

Weekly Funding Opportunity Announcements
Wednesday, March 26, 2014

NIH Funding Announcements – New This Week

New RFA's:

Title	Announcement Number	Issuing Organization	Release Date	Opening Date (SF424 Only)	Expiration Date	Activity Code(s)
Targeting Latently Infected Cells Without Reactivation (R01)	RFA-AI-14-021	NIAID	03-25-2014	06-15-2014	07-16-2014	R01
Leveraging a Recovery Act Resource to Accelerate Research on Neurodevelopment (R01)	RFA-MH-15-400	NIMH	03-24-2014	08-03-2014	09-04-2014	R01
Modeling Immunity for Biodefense (U19)	RFA-AI-14-028	NIAID	03-21-2014	06-18-2014	07-19-2014	U19
*Accelerating Medicines Partnership (AMP) in Rheumatoid Arthritis and Lupus: Network Leadership Center (UM2)	RFA-AR-14-015	NIAMS	03-21-2014		05-22-2014	UM2
*Limited Submission Opportunity - If you are interested in applying for this opportunity, please submit a brief notice of intent to apply for this award to the HSPH Office of Research Strategy and Development (orsd@hsph.harvard.edu). Based on the number of notices received, we will determine whether an internal competition/internal coordination may be needed at the School or University-level to select nominees for this award.						
Accelerating Medicines Partnership (AMP) in Rheumatoid Arthritis and Lupus: Network Research Sites (UH2/UH3)	RFA-AR-14-016	NIAMS	03-21-2014	04-21-2014	05-22-2014	UH2/UH3
*Continuation of the Type 2 Diabetes in Adolescents and Youth (TODAY) Study (U01)	RFA-DK-14-502	NIDDK	03-21-2014	05-19-2014	06-20-2014	U01
*Limited Submission Opportunity - If you are interested in applying for this opportunity, please submit a brief notice of intent to apply for this award to the HSPH Office of Research Strategy and Development (orsd@hsph.harvard.edu). Based on the number of notices received, we will determine whether an internal competition/internal coordination may be needed at the School or University-level to select nominees for this award.						
Physiologically Based Absorption	RFA-FD-14-012	FDA	03-20-2014	05-01-2014	06-02-2014	U01

Title	Announcement Number	Issuing Organization	Release Date	Opening Date (SF424 Only)	Expiration Date	Activity Code(s)
and Pharmacokinetic Modeling and Simulation for Non-gastrointestinally Absorbed Drug Products in Humans (U01)						
Pharmacometric Modeling and Simulation for Generic Drugs Evaluation (U01)	RFA-FD-14-011	FDA	03-20-2014	05-01-2014	06-02-2014	U01
Characterization of Critical Quality Attributes for Semisolid Topical Drug Products (U01)	RFA-FD-14-010	FDA	03-20-2014	04-07-2014	06-02-2014	U01
Dissolution Methods for Semisolid Ocular Drug Products (U01)	RFA-FD-14-008	FDA	03-20-2014	04-01-2014	05-02-2014	U10
Dissolution Methods for Microsphere and Implant Drug Products (U01)	RFA-FD-14-007	FDA	03-20-2014	04-01-2014	05-02-2014	U01
*Atopic Dermatitis Research Network (ADRN) (U19)	RFA-AI-14-033	NIAID	03-20-2014	06-08-2014	07-09-2014	U19
*Collaborative Pediatric Critical Care Research Network (UG1)	RFA-HD-14-022	NICHD	03-20-2014	05-02-2014	06-03-2014	UG1
*Data Coordinating Center for the Collaborative Pediatric Critical Care Research Network (U01)	RFA-HD-14-020	NICHD	03-20-2014	05-02-2014	06-03-2014	U01
*Limited Submission Opportunities - If you are interested in applying for this opportunity, please submit a brief notice of intent to apply for this award to the HSPH Office of Research Strategy and Development (orsd@hsph.harvard.edu). Based on the number of notices received, we will determine whether an internal competition/internal coordination may be needed at the School or University-level to select nominees for this award.						

