

Weekly Funding Opportunity Announcements
Monday, February 25th, 2013

Reminder: ORSD coordinates and pays for external reviews and editorial services for HSPH Assistant and Associate Professors preparing NIH grant proposals.

For more information please contact Amanda Spickard at orsd@hsph.harvard.edu or ext. 2-1711.

NIH Funding Announcements – New This Week

New RFAs for week ending February 22, 2013:

Announcement Number	Issuing Organization	Release Date	Opening Date (SF424 Only)	Expiration Date	Activity Code(s)	Title
RFA-EB-13-002	NIBIB	02/25/2013	04/23/2013	01/08/2014	R43, R44	Development and Translation of Medical Technologies to Reduce Health Disparities (SBIR) (R43/R44)

Internal Harvard Funding Opportunities

Harvard Biomedical Accelerator Fund

The Biomedical Accelerator Fund supports Harvard faculty in the performance of *applied research* in the Life Sciences--support that can often be difficult to obtain from traditional funding sources and granting agencies. A significant obstacle to the development and transfer of university technology is the lack of funding for proof-of-concept and validation studies, essential steps required to demonstrate commercial potential. The Accelerator Fund is designed to overcome this barrier by providing funding assistance to faculty in the early stages of developing and validating nascent technologies originating in their labs. The strategic objective of the Accelerator is to assist Harvard to license such technologies more effectively and to expedite the transfer and public availability of promising new technologies. With this objective in mind, the Accelerator seeks to support innovative research aimed at extending preliminary observations, establishing proof-of-principle, and generating (or enhancing) intellectual property positions. Anyone with rights as a principal investigator and whose employer is Harvard University is eligible to apply.

Applicants should work closely with the Office of Technology Development team to develop a short pre-proposal to submit by **February 25, 2013**. For more information about this opportunity and submission guidelines, see the [full funding opportunity announcement](#). Questions may be addressed to Debra Peattie or David Jacobson at debra_peattie@harvard.edu or david_jacobson@harvard.edu, respectively.

HSPH Office of Research Strategy and Development **Career Incubator Funds (CIF)**

SUBMISSION INFORMATION

Deadline: **March 26, 2013 (Extended from March 8)**

Submission requirements: An electronic (PDF) copy of application; 5 page limit

Submit to: Office of Research Strategy and Development (ORSD), orsd@hsph.harvard.edu

Contact regarding questions: Amanda Spickard, Senior Associate Director, ORSD,

Phone: (617) 432-1711

OVERVIEW AND GOALS OF CAREER INCUBATOR FUND (CIF)

A key goal of the HSPH Career Incubator Fund (CIF) is to encourage and support the scientific career development of assistant and associate professors on tenure ladder at HSPH. To advance this goal, HSPH will solicit proposals for (a) Pilot Projects, or (b) Data Collection/Analysis Projects that will provide faculty the opportunity to develop their research ideas, collect pilot data, or conduct secondary data analysis to be used as pilot data. A key goal of the CIF is to maximize faculty competitiveness for extramural funding. Although not required, we are particularly interested in proposals that are interdisciplinary in nature. A key goal is to allow faculty to develop innovative and novel ideas/methods.

ELIGIBILITY

Primary HSPH assistant and associate professors who are within 3-8 years of initial appointment are eligible to apply. The goal is to support faculty whose start-up packages have ended. Faculty in their 3rd year will need to provide evidence that their start-up packages will be depleted by the start of the award period. Faculty in their 3rd year are encouraged to discuss their situation with Karen Emmons, Associate Dean for Research (orsd@hsph.harvard.edu). Please note that competitive renewal applications will not be accepted from previous Career Incubator Fund awardees.

NUMBER AND SIZE OF AWARDS

Pilot Projects: We expect to make up to two awards of \$50,000 each for one-year Pilot Projects

Data Collection/Analysis Projects: We expect to make one \$10,000 award to support a smaller Data Collection/Analysis project.

SUBMISSION PROCESS

Proposals are to be submitted directly to ORSD. They are not to go through SPA.

