of funding areas include but are not limited to molecular genetic analysis of relevant neural circuit assembly and function; genetic and epigenetic research; animal models created by genetically altering neural circuits; testing of new chemical entities that might be used in animal models as exploratory treatments; and clinical trials involving medications or other non-psychotherapeutic interventions. Investigators conducting research in the neuro-circuitry of fear conditioning or reward behavior may also apply but must justify the relevance of their research projects to the basic biology of eating disorders. Clinical psychotherapeutic studies, imaging studies involving humans and research in the medical complications of these disorders are outside the scope of this Program.

Application Deadline: February 11, 2014

Application Materials
www.tmfgrants.org/Klarman

Funding Begins
June 1, 2014

Award Categories
2-year projects of $400,000 USD
1-year pilot studies of up to $150,000 USD

Eligibility
Applicants must hold a faculty appointment at a nonprofit academic, medical or research institution in the United States, Canada or Israel.

The Damon Runyon Clinical Investigator Award

2014 OPEN APPLICATION
DEADLINE: Monday, February 17, 2014

INSTITUTIONAL NOMINATIONS ARE NO LONGER REQUIRED TO APPLY

Every year the possibility of major breakthroughs occurring as a direct result of clinical cancer investigation increases. And yet, every year the number of young physicians entering clinical cancer research decreases. The Damon Runyon Research Foundation seeks to help reverse this trend, and asks that you encourage eligible candidates at your institution to apply for its Clinical Investigator Award program, which supports the most promising young physician-scientists willing to devote their careers to the development and application of new diagnostic approaches and therapeutic strategies for cancer and cancer prevention through clinical investigation. Institutional nominations are not required and there is no limit to the number of applications that can be received from a particular institution, however, only one application will be accepted from a mentor (including co-mentorships) or investigator per review session.

The award will provide $450,000 over three years in financial support for the investigator’s scientific needs. In addition, the Foundation will retire up to $100,000 of any medical school debt owed by the awardee.
The Foundation is seeking independent investigators engaged in disease-oriented research that is characterized by exceptional innovation and creativity. The goal is to support the best young physician-scientists whose work is likely to meaningfully impact the practice of cancer medicine. Preference is given to those whose research adheres to the “Handshake Rule,” meaning that the physician will conduct research studies that directly involve patients. After review of candidate’s written proposals, finalists will be invited to come to the Foundation to be interviewed by the selection committee. Those candidates who epitomize the goals of the award—and are most likely to be successful in this challenging career—will be offered the Damon Runyon Clinical Investigator Award.

Damon Runyon also has a novel partnership with the National Institutes of Health (NIH) and the National Cancer Institute (NCI), which gives Damon Runyon Clinical Investigators unique open access to the NIH Clinical Center. The goal of this partnership is to give investigators the opportunity to partner with the NIH/NCI, allowing them to tap into the special expertise and resources at the Clinical Center to undertake pilot studies of specific diseases and to develop collaborative partnerships that accelerate clinical and translational cancer research. Please see our website for details on potential opportunities for partnership.

The 2014 application deadline is Monday, February 17. Detailed information about the award, eligibility criteria, application guidelines and forms are available on the Foundation’s website, www.damonrunyon.org. If you have any questions, please call the Foundation at 212-455-0520.

**The Life Sciences Research Foundation – Postdoctoral Fellowship Program**

The LSRF solicits monies from industry, foundations and individuals to support postdoctoral fellowships in the life sciences. Active solicitation of funds continues, for which we need the assistance of all concerned individuals. We recognize that discoveries and the application of innovations in biology for the public's good will depend upon the training and support of the highest quality young scientists in the very best research environments. LSRF awards fellowships across the spectrum of the life sciences: biochemistry; cell, developmental, molecular, plant, structural, organismic population and evolutionary biology; endocrinology; immunology; microbiology; neurobiology; physiology; virology.

**Robert Wood Johnson Foundation: Active Calls for Proposals**

**Robert Wood Johnson Foundation Nurse Faculty Scholars**

The goal of the Robert Wood Johnson Foundation Nurse Faculty Scholars (NFS) program is to develop the next generation of national leaders in academic nursing through career development awards for outstanding junior nursing faculty.

**Deadline:** Wed, 12 Feb 2014
3:00 p.m. ET

**State Health Access Reform Evaluation (SHARE) Coverage**

State Health Access Reform Evaluation (SHARE) is a RWJF national program that supports rigorous research on issues surrounding state health reform.
Robert Wood Johnson Foundation Clinical Scholars

The RWJF Clinical Scholars program fosters the development of physicians who are leading the transformation of U.S. health and health care through positions in academic medicine, public health, and other leadership roles.

Deadline: Fri, 28 Feb 2014

Changes in Health Care Financing and Organization

Open

HCFO supports research, policy analysis and evaluation projects that provide policy leaders timely information on health care policy, financing and organization issues.

Changes in Health Care Financing and Organization: Small Grants

Open

Small grants: HCFO supports research, policy analysis and evaluation projects that provide policy leaders timely information on health care policy, financing and organization issues.

Other Announcements

PCORI New Funding Cycle Dates and Names

PCORI is moving from three funding application cycles per year to four in an effort to increase the amount of research support awarded each year. As a result, cycles will have new deadline names. The December 2013 cycle is now called Winter 2014 and the application due date is changing from Monday, Dec. 16 to Tuesday, Jan. 21. The Spring 2014 cycle will open on Wednesday, Feb. 5, with required letters of intent due Friday, Mar. 7, and applications due Tuesday, May 6. Please visit the PCORI Funding Center to find more information.

Conference on Complex Systems, Health Disparities & Population Health: Building Bridges

February 24-25, 2014
Natcher Conference Center
NIH Campus, Bethesda, MD

Presented by the University of Michigan Network on Inequality, Complexity and Health

Improving population health and eliminating health disparities is a critical task, yet our efforts are stymied by the complexity of the task, involving as it does causes of poor health that range from public policy to the nature of our neighborhoods to how we behave to biology. On February 24-25, 2014, at the National Institutes of Health
Natcher Conference Center in Bethesda, Maryland, join scholars and practitioners from the United States and abroad to learn about and see examples of how complex systems science can help guide our research and policy efforts to eliminate health disparities and improve the health of our population.