New PA's:

Title	Announcement Number	Issuing Organization	Release Date	Opening Date (SF424 Only)	Expiration Date	Activity Code(s)
Translational Research to Help Older Adults Maintain their Health and Independence in the Community (R01)	PA-14-161	NIA	03-20-2014	05-05-2014	05-08-2017	R01
Translational Research to Help Older Adults Maintain their Health and Independence in the Community (R21)	PA-14-159	NIA	03-20-2014	05-16-2014	05-08-2017	R21
Core Infrastructure and Methodological Research for Cancer Epidemiology Cohorts (U01)	PAR-14-160	NCI	03-19-2014	06-08-2014	03-11-2017	U01

Other Federal Funding Announcements

Department of Defense

United States Army Medical Research Materiel Command Congressionally Directed Medical Research Programs CDMRP Research Funding for 2014

The Fiscal Year 2014 Department of Defense Appropriations Act provides research funding for the following peer reviewed programs managed by the Department of Defense office of Congressionally Directed Medical Research Programs (CDMRP):

- Amyotrophic Lateral Sclerosis Research Program - \$7.5 million
- Autism Research Program - \$6.0 million
- Bone Marrow Failure Research Program - \$3.2 million
- Breast Cancer Research Program - \$120.0 million
- Duchenne Muscular Dystrophy Research Program - \$3.2 million
- Gulf War Illness Research Program - \$20.0 million
- Lung Cancer Research Program - \$10.5 million
- Multiple Sclerosis Research Program - \$5.0 million
- Neurofibromatosis Research Program - \$15.0 million
- Ovarian Cancer Research Program - \$20.0 million
- Peer Reviewed Cancer Research Program - \$25.0 million
- Peer Reviewed Medical Research Program - \$200.0 million
- Peer Reviewed Orthopaedic Research Program - \$30.0 million
- Prostate Cancer Research Program - \$80.0 million
- Spinal Cord Injury Research Program - \$30.0 million
- Tuberous Sclerosis Complex Research Program - \$6.0 million

Comprehensive Program Announcements will be released during 2014. The Program Announcements will include detailed descriptions of funding mechanisms, evaluation criteria, submission requirements, and deadlines. Each Program Announcement may be downloaded from the Grants.gov website <http://www.grants.gov>, or the CDMRP website <http://cdmrp.army.mil> upon its release.

Center for Disease Control and Prevention

[CDC: Reduce Hepatitis Infections by Treatment and Integrated Prevention Services \(Hepatitis-TIPS\) among Non-urban Young Persons Who Inject Drugs](#)

Closing Date: April 14, 2014

[CDC: Provider Input on Critical Immunization Issues Modification 1](#)

Closing Date: March 31, 2014

[CDC: Namibia Mechanism for Public Health Assistance, Capacity, and Technical Support \(NAM-PHACTS\) under the President's Emergency Plan for AIDS Relief \(PEPFAR\) Modification 1](#)

Closing Date: April 21, 2014

[CDC: Provider Input on Critical Immunization Issues](#)

Closing Date: March 31, 2014

[CDC: Public Health Surveillance for the Prevention of Complications of Bleeding and Clotting Disorders](#)

Closing Date: April 8, 2014

[CDC: Longitudinal Study of a Population-based Cohort of People with Lupus Modification 1](#)

Closing Date: March 31, 2014

Closing Date: March 5, 2018

[CDC: NIOSH Exploratory/Developmental Grant Program](#)

Closing Date: September 8, 2015

[CDC: NIOSH Small Research Program](#)

Closing Date: September 8, 2015

Department of Health and Human Services

[DHHS: Agency for Health Care Research and Quality Evaluation of AHRQ Initiative to Accelerate the Dissemination and Implementation of PCOR Findings into Primary Care \(R01\) Grant](#)

Closing Date: July 3, 2014

[DHHS: Agency for Health Care Research and Quality Accelerating the Dissemination and Implementation of PCOR Findings into Primary Care Practice \(R18\) Grant](#)