REVIEW PROCESS

Proposals will be reviewed by a committee of senior faculty, with broad representation across the school's three disciplinary clusters (life sciences, quantitative sciences, social/policy sciences).

PROPOSAL CONTENTS AND PAGE LIMITS

- CIF Application Summary Page
- Proposal: Maximum of 5 pages of text. Figures and references are allowable in addition to this page limit. No other appendix material will be accepted.
- Biosketches/Other Support: Current NIH Biosketch/Other Support for each participating investigator, including all funding sources.
- Budget Request: Budget estimates should be submitted on NIH PHS 398 budget forms with major divisions of funds (personnel, equipment, etc), and a brief justification. PIs may include effort and salary support commensurate with their effort. The full amount of the award may be used for direct costs.

- Renewal Applications
 - Please also note that applicants submitting renewals must have spent their current awards by the application deadline.
 - If submitting a renewal application for a second year of funding, please include a 1-2 page progress report on activities completed under your current CIF award.

AWARD PERIOD

The anticipated award dates are as follows:

- May 2013 for applications submitted in March 2013

FINAL REPORT

A final report is due at the end of the one-year funding period. Should the PI leave the HSPH, the remainder of the award will be forfeited (i.e., may not be transferred to another institution).

Harvard Catalyst - New Funding Opportunity for Collaborative Projects in Childhood Obesity

Harvard Catalyst has announced a new pilot grant opportunity for interdisciplinary collaborations focusing on the reduction and prevention of childhood obesity. Offered by Harvard Catalyst's Community Health Innovation and Research Program (CHIRP), in collaboration with Harvard Catalyst's Child Health Committee and the Health Disparities Research Program, pilot grants of up to \$100,000 are available to researchers.

Applications are due on **February 28, 2013** at 5:00pm and an information session will be held on January 22. Read more about this opportunity and apply [here](#).

Harvard Catalyst - Updated: KL2 Medical Research Investigator Training (MeRIT) awards

The [Harvard Catalyst Postgraduate Education Program](#) will soon open the application window for the [KL2 Medical Research Investigator Training \(MeRIT\)](#) awards, an exciting opportunity for:

- Senior fellows – those who will receive their first faculty appointment within 6-12 months
- Junior faculty – those within the first three years of their faculty appointment

Fellows and junior faculty from the health professions represented in Harvard Catalyst (e.g., medicine, dentistry, nursing) who are interested in pursuing rigorous training in clinical and translational research through a combined program of educational activities and mentored research are encouraged to apply.

Learn more about the impact a KL2 award can have on your research [here](#). You can also take a look at the list of [current KL2 awardees](#) and the links to their Harvard Catalyst Profiles.

The award cycle for the 2013 round of KL2 awards has been moved forward to a new start date of July 1, 2013. Applications will be accepted starting December 7, 2012 (*please note this is an update from a previous posting which noted November 9*) and **must be completed by March 14, 2013 by 5:00pm EST.**

For more information on the program, including eligibility requirements, visit [KL2 MeRIT](#) or contact Harvard Catalyst Education Coordinator [Jake Jones](#).

Other Funding Opportunities

Burroughs Wellcome Fund Career Award for Medical Scientists

Each year the University Committee on Biological Sciences (UCBS) reviews applications for a number of opportunities related to the biological sciences for which the sponsors will only accept a limited number of applications from across the university. UCBS has just announced the internal application process for the Burroughs Wellcome Fund Career Award for Medical Scientists. Please see details below.

Internal UCBS Deadline: April 4, 2013

Foundation Deadline: Anticipated deadline of October 1, 2013

Number of Harvard nominations: Five. If a woman or underrepresented minority is nominated within the initial five candidates, a sixth candidate may be nominated provided that candidate is a woman or underrepresented minority

Description: The Burroughs Wellcome Career Award for Medical Scientists addresses the ongoing problem of increasing the number of physician scientists and keeping them in research. The Burroughs Wellcome Fund believes that this bridging award, supporting the last year(s) of a mentored position in addition to supporting the beginning years of an independent position, will facilitate the transition to a career in research.

