

Weekly Funding Opportunity Announcements  
Tuesday, September 24, 2013

**NIH Funding Announcements – New This Week**

**New RFAs for week ending September 20, 2013:**

<a href="#">Announcement Number</a>	<a href="#">Issuing Organization</a>	<a href="#">Release Date</a>	<a href="#">Opening Date (SF424 Only)</a>	<a href="#">Expiration Date</a>	<a href="#">Activity Code(s)</a>	<a href="#">Title</a>
<a href="#">RFA-OD-13-117</a>	NIH	09-23-2013		12-11-2013	U54	Center for Evaluation and Coordination of Training and Research (CECTR) in Tobacco Regulatory Science (U54)
<a href="#">RFA-NS-14-004</a>	NINDS	09-20-2013	02-10-2014	03-11-2014	U01	Centers Without Walls for Collaborative Research in the Epilepsies: Sudden Unexpected Death in Epilepsy (SUDEP) (U01)
<a href="#">RFA-MH-14-090</a>	NIMH	09-20-2013	01-03-2014	02-04-2014	P60	Disaster Mental Health Intervention Research Center (P60)
<a href="#">RFA-RM-13-014</a>	Roadmap	09-19-2013	10-22-2013	11-23-2013	U01	Defining A Comprehensive Reference Profile of Circulating Human Extracellular RNA (U01)

**New PARs:**

<a href="#">Announcement Number</a>	<a href="#">Issuing Organization</a>	<a href="#">Release Date</a>	<a href="#">Opening Date (SF424 Only)</a>	<a href="#">Expiration Date</a>	<a href="#">Activity Code(s)</a>	<a href="#">Title</a>
<a href="#">PAR-13-362</a>	NINDS	09-23-2013	11-11-2013	10-13-2015	K12	Neurological Sciences Academic Development Award (K12)

\*\*The sponsor has limited the number of applications that institutions may submit for this award.

If you are interested in applying for this opportunity, please submit a brief notice of intent to apply for this award to the HSPH Office of Research Strategy and Development (orsd@hsph.harvard.edu) by Friday, October 4, 2013. Based on the number of notices received, we will determine whether an internal competition/internal coordination may be needed at the School or University-level to select nominees for this award.

<a href="#">PA-13-359</a>	NIAAA	09-23-2013	01-05-2014	05-08-2017	R01	Nutrition and Alcohol-Related Health Outcomes (R01)

<a href="#">PA-13-354</a>	NIA	09-19-2013	01-05-2014	01-08-2017	R01	Advancing the Science of Geriatric Palliative Care (R01)

**Limited Submission Opportunity:**  
**NIH 2014 Director's Early Independence Awards (EIA)**

The NIH recently opened a call for the 2014 Director's Early Independence Awards (EIA) (<http://grants.nih.gov/grants/guide/rfa-files/RFA-RM-12-018.html>). **HSPH is only permitted to submit two applications for this award.**

This mechanism is for individuals who are within 12 months (before or after) receipt of the terminal research degree or completion of a clinical residency at the time of the application. As many are aware, this prestigious award supports exceptional investigators who wish to pursue independent research directly after completion of their terminal doctoral/research degree or clinical residency, thereby forgoing the traditional post-doctoral training period. The program is intended to help research intensive institutions invigorate their research departments by recruiting outstanding, early career scientists. Awards will be for up to \$250,000 in direct costs, plus applicable F&A fees for a period of five years; cost-sharing is not required.

Because HSPH is only allowed to submit two applications, the Office of Research Strategy and Development (ORS) will coordinate an internal competition to select the institution's nominees. **Students must be nominated by their**

**Department Chair in order to be considered for the HSPH internal competition; Department Chairs must submit internal application materials to ORSD on behalf of the student no later than October 23, 2013.**

**Students interested in this opportunity should contact their faculty mentor and department chair immediately for additional details.**

### **NIH Earl Stadtman Investigators**

We are pleased to announce that the National Institutes of Health (NIH) Intramural Research Program is now recruiting for top-tier tenure track candidates to become “Earl Stadtman Investigators”. We are seeking creative thinkers who are eager to take on high-risk high impact research as independent investigators in the NIH Intramural Research program. The NIH offers an outstanding research environment for scientists who are looking for opportunities to explore the limits of their productivity and independence.

We are interested in the best and the brightest early career investigators in all the disciplines of epidemiology and population sciences, including genetic, environmental, behavioral and psychosocial, reproductive, pediatric, cancer, chronic disease, infectious disease, alcohol, drug, and psychiatric epidemiology. Opportunities exist for basic, translational, and cross-disciplinary research on the full spectrum of health outcomes addressed across the NIH.