Closing Date: July 3, 2014

[DHHS: FY14 Announcement of Availability of Funds for Family Planning Affordable Care Act \(ACA\) Impact Analysis Research Cooperative Agreements Modification 1](#)

Closing Date: April 24, 2014

[DHHS: Grants for the Benefit of Homeless Individuals-Services in Supportive Housing \(Short Title: GBHI-SSH\)](#)

Closing Date: April 25, 2014

[DHHS: Announcement of Availability of Funds for Teenage Pregnancy Prevention: Research and Demonstration Programs \(Tier 2\) Community Collaborative Academy](#)

Closing Date: April 24, 2014

[DHHS: Office of the Assistant Secretary for Health Announcement of the Anticipated Availability of Funds for Research on Research Integrity Modification 1](#)

Closing Date: April 14, 2014

[DHHS: Agency for Health Care Research and Quality Advances in Patient Safety through Simulation Research \(R18\) Grant](#)

Closing Date: September 25, 2016

[DHHS: Agency for Health Care Research and Quality Exploratory and Developmental Grant to Improve Health Care Quality through Health Information Technology \(IT\) \(R21\) Grant](#)

Closing Date: November 16, 2016

[DHHS: Services Grant Program for Residential Treatment for Pregnant and Postpartum Women \(Short Title: PPW\) Grant](#)

Closing Date: March 31, 2014

[DHHS: Pre-application: Opportunities for Collaborative Research at the NIH Clinical Center \(X02\) Modification 3](#)

Closing Date: November 20, 2014

[DHHS: Centers for AIDS Research and Developmental Centers for AIDS Research \(P30\) Grant](#)

Closing Date: July 28, 2016

Environmental Protection Agency

***New** - [EPA: 2014 HEALTHY COMMUNITIES GRANT PROGRAM](#)

Closing Date: April 24, 2014

Food & Drug Administration

[FDA: Advancing Medical Device Postmarket Surveillance Infrastructure and Epidemiologic Methodologies through Multi-stakeholder Partnership](#)

Closing Date: April 30, 2017

Health Resources & Services Administration

***New** - [HRSA: MCH Health Care Transitions Research Network \(HCT-RN\) for Youth and Young Adults with Autism Spectrum Disorders \(ASD\)](#)

Closing Date: May 12, 2014

***New** - [HRSA: R40 MCH Autism Intervention Research Program Modification 1](#)

Closing Date: May 12, 2014

***New** - [HRSA: R40 MCH Autism Secondary Data Analysis Studies \(SDAS\) Program](#)

Closing Date: May 12, 2014

***New** - [HRSA: R40 MCH Autism Longitudinal Data Project](#)

Closing Date: May 12, 2014

[HRSA: Healthy Start Initiative: Eliminating Disparities in Perinatal Health \(Level 1: Community-based Healthy Start\) Modification 3](#)

Closing Date: March 31, 2014

[HRSA: Healthy Start Initiative: Eliminating Disparities in Perinatal Health \(Level 2: Enhanced Services Healthy Start\) Modification 2](#)

Closing Date: March 31, 2014

[HRSA: Healthy Start Initiative: Eliminating Disparities in Perinatal Health \(Level 3: Leadership and Mentoring Healthy Start\)](#)

Closing Date: March 31, 2014

[HRSA: National Rural Health Policy and Community Development Program Grant](#)

Closing Date: March 31, 2014

National Institutes of Health

***New** - [NIH: Development of Software and Analysis Methods for Biomedical Big Data in Targeted Areas of High Need \(U01\) Modification 4](#)

Closing Date: June 19, 2014

***New** - [NIH: Early Stage Development of Technologies in Biomedical Computing, Informatics, and Big Data Science \(R01\) Grant](#)

Closing Date: May 7, 2017

***New** - [NIH: Extended Development, Hardening and Dissemination of Technologies in Biomedical Computing, Informatics and Big Data Science \(R01\)](#)

Closing Date: May 7, 2017

[NIH: Development of Software and Analysis Methods for Biomedical Big Data in Targeted Areas of High Need \(U01\) Modification 3](#)