Proposals may be in the areas of basic biomedical, disease oriented, translational, or molecular, genetic, or pharmacological epidemiology research. Proposals in epidemiology should contact the foundation to determine eligibility. Proposals in health services research or involving large-scale clinical trials are ineligible.

Amount of support: \$700,000 over five years

Eligibility Requirements:

Applicants must:

1. Have an MD, DDS, DVM, PharmD, or equivalent clinical degree.
2. Be a clinical fellow, resident, instructor (non-tenure track), or a postdoctoral researcher and have at least 2 years of research experience by October 1, 2013. Instructors are eligible only if they were appointed on or after July 1, 2011.
3. Not be more than 120 months past their most recent doctorate on October 1, 2013.
4. Devote a minimum of one year and a maximum of two years to the postdoctoral portion of the award.
5. Be committed to a full-time career in research as an independent investigator.
6. Devote at least 75% of their time during the award period to research-related activities.
7. Be citizens or permanent residents of the U.S. or Canada at the time of application.

Application Instructions: See standard UCBS [application form and instructions](#).

URL: www.bwfund.org/pages/188/Career-Awards-for-Medical-Scientists/

Additional notes: Harvard University is the nominating institution for these awards. Therefore, faculty from all Harvard schools are invited to submit applications to the UCBS. Final review/selection of applications will be conducted by the UCBS.

Burroughs Wellcome Fund Investigators in the Pathogenesis of Infectious Disease Award

Each year the University Committee on Biological Sciences (UCBS) reviews applications for a number of opportunities related to the biological sciences for which the sponsors will only accept a limited number of applications from across the university. UCBS has just announced the internal application process for the Burroughs Wellcome Fund Investigators in the Pathogenesis of Infectious Disease Award. Please see details below.

Internal UCBS Deadline: April 4, 2013

Foundation Deadline: Anticipated deadline of November 1, 2013

Number of Harvard nominations: 3

Description: The Burroughs Wellcome Investigators in the Pathogenesis of Infectious Disease Award provides opportunities for assistant professors to bring multidisciplinary approaches to the study of human infectious diseases. The goal of the program is to provide opportunities for accomplished investigators still early in their careers to study the pathogenesis of infectious disease at its most fundamental level—the points where human and microbial systems connect. The program supports research that sheds light on the fundamentals that affect the outcomes of this encounter: how colonization, infection, commensalism and other relationships play out at levels ranging from molecular interactions to systemic ones.

Amount of support: \$500,000 over five years

Eligibility Requirements:

1. Candidates will generally have an MD, DVM, or PhD degree.
2. Candidates must have an established record of independent research and hold the rank of assistant professor or equivalent as of November 1, 2013. At Harvard, instructors with a track record of independent research are eligible. Researchers recently appointed to a faculty position may not have a demonstrated track record sufficient to compete successfully for this award.
3. Candidates must be citizens or permanent residents of the U.S. or Canada at the time of application.

Application Instructions: See standard UCBS [application form and instructions](#).

URL: <http://www.bwfund.org/page.php?mode=privateview&pageID=105>

Additional notes: Harvard University is the nominating institution for these awards. Therefore, faculty from all Harvard schools are invited to submit applications to the UCBS. Final review/selection of applications will be conducted by the UCBS.

Pew Scholars Program in the Biomedical Sciences

Each year the University Committee on Biological Sciences (UCBS) reviews applications for a number of opportunities related to the biological sciences for which the sponsors will only accept a limited number of applications from across the university. UCBS has just announced the internal application process for the Pew Scholars Program in the Biomedical Sciences. Please see details below.

Internal UCBS Deadline: April 4, 2013

Foundation Deadline: Anticipated deadline of November 1, 2013

Number of Harvard nominations: 1

Description: The Pew Scholars Program is designed to support young investigators of outstanding promise in basic and clinical sciences relevant to the advancement of human health. The award is intended to provide assured support, during their earlier years, for junior members of the faculty as they establish their laboratories. Strong proposals will demonstrate particularly innovative approaches.