Please visit the [NIH website](#) which outlines the qualifications/eligibility requirements, and provides detailed information about the program and the application process. The application process began August 1, 2013 and applications will be accepted through **October 15, 2013**.

## **Other Federal Funding Announcements**

### **Department of Defense**

FY13 DOD CDMRP Program Pre-Announcements

The Fiscal Year 2013 (FY13) Defense Appropriations Act provides research funding for the peer reviewed programs managed by the Department of Defense (DOD) office of Congressionally Directed Medical Research Programs (CDMRP).

Funding Opportunities now available:

- [Amyotrophic Lateral Sclerosis](#)
- [Autism](#)
- [Bone Marrow Failure](#)
- [Breast Cancer](#)
- [Defense Medical Research and Development Program](#)
- [Duchenne Muscular Dystrophy](#)
- [Gulf War Illness](#)

Closing Date: September 8, 2015

## Other Funding Opportunities

### **\*New – National Science Foundation – 2014 Alan T. Waterman Award**

#### **Internal Coordination required**

The National Science Foundation (NSF) is pleased to accept nominations for the 2014 Alan T. Waterman Award. Each year, the Foundation bestows the Waterman Award in recognition of the talent, creativity, and influence of a singular young researcher. Established in 1975 to commemorate the Foundation's first Director, the Waterman Award is NSF's highest honor for promising, early-career, researchers.

Nominees are accepted from all sources, from any field of science and engineering that NSF supports. The award recipient will receive a medal and an invitation to the formal awards ceremony in Washington, DC. In addition, the recipient will receive a grant of \$1,000,000 over a five-year period for scientific research or advanced study in any field of science or engineering supported by the National Science Foundation, at any institution of the recipient's choice. We are especially interested in nominations for women, members of underrepresented minority groups, and persons with disabilities.

#### **Eligibility and Selection Criteria**

1. Candidates must be U.S. citizens or permanent residents. They must be 35 years of age or younger, or not more than 7 years beyond receipt of their Ph.D. degree, by December 31 of the year in which they are nominated.
2. Candidates should have demonstrated exceptional individual achievements in scientific or engineering research of sufficient quality, originality, innovation, and significant impact on the field to place them at the forefront of their peers.

**Complete nomination packages, consisting of nominations and four letters of reference, are due by October 25, 2013.** The nominations and letters must be received through the FastLane system. To submit a nomination, please visit <https://www.fastlane.nsf.gov/honawards/>.

Please contact the Program Manager for the Alan T. Waterman Award at [waterman@nsf.gov](mailto:waterman@nsf.gov) or 703-292-8040 if you have any questions. You may also visit <http://www.nsf.gov/od/waterman/waterman.jsp> for more information. A PDF version of the call for nominations is available at [http://www.nsf.gov/od/waterman/nsf\\_watermanaward\\_2014callfornominations\\_130730.pdf](http://www.nsf.gov/od/waterman/nsf_watermanaward_2014callfornominations_130730.pdf)

**If you are interested in applying for this award, please submit a Notice of Intent to ORSD (including name, title and department) by October 1<sup>st</sup> so that we may coordinate the nominations.**

### Limited Submission Opportunity:

#### National Science Foundation: Major Research Instrumentation Program/ NSF 13-517

**Harvard, as one institution, may submit up to three proposals\*. The Office of the Vice Provost for Research will facilitate the internal process to determine the entries from Harvard.**

Sponsor: National Science Foundation

Program: Major Research Instrumentation Program/ NSF 13-517

**Internal Due Date: Monday, October 28, 2013, 5:00 pm EST**

Internal Competition Instructions:

- Letter of endorsement from department chair or center director that also specifies how the cost sharing requirement will be met.
- Two page research proposal (a third page may be used for graphics)
- Current CV for Principal Investigator (no specific format requested for internal submissions)

Sponsor LOI: Not applicable

Sponsor Due Date: January 23, 2014

Overview of Opportunity:

- \* There are two tracks to consider when applying for this opportunity.
  - Acquisition: Track 1
  - Development: Track 2
  - *If three proposals are submitted, at least one of the proposals must be for instrument development (i.e., no more than two proposals may be for instrument acquisition)*
- The Major Research Instrumentation Program (MRI) *"seeks to increase access to shared scientific and engineering instruments for research and research training..."* by providing funds to assist with the purchase or development of research tools that are otherwise too costly and/or not appropriate to acquire through other sources of NSF funding.
- Cost sharing of precisely 30% of the total project cost is required. Other budgetary information applies. Please carefully read over the announcement for further details.
- Estimated number of awards: 175
- Anticipated Funding Amount: \$90 million