Closing Date: June 19, 2014

[NIH: Additional Research Training Positions for NIAAA-, NIDA-, or NCI-Supported NRSA Institutional Training \(T32\) Grants \(Admin Supp\) Grant](#)

Closing Date: April 19, 2014

[NIH: Ruth L. Kirschstein National Research Service Award \(NRSA\) Individual Predoctoral Fellowship to Promote Diversity in Health-Related Research \(Parent F31 - Diversity\) Modification 1](#)

Closing Date: January 7, 2017

[NIH: Ruth L. Kirschstein National Research Service Award \(NRSA\) Individual Postdoctoral Fellowship \(Parent F32\) Grant](#)

Closing Date: January 7, 2017

[NIH: Ruth L. Kirschstein National Research Service Award \(NRSA\) Individual Predoctoral MD/PhD or Other Dual-Doctoral Degree Fellowship \(Parent F30\) Grant](#)

Closing Date: January 7, 2017

[NIH: Ruth L. Kirschstein National Research Service Awards \(NRSA\) for Individual Senior Fellowship \(Parent F33\)](#)

Closing Date: January 7, 2017

Pre-Notice

Harvard University Committee on Biological Sciences - Nomination Process now open:

[Burroughs Wellcome Career Award for Medical Scientists](#)

[Burroughs Wellcome Investigators in the Pathogenesis of Infectious Disease](#)

[Pew Scholars Program](#)

Deadline: April 1, 2014 by 5:00pm

The University Committee on Biological Sciences administers the nomination process for Harvard faculty for a selection of funding opportunities from private foundations that require candidates to be nominated by Harvard University. Each year, several foundations invite Harvard junior faculty members and postdocs to apply for their fellowships and grants, which serve as critical funding at the early stages of a research career. Interested investigators must first apply for the Harvard nomination through the UCBS, and the committee will select the final candidates who will then submit applications to the foundations.

Please visit <http://www.fas.harvard.edu/~research/UCBS> for application form, instructions, and further information.

**Office of Research Strategy and Development - Career Incubator Fund (CIF)
Request for Applications**

The Office of Research Strategy and Development is pleased to announce the next round of HSPH Career Incubator Funding (CIF).

A key goal of the HSPH Career Incubator Fund (CIF) is to encourage and support the scientific career development of Assistant and Associate Professors on the tenure ladder at HSPH. To advance this goal, HSPH will solicit proposals for (a) Pilot Projects, or (b) Data Collection/Analysis Projects that will provide faculty the opportunity to develop their research ideas, collect pilot data, or conduct secondary data analysis to be used as pilot data. A key goal of the CIF is to maximize faculty competitiveness for extramural funding. Although not required, we are particularly interested in proposals that are interdisciplinary in nature. A key goal is to allow faculty to develop innovative and novel ideas/methods.

ELIGIBILITY

Primary HSPH Assistant and Associate Professors who are within 3-8 years of initial appointment are eligible to apply. The goal is to support faculty whose start-up packages have ended. (See attached RFA for additional detail on eligibility criteria.)

NUMBER AND SIZE OF AWARDS

Pilot Projects: We expect to make up to four awards of \$50,000 each for one-year Pilot Projects.

Data Collection/Analysis Projects: We expect to make two \$10,000 awards to support a smaller Data Collection/Analysis Project

SECOND YEAR FUNDING/COMPETITIVE RENEWAL APPLICATIONS NO LONGER ACCEPTED

In the past, we have accepted renewal requests for a second year of CIF funding.

Please note that we no longer accept applications from previous Career Incubator Fund awardees.

DEADLINE

April 14, 2014

SEE ATTACHED RFA FOR DETAILED APPLICATION INSTRUCTIONS AND CIF FACE PAGE.