Amount of support: \$60,000 per year over a four-year period

Eligibility Requirements:

Applicants must:

1. be full-time at rank of Assistant Professor or "independent researcher" as of November 1, 2013. Individuals whose careers are sufficiently advanced to warrant appointment at the associate level will not be considered eligible.
2. not have held appointment of Assistant Professor or equivalent for more than three years as of July 1, 2014 (approx. start date of award). Time spent in clinical training status does not count toward faculty appointment accumulated time.
3. not simultaneously be supported by similar private foundation awards in excess of \$50k for the first 2 years of Pew funding. Candidates with awards primarily providing salary, such as Research Career Development Awards, ACS Faculty Research Awards, or institutional endowments, are not precluded from applying for/receiving a Pew.

Application Instructions: See standard UCBS [application form and instructions](#).

URL: www.pewtrusts.org/our_work_category.aspx?id=194

Additional notes: Harvard University is the nominating institution for these awards. Therefore, faculty from all Harvard schools are invited to submit applications to the UCBS. Final review/selection of applications will be conducted by the UCBS.

[Harold Amos Medical Faculty Development Program - 2013 Call for Applications](#)

The *Harold Amos Medical Faculty Development Program* was established to increase the number of faculty from historically disadvantaged backgrounds who can achieve senior rank in academic medicine and dentistry and who will encourage and foster the development of succeeding classes of such physicians and dentists. Four-year postdoctoral research awards are offered to universities, schools of medicine and dentistry and research institutions to support the research and career development of physicians and dentists from historically disadvantaged backgrounds who are committed to developing careers in academic medicine and dentistry and to serving as role models for students and faculty of similar background. The program defines the term "historically disadvantaged" to mean the challenges facing individuals because of their race, ethnicity, socioeconomic status or similar factors. **Deadline: 2013-03-14**

For more info visit: <http://pweb1.rwjf.org/applications/solicited/cfp.jsp?ID=21419>

Competitive Research Grant Programs at the Al Qasimi Foundation – March 1, 2013 deadlines

The Sheikh Saud Bin Saqr Al Qasimi Foundation for Policy Research is now accepting proposals for its [Doctoral Research Grants](#), [Faculty Research Grants](#), and [Seed Grant](#) programs. The Grants provide research support and cover expenses associated with conducting field research in Ras Al Khaimah, United Arab Emirates. Scholars from a wide range of disciplines and professional fields are invited to apply, and proposals should address issues related to the Foundation's research priority areas of education, public health (social dimensions), and urban development and planning. Eligibility criteria and grant inclusions vary based on the specific program. Please see the [attached flyer](#) and visit the Al Qasimi Foundation's website (www.alqasimifoundation.com) for additional details. Specific queries can also be sent to info@alqasimifoundation.rak.ae.

Healthy Eating Research: Building Evidence to Prevent Childhood Obesity-Round 8

Email

Healthy Eating Research: Building Evidence to Prevent Childhood Obesity-RWJF New Connections 2013 Call for Proposals

Deadline: July 10, 2013, 3:00 p.m. EDT

Program Area: [Childhood Obesity](#)

Purpose: *Healthy Eating Research: Building Evidence to Prevent Childhood Obesity* is a national program of the Robert Wood Johnson Foundation (RWJF). The program supports research on environmental and policy strategies with strong potential to promote healthy eating among children to prevent childhood obesity, especially among lower-income and racial and ethnic populations at highest risk for obesity. Findings are expected to advance RWJF's efforts to reverse the childhood obesity epidemic by 2015.

This call for proposals (CFP) is for two types of awards aimed at providing advocates, decision-makers, and policy-makers with evidence to reverse the childhood obesity epidemic. The award types are: Round 8 grants and RWJF *New Connections* grants awarded through the *Healthy Eating Research* program. The two funding opportunities are described in more detail in the CFP.

Round 8 grants represent the majority of RWJF's investment in research through the *Healthy Eating Research* program.

Program Information:

- [Call for Proposals](#)
- [Overview](#)

How to Apply: *Please read the call for proposals before applying.