### Limited Submission Opportunity

#### Damon Runyon Cancer Research Foundation Clinical Investigator Award

HSPH faculty are eligible to compete for the Damon Runyon Cancer Research Foundation Clinical Investigator Awards. Because Harvard is only permitted to nominate six applicants, nominees will be selected through the University Committee on Biological Sciences (UCBS). **Applicants must apply through the UCBS online application portal no later than October 16, 2013:** <http://www.fas.harvard.edu/~research/UCBS/damonrunyon.html>

Description: The Clinical Investigator Award program supports early career physician-scientists conducting patient-oriented research. The goal of this innovative program is to increase the number of physicians capable of moving seamlessly between the laboratory and the patient's bedside in search of breakthrough treatments.

Clinical Research is defined as:

1. Patient-oriented research: research conducted with human subjects
2. Epidemiologic and behavioral studies

### 3. Outcomes research and health services research

Excluded from this definition are in vitro studies that utilize human tissues but do not deal directly with patients. This award is designed to support physicians who adhere to "The Handshake Rule," meaning that he/she will meet each patient in his/her research studies.

Amount of support: \$150,000 per year for three years plus dept repayment program.

#### Eligibility Requirements:

1. The applicant must be an assistant professor level (possibly instructor, see note below).
2. The applicant must have received an MD or MD/PhD degree(s) from an accredited institution, completed his/her subspecialty training and be board-eligible.
3. The applicant must apply within the first four years of his/her initial full faculty appointment (cut-off July 2010).
4. The applicant must apply in conjunction with a mentor who is established in the field of clinical translational cancer research or cancer prevention and epidemiology and can provide critical guidance during the period of the award. No more than two Damon Runyon Clinical Investigators will be funded to work with the same mentor at any given time.
5. The applicant must commit 80% time to research.
6. Candidates holding or awarded R01s at the time of application are not eligible to apply. Applicants may not concurrently hold another physician-scientist career development award from a private source. See foundation website for examples.
7. The applicant must be a U.S. citizen or permanent resident.

### **The Life Sciences Research Foundation – Postdoctoral Fellowship Program**

The LSRF solicits monies from industry, foundations and individuals to support postdoctoral fellowships in the life sciences. Active solicitation of funds continues, for which we need the assistance of all concerned individuals. We recognize that discoveries and the application of innovations in biology for the public's good will depend upon the training and support of the highest quality young scientists in the very best research environments. LSRF awards fellowships across the spectrum of the life sciences: biochemistry; cell, developmental, molecular, plant, structural, organismic population and evolutionary biology; endocrinology; immunology; microbiology; neurobiology; physiology; virology.

[Click here](#) for more information.

### **PCORI - Treatment Options for African Americans and Hispanics/Latinos with Uncontrolled Asthma**

Today, PCORI announced plans to invest up to \$17 million in patient-centered outcomes research projects evaluating treatment options for uncontrolled asthma in African-American and Hispanic/Latino populations. Through [this initiative](#), we are not only tackling a major health issue but also issuing our first funding opportunity targeting specific, high-impact health and healthcare topics.

This newly released [PCORI Funding Announcement \(PFA\)](#) seeks proposals to evaluate comprehensive and coordinated approaches to reducing poor health and other complications related to uncontrolled asthma in specific minority populations disproportionately affected by this condition. Our goal is to fund comparative effectiveness research to identify optimal strategies for leveraging the National Asthma Education and Prevention Program (NAEPP) guidelines to improve asthma outcomes for African Americans and Hispanics/Latinos.

We are particularly interested in studies that assess methods to improve both provider and patient adherence to the NAEPP's evidence-based guidelines, coupled with interventions tailored to the needs of specific individuals and populations. As the guidelines require a multidimensional approach to patient care, we welcome proposed studies that incorporate interventions at the community, home, and health system levels and assess combinations of patient-education tools, home-environment interventions, asthma medications, and team-based approaches.

In addition, in accordance with our patient-centered mission, we're looking for proposals that will examine outcomes that matter most to patients and their families, such as missed days of school or work, visits to emergency departments, limitations on individuals' activities, patients' and families' ability to manage symptoms themselves outside of medical facilities, and their overall quality of life.