Other Funding Opportunities

***New – Limited Submission: National Science Foundation - Scalable Nanomanufacturing/ NSF 14-544**

Program: [Scalable Nanomanufacturing \(SNM\)](#)

How many proposals Harvard can submit: One (1) proposal across Harvard

Type of Award: Shared or Continuing Grant

Estimated # of Awards: five (5) to eight (8)

Anticipated funding amount: \$5,000,000. Awards will be in the range of \$250,000-\$375,000 a year for 4 (four) years

Anticipated Date of Awards: September 2014

Sponsor LOI: Not Required

Sponsor Preliminary Proposal Submission: Not Required

Sponsor Due Date: June 16, 2014

Internal Due Date: Monday, April 28, 2014

Internal Competition Instructions:

Please read [the funding announcement](#) carefully and, following the instructions found at the bottom of page 8 under Project Summary, submit a Project Summary, no longer than one page in length to Autumn_Bennett@harvard.edu no later than April 28, 2014. A second blank page can be used for any associated graphics. A third page should provide summary information on the following:

- A management plan for coordinating project activities and attaining key project milestones
- The role to be played by any participating organizations (please indicate if the organization's involvement is confirmed or still in process)

Current CV of the PI and any other appropriate stakeholders (no preferred format)

A letter from the appropriate Department Chair or Center Director acknowledging their support of this project should the proposal be successful.

Overview of Opportunity:

Proposals to this topic area should target nanomanufacturing processes with a clear commercial relevance. The program particularly seeks proposals that include fundamental research in key, well-defined areas that are compellingly identified as roadblocks to scale-up. Both of these elements should be carefully explained and justified in proposals, since both the scientific novelty and the feasibility of the methods being researched will be important selection factors. Collaborative activities with industrial companies are strongly encouraged and collaborations in which industrial partners develop industrially relevant test beds where university and company

researchers can experiment and interact are particularly encouraged. It is highly desirable that such firms be consulted early in the proposal preparation process and that their intellectual contributions be clearly explained in the proposal.

***New – Limited Submission: National Science Foundation - Cultivating Cultures for Ethical STEM (CCE STEM) NSF 14-546**

Program: [Cultivating Cultures for Ethical STEM \(CCE STEM\)](#)

How many proposals Harvard can submit: One proposal as the lead organization

Type of Award: Standard Grant

Estimated # of Awards: six (6) to eight (8)

Anticipated Funding Amount: \$3,050,000/year, divided among 6 to 8 grants, for five (5) years

Sponsor LOI: Not Required

Sponsor Preliminary Proposal Submission: Not Required

Sponsor Due Date: June 17, 2014

Internal Due Date: Monday, May 5, 2015

Important note about this opportunity: “Note: NSF does not consider proposals for medical research and hence, the program will not consider proposals focused on ethics for medical students or in medical education. It will consider proposals that address medical informatics, biomedical engineering, systems engineering and social scientific studies of health and medicine.”

Internal Competition Instructions:

- Please read [the funding announcement](#) carefully and submit a proposal of not more than two (2) pages to Autumn_Bennett@harvard.edu no later than May 5, 2014. The proposal should address the questions posed in the funding announcement. Please indicate if your proposal is an Institutional Transformation proposal or not.
- Current CV of the PI and any other significant stake holders (no preferred format)
- A letter of support from the appropriate Department Chair or Center Director

Overview of Opportunity:

Cultivating Cultures for Ethical STEM (CCE STEM) funds research projects that identify factors that are efficacious in the formation of ethical STEM researchers in all the fields of science and engineering that NSF supports. CCE STEM solicits proposals for research that explores the following: ‘What constitutes ethical STEM research and practice? Which cultural and institutional contexts promote ethical STEM research and practice and why?’ Factors one might consider include: honor codes, professional ethics codes and licensing requirements, an ethic of service and/or service learning, life-long learning requirements, curricula or memberships in organizations (e.g. Engineers without Borders) that stress social responsibility and humanitarian goals, institutions that serve under-represented groups, institutions where academic and research integrity are cultivated at multiple levels, institutions that cultivate ethics across the curriculum, or programs that promote group work, or do not grade. Do certain labs have a ‘culture of academic integrity’? What practices contribute to the establishment and maintenance of ethical cultures and how can these practices be transferred, extended to, and integrated into other research and learning settings?