- [Apply Online](#)
- [Preview the complete application before submitting an application.](#)

Total Awards:

Eligibility &

Selection Criteria:

- Approximately \$1.4 million will be awarded through Round 8.
- Preference will be given to applicants that are either public entities or nonprofit organizations that are tax-exempt under Section 501(c)(3) of the Internal Revenue Code and are not private foundations or Type III supporting organizations.
- Applicant organizations must be based in the United States or its territories. The focus of this program is the United States; studies in other countries will be considered only to the extent that they may directly inform U.S. policy.
- February 13, 2013, April 24, 2013, July 10, 2013 (all by 3 p.m. ET)—Deadlines for receipt of concept papers.
- April 17, 2013, June 26, 2013, and September 11, 2013 (all by 3 p.m. ET)—Deadlines for receipt of invited full proposals, which correspond to the deadline under which the concept paper was submitted.
- September 1, 2013, November 1, 2013, and February 1, 2014—Awards begin.

Deadline: -March 14, 2013, 3:00 p.m. EDT

Program Area: -[Vulnerable Populations](#)

Purpose: *New Jersey Health Initiatives* (NJHI), a statewide grant making program of the Robert Wood Johnson Foundation, invites organizations to apply under *New Jersey Health Initiatives: Primary Care Workforce Innovations*, for support of proposals that seek to redesign the practice team, in the context of practice transformation, by implementing creative workforce models, using health professionals and other staff in new, more effective ways to improve access to primary care services and improve quality without increasing the costs of health care. Project funds will

support the redesign of the current primary care workforce within a practice, as well as participation in a learning network focused on primary care practice redesign and workforce development.

- Program Information:
- [Call for Proposals](#)
 - [Overview](#)
- How to Apply: *Please read the call for proposals before applying.
- [Apply Online](#)
 - [Preview the complete application before submitting an application.](#)
- Total Awards:
- Grants ranging from \$50,000 to \$150,000 each to cover a two-year period will be made.
 - Up to 12 New Jersey projects will receive grants.
 - Grants will begin on October 1, 2013 and conclude on September 30, 2015.
- Eligibility & Selection Criteria:
- Complete eligibility and selection criteria can be found in the full Call for Proposals brochure.
- Key Dates:
- January 29, 31 and February 14, 2013—Optional applicant Web conference calls. Registration is required. Please visit www.njhi.org for complete details and to register.
 - March 14, 2013 (3 p.m. ET)—Deadline for receipt of full proposals.
 - April 15, 2013—Applicants notified if they will receive a site visit.
 - May and June 2013—Site visits to selected applicants.
 - September 2013—Notification of awards.
 - October 1, 2013—Start of grants.
- Contact: New Jersey Health Initiatives

University of Massachusetts, Boston - Dana-Farber/Harvard Cancer Center U54 Partnership 2013 Request for Grant Applications

[http://www.umb.edu/u54/applying_for_funding/.](http://www.umb.edu/u54/applying_for_funding/)

REQUEST FOR GRANT APPLICATIONS

AWARD LEVELS:

A. Pilot Projects (up to \$120,000 per year for two years - Direct Costs Only)

B. Full Projects (up to \$200,000 per year for two years - Direct Costs Only)

DEADLINES & KEY DATES:

Deadline for Letter of Intent (Required): *February 1, 2013 by 11:59 PM EST

Deadline for Application Submission: May 22, 2013 by 11:59 PM EST

Anticipated Award Date: September 1, 2013

Key Dates:

**Oral presentations for internal feedback: January 16, 2013
February 13, 2013
March 13, 2013
April 17, 2013

Robert Wood Johnson Foundation Clinical Scholars 2012-2013 Call for Applications

- Deadline: February 28, 2013, 5:00 p.m. EST
- Program Area: Human Capital
- Purpose: The Robert Wood Johnson Foundation (RWJF) and the U.S. Department of Veterans Affairs (VA) are collaborating to foster the development of physicians who will lead the transformation of Americans' health and health care through the *Robert Wood Johnson Foundation Clinical Scholars* program. These future leaders will conduct innovative research and work with communities, organizations, practitioners and policy-makers to address issues essential to the health and well-being of all Americans.
- Program Information:
- Call for Applications
 - Overview
- How to Apply: *Please read the call for applications before applying.
- Apply Online
- Total Awards: We will select up to 20 individuals in 2013 for appointments beginning July 1, 2014. First year scholar stipend is \$67,000 with an increase the second year. In some cases, VA stipends may be higher. Additional financial support is provided for research projects and professional travel.
- Eligibility & Selection Criteria:
- To be eligible, physicians must:
- be committed to a career in academic medicine, public health, health policy or another career congruent with the program's purposes and priorities of developing physician leaders and skilled researchers;
 - be highly regarded by those responsible for their clinical training;
 - complete the clinical requirements of their residency training by the date of entry into the program (except for surgeons); and
 - be U.S. Citizens or permanent residents. Both MDs and DOs are eligible to apply.
- We embrace racial, ethnic and gender diversity and encourage applications from candidates with diverse backgrounds and clinical disciplines.
- Key Dates:
- February 28, 2013 (5 p.m. ET)—Deadline for receipt of applications.
 - April 12, 2013—Interviews completed.
 - July 1, 2013—Notification of acceptance.
 - July 1, 2014—Entry of selected scholars into the program at participating universities.

The 2013 Dreyfus Prize in the Chemical Sciences

The Dreyfus Prize in the Chemical Sciences recognizes an individual for exceptional and original research in a selected area of chemistry that has advanced the field in a major way.

The 2013 Dreyfus Prize will be awarded in the field of: **chemical instrumentation**

The Dreyfus Prize, awarded biennially, consists of a citation, a medal, and a monetary award of \$250,000.

The nomination deadline is **March 1, 2013**.
For further information, see www.dreyfus.org.

The Camille and Henry Dreyfus Foundation, Inc.
555 Madison Avenue, 20th Floor, New York, New York 10022-3301

Heritage Provider Network Health Prize

<http://www.heritagehealthprize.com/>

More than 71 million individuals in the United States are admitted to hospitals each year, according to the latest survey from the American Hospital Association. Studies have concluded that in 2006 well over \$30 billion was spent on unnecessary hospital admissions. Is there a better way? Can we identify earlier those most at risk and ensure they get the treatment they need? The Heritage Provider Network (HPN) believes that the answer is "yes".

To achieve its goal of developing a breakthrough algorithm that uses available patient data to predict and prevent unnecessary hospitalizations, HPN is sponsoring the Heritage Health Prize Competition (the "Competition"). HPN believes that incentivized competition is the best way to achieve the radical breakthroughs necessary to begin fixing America's health care system.

The winning team will create an algorithm that predicts how many days a patient will spend in a hospital in the next year. Once known, health care providers can develop new care plans and strategies to reach patients before emergencies occur, thereby reducing the number of unnecessary hospitalizations. This will result in increasing the health of patients while decreasing the cost of care. In short, a winning solution will change health care delivery as we know it – from an emphasis on caring for the individual after they get sick to a true health care system.

The Competition runs for two years and offers a US \$3 million Grand Prize, as well as six Milestone Prizes totaling \$230,000, which are awarded in varying amounts at three designated intervals during the Competition.

Started: **Monday 4 April 2011**
Ends: **Wednesday 3 April 2013**

Keystone Symposia Early Career Investigator Travel Awards (ECITA)

Keystone Symposia has now some additional funds for Early Career Investigator Travel Awards (ECITA). These awards are for Assistant Professors from designated URM backgrounds in the U.S., who are "bench" researchers. The purpose is to support their research success by providing funds for them to attend one of the Keystone Symposia research meetings (Up to \$1800).

The application may be found on-line at www.keystonesymposia.org/diversity
<<http://www.keystonesymposia.org/diversity>> See ECITA.

-
- There will be (9) awards for the 2013/2014 Keystone Symposia meeting season.
- The applicants must choose a scheduled meeting from March 1, 2013 through February 28, 2014 and have all receipts submitted for reimbursement to Keystone Symposia within 2 weeks post the end of the meeting.
- Reimbursement is only for registration, ground and air transportation, and lodging.