Asthma affects nearly 26 million Americans; racial and ethnic minorities disproportionately suffer its effects. Almost 4.5 million African Americans -- approximately 12 percent -- had asthma in 2010 and experience significantly higher asthma-related illness and death rates than do white Americans. About 3.6 million Hispanics and Latinos/Latinas in the United States -- some 7 percent -- reported having asthma in 2010. Children in both these minority populations are less likely than white children to be prescribed asthma treatment and to follow it when they are.

Those interested in this funding announcement must submit letters of intent (LOIs) by **Thursday, Aug. 1, and applications by Wednesday, Sept. 18**. Application guidelines and templates will be available on Monday, July 1, in [PCORI's Funding Center](#). We will host an informational webinar on Tuesday, July 9, for interested applicants.

This PFA is the first to result from our [accelerated process](#) to develop funding announcements on specific topics that patients, family caregivers, clinicians, payers, and other healthcare stakeholders have told us are of greatest concern to them and where our work could help to improve care. This "targeted" funding path complements calls for proposals issued under our broad National Priorities for Research.

### **United States-Israel Educational Foundation (USIEF), the Fulbright commission for Israel**

The United States-Israel Educational Foundation (USIEF), the Fulbright commission for Israel, offers 8 fellowships to American post-doctoral researchers in support of work to be carried out at Israeli universities during the course of the 2014/2015-2015/2016 academic years.

The US Post-Doctoral Fellowship Program is open to candidates in all academic disciplines. Please click below for further details:

[http://www.bsf.org.il/data/FormsToDownload/Fulbright\\_Israel\\_Post\\_Doctoral2013.doc](http://www.bsf.org.il/data/FormsToDownload/Fulbright_Israel_Post_Doctoral2013.doc)

### **Keystone Symposia Early Career Investigator Travel Awards (ECITA)**

Keystone Symposia has now some additional funds for Early Career Investigator Travel Awards (ECITA). These awards are for Assistant Professors from designated URM backgrounds in the U.S., who are "bench" researchers. The purpose is to support their research success by providing funds for them to attend one of the Keystone Symposia research meetings (Up to \$1800).

The application may be found on-line at [www.keystonesymposia.org/diversity](http://www.keystonesymposia.org/diversity) <http://www.keystonesymposia.org/diversity> See ECITA.

- There will be (9) awards for the 2013/2014 Keystone Symposia meeting season.

- The applicants must choose a scheduled meeting from March 1, 2013 through February 28, 2014 and have all receipts submitted for reimbursement to Keystone Symposia within 2 weeks post the end of the meeting.
- Reimbursement is only for registration, ground and air transportation, and lodging.
- Applications are reviewed by meeting organizers and the DLSP office.
- Awards are made based on the applicant's research question and the likelihood of getting the question answered at the meeting selected.
- All awards will be made on a "first come - first served" basis.
- Award Amount: 1,950 USD. This is a reimbursement award - all receipts must be submitted at one time for reimbursement.
- The application process for such awards will open March 1, 2013.
- [Click here](#) to download the application.

Applicants MUST be engaged in laboratory research and focused on a career in “bench” research.

### **Robert Wood Johnson Foundation: Active Calls for Proposals**

#### [Robert Wood Johnson Foundation Health & Society Scholars](#)

Deadline: Fri, 20 Sep 2013  
5:00 p.m. ET

This program provides support to postdoctoral scholars to build the nation’s capacity for research and leadership to address the multiple determinants of population health and contribute to policy change.

#### [Robert Wood Johnson Foundation Scholars in Health Policy Research](#)

The Robert Wood Johnson Foundation Scholars in Health Policy Research program develops and supports a new generation of creative health policy thinkers and researchers within the disciplines of economics, political science and sociology.

Deadline: Tue, 8 Oct 2013  
3:00 p.m. ET

#### [Robert Wood Johnson Foundation Health Policy Fellows](#)

The Robert Wood Johnson Foundation Health Policy Fellows program provides the nation’s most comprehensive fellowship experience at the nexus of health science, policy and politics in Washington, D.C.

Deadline: Wed, 13 Nov 2013  
3:00 p.m. ET

#### [Changes in Health Care Financing and Organization](#)

Open

HCFO supports research, policy analysis and evaluation projects that provide policy leaders timely information on health care policy, financing and organization issues.

[Changes in Health Care Financing and Organization: Small Grants](#)

Open

Small grants: HCFO supports research, policy analysis and evaluation projects that provide policy leaders timely information on health care policy, financing and organization issues.