Successful proposals will include a comparative dimension, either between or within institutional settings that differ along these or other factors.

CCE STEM research projects will use basic research to produce knowledge about what constitutes responsible or irresponsible, just or unjust scientific practices and sociotechnical systems, and how to best instill students with this knowledge.

This opportunity will be offered again with the following Sponsor Deadlines:

February 17, 2015
February 16, 2016
February 15, 2017
February 15, 2018

***New - Edward Mallinckrodt, Jr Foundation - [Mallinckrodt Grants](#)**

This year the Edward Mallinckrodt, Jr Foundation has expanded their institutional limits concerning the [Mallinckrodt Grants](#) opportunity and will allow Harvard to submit two (2) nominations per school. These grants are focused on biomedical research.

If you are interested in being nominated for this opportunity, please let the Office of Research Strategy and Development know by Friday, May 30, 2014 (orsd@hsph.harvard.edu).

Details concerning the 2014 submission can be found here: <http://emallinckrodtfoundation.org/Submission.html> . The [Mallinckrodt Calendar](#) does yet display the due date for 2014 applications, but we have been informed it will fall in August.

Vilcek Foundation Prize in Biomedical Sciences, 2015 **Call for Nominations**

We are writing with information about the [Vilcek Foundation 2015 call for nominations for Creative Promise in Biomedical Science](#). The 2015 nomination process closes at 5:00 pm EST on **Tuesday, June 10, 2014**.

There is no limit to how many applicants may come from Harvard University for this award, *and applicants may self-nominate*, but there are immigration and age requirements that need to be met <http://www.vilcek.org/prizes/creative-promise/biomedical-science.html>

Eligibility Requirements

To be eligible for the Vilcek Prize for Creative Promise in Biomedical Science, applicants must meet all of the criteria listed below

1. Applicant must have been born outside the United States.
2. Applicant must not be more than 38 years old as of December 31, 2014 (born on or after January 1, 1976).
3. Applicant must be a naturalized citizen or permanent resident (green card holder) of the United States.
4. Applicant must have earned a doctoral degree (MD, PhD, or equivalent).
5. Applicant must intend to pursue a professional career in the United States.
6. Applicant must hold a full-time position in an academic institution or other organization. Eligible positions include the following: Assistant or Associate Professor, Research Scientist, or equivalent. *The applicant must be directly responsible for the design and execution of the work submitted for consideration. Graduate students and*

postdoctoral fellows working under the supervision of a mentor are not eligible.

7. Applicant must not be a past winner or finalist of the Vilcek Prize for Creative Promise.

We will be keeping an eye out for an announcement concerning 2015 nominations for the Vilcek Prize.

2014 BBVA Foundation Frontiers of Knowledge Awards

Nominations are open for the 2014 BBVA Foundation Frontiers of Knowledge Awards. The deadline to submit a nomination is **June 30th, 2014**.

Harvard Faculty have been successfully nominated for this award in the past. Most recently, [Professor Elhanan Helpman, Galen L. Stone Professor of International Trade, FAS Economics, was selected in the area of Economics, Finance and Management.](#)

Other nomination areas include:

Basic Sciences (Physics, Chemistry, Mathematics)

Biomedicine

Ecology and Conservation Biology ([Edward O. Wilson, 2011](#))

Information and Communication Technologies

Contemporary Music

Climate Change

Development Cooperation

There is no limit on how many nominations may come from one university, but an individual cannot be nominated in more than one category.

Winners receive a diploma, commemorative art work, and 400,000 Euros (\$555,610. Roughly).

More information can be found in the attached letter and at the link below.

<http://www.fbbva.es/TLFU/tlfu/ing/microsites/premios/fronteras/nominacion/index.jsp>

***Limited Submission - American Diabetes Association – Pathway to Stop Diabetes Awards**

The American Diabetes Association is now accepting nominations for its limited submission opportunity [Pathway to Stop Diabetes Awards](#) in an effort to inspire and support a new generation of diabetes researchers. Individuals supported through this program will focus on innovative ideas and transformational approaches that lead to discoveries in diabetes prevention and treatment, and ultimately change the face of diabetes.