- Applications are reviewed by meeting organizers and the DLSP office.
- Awards are made based on the applicant's research question and the likelihood of getting the question answered at the meeting selected.
- All awards will be made on a "first come - first served" basis.
- Award Amount: 1,950 USD. This is a reimbursement award - all receipts must be submitted at one time for reimbursement.
- The application process for such awards will open March 1, 2013.
- [Click here](#) to download the application.

Applicants MUST be engaged in laboratory research and focused on a career in "bench" research.

Robert Wood Johnson Foundation: Changes in Health Care Financing and Organization

<http://www.rwjf.org/applications/solicited/cfp.jsp?ID=19274>

Changes in Health Care Financing and Organization (HCFO) supports research, policy analysis and evaluation projects that provide policy leaders timely information on health care policy, financing and organization issues. Supported projects include: 1) examining significant issues and interventions related to health care financing and organization and their effects on health care costs, quality and access; and 2) exploring or testing major new ways to finance and organize health care that have the potential to improve access to more affordable and higher quality health services. **Grants are awarded on a rolling basis; proposals may be submitted at any time.**

Other Announcements

****New - The NIH Public Access Policy, PubMedCentral, and managing PMCID#s for Harvard researchers**

Tuesday, February 26, 12:00 pm – 1:00 pm, Kresge 203

NIH has recently announced that in the Spring 2013, the NIH will delay processing of non-competing continuation grant awards if publications arising from that award are not in compliance with the NIH Public Access Policy. It is important that all Harvard researchers and their administrative support team understand the tools available to them that can help demystify the multiple workflows that are involved in ensuring compliance with the NIH Public Access Policy.

In this session, we will review the policy, several online tools and some recent enhancements that make it easier for investigators to monitor, resolve and report compliance information. This session will cover the following topics:

- Brief overview of the policy and new enforcement rule
- Description of PubMed.gov database versus PubMedCentral database, NIHMS system, and MyNCBI
- An introduction to the MyNCBI bibliography tool and how to make sure your researcher's eRA Commons/NIH profile and MyNCBI bibliography are appropriately linked
- Ways to determine if your researcher has any publications currently out of compliance
- Discussion of Options to help resolve problems and "missing" PMCID#s

For more information, contact Scott Lapinski: P_Lapinski@hms.harvard.edu / 617.432.6784

HSPH Access to FAS Research Computing

Over the last year, HSPH has been cultivating a collaboration with the research computing (RC) facility at the Faculty of Arts and Science (FASRC) (<http://rc.fas.harvard.edu/>) with the aim of enabling HSPH researchers to access the FAS High Performance Computing Cluster (Odyssey). We are excited to announce that FASRC is now open to all HSPH researchers in exchange for a minimal annual fee, which may be charged to grants. Effective immediately, HSPH researchers can access FASRC for a fee of \$3,000 per year per FTE. Each FTE can have only one account; **access for PhD and ScD students is free**. This fee will allow each account's owner to:

- 1) Access Harvard's largest research computing environment, Odyssey
- 2) Obtain a personalized letter of support from the FASRC team that may be used in grant applications to describe the FASRC environment, as well as the level of support and expertise that the FASRC team will be able to provide for that particular application
- 3) Request individual consultation to plan computational requirements, acquisition of hardware, data storage and dissemination, CPU, etc.
- 4) Access to local support at HSPH for research computing consulting

The School hopes to phase out the HSPH cluster over the next year and encourages all HSPH researchers to migrate to FASRC as soon as it is operationally feasible. Once you are registered with FASRC, you will no longer be charged for HSPH cluster costs. Your departmental administrators and grants managers will be able to provide guidance on incorporating the FASRC computing fee into your grants as well as standardized language that you can add to your budget justifications. For more information on the FASRC initiative, visit [\(http://rc.fas.harvard.edu/hsph-overview/\)](http://rc.fas.harvard.edu/hsph-overview/)
