FY13 DOD CDMRP Program Pre-Announcements

The Fiscal Year 2013 (FY13) Defense Appropriations Act provides research funding for the peer reviewed programs managed by the Department of Defense (DOD) office of Congressionally Directed Medical Research Programs (CDMRP).

This is to notify the research community of the recently released pre-announcements from the following programs:

- Autism Research Program (ARP)*
- Bone Marrow Failure Research Program (BMFRP)*
- Duchenne Muscular Dystrophy Research Program (DMDRP)*
- Lung Cancer Research Program (OCRP)*
- Multiple Sclerosis Research Program (MSRP)*
- Ovarian Cancer Research Program (OCRP)*
- Peer Reviewed Medical Research Program (PRMRP)*

Descriptions of each of the funding opportunities, eligibility, key mechanism elements, and funding can be found in the respective Program pre-announcement. FY13 pre-announcements can be found in the CDMRP home page features at <http://cdmrp.army.mil>.

Other Funding Opportunities

The Life Sciences Research Foundation – Postdoctoral Fellowship Program

The LSRF solicits monies from industry, foundations and individuals to support postdoctoral fellowships in the life sciences. Active solicitation of funds continues, for which we need the assistance of all concerned individuals. We recognize that discoveries and the application of innovations in biology for the public's good will depend upon the training and support of the highest quality young scientists in the very best research environments. LSRF awards fellowships across the spectrum of the life sciences: biochemistry; cell, developmental, molecular, plant, structural, organismic population and evolutionary biology; endocrinology; immunology; microbiology; neurobiology; physiology; virology.

PCORI - Treatment Options for African Americans and Hispanics/Latinos with Uncontrolled Asthma

Today, PCORI announced plans to invest up to \$17 million in patient-centered outcomes research projects evaluating treatment options for uncontrolled asthma in African-American and Hispanic/Latino populations. Through [this initiative](#), we are not only tackling a major health issue but also issuing our first funding opportunity targeting specific, high-impact health and healthcare topics.

This newly released [PCORI Funding Announcement \(PFA\)](#) seeks proposals to evaluate comprehensive and coordinated approaches to reducing poor health and other complications related to uncontrolled asthma in specific minority populations disproportionately affected by this condition. Our goal is to fund comparative effectiveness research to identify optimal strategies for leveraging the National Asthma Education and Prevention Program (NAEPP) guidelines to improve asthma outcomes for African Americans and Hispanics/Latinos.

We are particularly interested in studies that assess methods to improve both provider and patient adherence to the NAEPP's evidence-based guidelines, coupled with interventions tailored to the needs of specific individuals and populations. As the guidelines require a multidimensional approach to patient care, we welcome proposed studies that incorporate interventions at the community, home, and health system levels and assess combinations of patient-education tools, home-environment interventions, asthma medications, and team-based approaches.

In addition, in accordance with our patient-centered mission, we're looking for proposals that will examine outcomes that matter most to patients and their families, such as missed days of school or work, visits to

emergency departments, limitations on individuals' activities, patients' and families' ability to manage symptoms themselves outside of medical facilities, and their overall quality of life.

Asthma affects nearly 26 million Americans; racial and ethnic minorities disproportionately suffer its effects. Almost 4.5 million African Americans -- approximately 12 percent -- had asthma in 2010 and experience significantly higher asthma-related illness and death rates than do white Americans. About 3.6 million Hispanics and Latinos/Latinas in the United States -- some 7 percent -- reported having asthma in 2010. Children in both these minority populations are less likely than white children to be prescribed asthma treatment and to follow it when they are.

Those interested in this funding announcement must submit letters of intent (LOIs) by **Thursday, Aug. 1, and applications by Wednesday, Sept. 18**. Application guidelines and templates will be available on Monday, July 1, in [PCORI's Funding Center](#). We will host an informational webinar on Tuesday, July 9, for interested applicants.

This PFA is the first to result from our [accelerated process](#) to develop funding announcements on specific topics that patients, family caregivers, clinicians, payers, and other healthcare stakeholders have told us are of greatest concern to them and where our work could help to improve care. This "targeted" funding path complements calls for proposals issued under our broad National Priorities for Research.

United States-Israel Educational Foundation (USIEF), the Fulbright commission for Israel

The United States-Israel Educational Foundation (USIEF), the Fulbright commission for Israel, offers 8 fellowships to American post-doctoral researchers in support of work to be carried out at Israeli universities during the course of the 2014/2015-2015/2016 academic years.

The US Post-Doctoral Fellowship Program is open to candidates in all academic disciplines. Please click below for further details:

Keystone Symposia Early Career Investigator Travel Awards (ECITA)

Keystone Symposia has now some additional funds for Early Career Investigator Travel Awards (ECITA). These awards are for Assistant Professors from designated URM backgrounds in the U.S., who are "bench" researchers. The purpose is to support their research success by providing funds for them to attend one of the Keystone Symposia research meetings (Up to \$1800).

The application may be found on-line at www.keystonesymposia.org/diversity
<<http://www.keystonesymposia.org/diversity>> See ECITA.

-
- There will be (9) awards for the 2013/2014 Keystone Symposia meeting season.
- The applicants must choose a scheduled meeting from March 1, 2013 through February 28, 2014 and have all receipts submitted for reimbursement to Keystone Symposia within 2 weeks post the end of the meeting.
- Reimbursement is only for registration, ground and air transportation, and lodging.
- Applications are reviewed by meeting organizers and the DLSP office.

- Awards are made based on the applicant's research question and the likelihood of getting the question answered at the meeting selected.
- All awards will be made on a "first come - first served" basis.
- Award Amount: 1,950 USD. This is a reimbursement award - all receipts must be submitted at one time for reimbursement.
- The application process for such awards will open March 1, 2013.
- [Click here](#) to download the application.

Applicants MUST be engaged in laboratory research and focused on a career in “bench” research.