***The sponsor will only allow applicant institutions to nominate one nominee for either of two Pathway Awards (described in detail below):**

- **Diabetes Research Career Initiator (INI)**
- **Diabetes Research Accelerator (ACC)**

If you are interested in applying for either award, please submit a brief notice of intent/interest to the HSPH Office of Research Strategy and Development (orsd@hsph.harvard.edu) as soon as possible but no later than

March 28. Based on the number of notices received, we will determine whether an internal competition will need to be held to select the HSPH nominee for this award. If a competition is needed, we will require interested faculty to submit a 2-page synopsis of their proposed work by April 30, 2014.

Diabetes Research Career Initiator (INI)

Status: Open - Currently accepting applications

Application Deadline: July 1, 2014 for January 2015 funding

Award Description: This two-phased award is designed to support the transition from mentored training to independent research faculty

Eligibility: Eligible applicants must currently be in research training positions (post-doctoral fellow, research fellowship) and have no more than seven years of research training following terminal doctoral degree. Applicants cannot concurrently hold an NIH K99/R00 grant.

Candidates must be identified through institutional nomination; applications will be accepted only from individuals with the appropriate institution support

Support: Awards provide two distinct phases of research support. Phase 1 provides up to two years of support for mentored training at a maximum of \$100,000 per year (including 10% indirect costs). Phase 2 provides up to five years of support for independent research at a maximum of \$325,000 per year (including 30% indirect costs).

Combined support for Phase 1 and Phase 2 can total up to \$1,625,000.

Diabetes Research Accelerator (ACC)

Status: *Open - Currently accepting applications*

Application Deadline: July 1, 2014 for January 2015 funding

Award Description: Awards are designed to support exceptional early-career researchers who have distinguished themselves as promising investigators and are in the beginning stages of establishing successful, independent diabetes research programs; and talented established investigators in fields other than diabetes who are interested in applying their skills and expertise to diabetes research.

Eligibility: Awards are available to individuals with established records of independent productivity in research, in two distinct categories:

- **Early Investigator:** *Early-career diabetes investigators proposing innovative*

and ambitious diabetes-related research programs. Applicants must hold faculty positions and have demonstrated independent productivity in diabetes research. Applicants may currently hold independent NIH funding (K, U or R awards, including an initial R01/U01) but must not have applied for, or received, an R01/U01 renewal or a second R01/U01 award.

- ***New to Diabetes Research:*** *Established investigators with exceptional productivity in fields other than diabetes research who would like to apply their expertise to innovative diabetes-related research topics. Applicants must hold faculty positions and have demonstrated independent productivity. Applicants cannot have previously received national grant support in diabetes research.*

Candidates must be identified through institutional nomination; applications will be accepted only from individuals with the appropriate institution support.

Support: Awards provide five years of research support at a maximum of \$325,000 per year (including 30% indirect costs), for a total of \$1,625,000.

PCORI – Eugene Washington PCORI Engagement Awards Program

The Engagement Awards were created to forge opportunities for patients and other stakeholder communities to become more involved in patient-centered research. Each award provides support for up to \$250,000 with a project period of no more than two years. In 2014, PCORI will award up to \$15 million to support projects in three categories:

- Knowledge Awards
- Training and Development Awards
- Dissemination Awards

Together, the awards will help establish a diverse community of passionate individuals with opportunities to participate in patient-centered research. More information about the [Eugene Washington PCORI Engagement Awards](#).

Letters of Inquiry (LOI) are received on a rolling basis.

PCORI Funding Opportunities

PCORI has three broad funding cycles a year. Starting with May 2013, cycles are designated by the month and year that applications are due. More targeted and special funding opportunities may be available outside of these cycles.

There are some differences in the [latest round of PFAs](#), issued Feb. 5, including the fact that for many of them, Letters of Intent (LOIs) are competitive. This means they'll be reviewed for their responsiveness and fit with program goals and authors will be notified if they're invited to submit a full application. Be sure to check the details of the PFA to which you're applying.

Institute for Health Metrics and Evaluation - Roux Prize for turning evidence into health impact

The [Roux Prize](#) is a new US\$100,000 award recently launched by the [Institute for Health Metrics and Evaluation](#) (IHME) to recognize individuals or groups who have used disease burden evidence to take action that makes people healthier. Nominees may come from anywhere in the world and could include, but are not limited to, staff in government agencies, researchers at academic institutions, volunteers in charitable organizations, or health providers working in the community. The only requirement is that they have used Global Burden of Disease (GBD) findings at some point since the publication of the first GBD study in 1993 to improve health at the local, national, or global level.

GBD is a systematic, scientific effort to quantify the comparative magnitude of health loss due to diseases, injuries, and risk factors. Data on disease burden have led to changes on a variety of health issues, ranging from global tobacco control to better diagnosis and treatment of children with diabetes in Ghana to laws in Vietnam encouraging helmet use among riders of motorcycles and bicycles to reduce road injury deaths.

Applications are due March 31, 2014, and the winner will be announced at an event in September 2014. More information can be found at rouxprize.org. A digital Roux prize flier is available online: ihmeuw.org/rouxprize-flier

For questions or additional information, please contact:

Health Effects Institute - Health Effects Winter 2014 RFA Booklet

HEI has issued its Winter 2014 RFA booklet. It can be downloaded from www.healtheffects.org/funding.htm. The booklet includes:

- RFPA 14-1, Enhancing Near-Road Exposure Assessment Through Characterization of Non-tailpipe and Tailpipe Emissions Near Urban Roads and in Tunnels, and
- RFA 14-2, Walter A. Rosenblith New Investigator Award

The booklet has detailed instructions for applicants, as well as new sets of application forms.

The Life Sciences Research Foundation – Postdoctoral Fellowship Program

The LSRF solicits monies from industry, foundations and individuals to support postdoctoral fellowships in the life sciences. Active solicitation of funds continues, for which we need the assistance of all concerned individuals. We recognize that discoveries and the application of innovations in biology for the public's good will depend upon the training and support of the highest quality young scientists in the very best research environments. LSRF awards fellowships across the spectrum of the life sciences: biochemistry; cell, developmental, molecular, plant, structural, organismic population and evolutionary biology; endocrinology; immunology; microbiology; neurobiology; physiology; virology.

Robert Wood Johnson Foundation: Active Calls for Proposals

[Health Impact Project](#)

Deadline: Wed, 2 Apr 2014
6:00 p.m. ET

The Health Impact Project, a collaboration of RWJF and The Pew Charitable Trusts, promotes the use of Health Impact Assessments (HIAs) and related approaches to help policy-makers incorporate health considerations into new policies and programs.

[Future of Nursing Scholars](#)

Deadline: Tue, 15 Apr 2014
3:00 p.m. ET

The goal of this program is to develop the next generation of PhD-prepared nurse leaders and bring transformational change to nursing and health care.

[Public Health Law Research: Making the Case for Laws That Improve Health](#)

Closing Date: April 15, 2014

[Changes in Health Care Financing and Organization](#)

Open

HCFO supports research, policy analysis and evaluation projects that provide policy leaders timely information on health care policy, financing and organization issues.

[Changes in Health Care Financing and Organization: Small Grants](#)

Open

Small grants: HCFO supports research, policy analysis and evaluation projects that provide policy leaders timely information on health care policy, financing and organization issues.

Other Announcements

PCORI New Funding Cycle Dates and Names

PCORI is moving from three funding application cycles per year to four in an effort to increase the amount of research support awarded each year. As a result, cycles will have new deadline names. The December 2013 cycle is now called Winter 2014 and the application due date is changing from Monday, Dec. 16 to Tuesday, Jan. 21. The Spring 2014 cycle will open on Wednesday, Feb. 5, with required letters of intent due Friday, Mar. 7, and applications due Tuesday, May 6. Please visit the PCORI [Funding Center](#) to find more information.
