Internal Funding Opportunities

***New – [HMS Foundation Funds RFP: Damon Runyon Clinical Investigator Award](#)**

Damon Runyon Cancer Research Foundation Clinical Investigator Award

Internal Application Deadline: November 25, 2014 by 5:00pm

Funding Amount: \$450,000 over 3 years plus debt repayment program

The Clinical Investigator Award program supports early career physician-scientists conducting patient-oriented research. The goal of this innovative program is to increase the number of physicians capable of moving seamlessly between the laboratory and the patient's bedside in search of breakthrough treatments.

Clinical Research is defined as:

1. Patient-oriented research: research conducted with human subjects
2. Epidemiologic and behavioral studies
3. Outcomes research and health services research

Excluded from this definition are in vitro studies that utilize human tissues but do not deal directly with patients. This award is designed to support physicians who adhere to "The Handshake Rule," meaning that he/she will conduct research studies that directly involve patients.

Eligibility Criteria:

1. Applicants must be an instructor or assistant professor.
2. Applicants must have received an MD or MD/PhD degree(s), completed his/her subspecialty training and be board-eligible.
3. Applicants must be within the first four years of assistant professor appointment (cut-off July 1, 2011).
4. Applicants must apply in conjunction with a mentor who is established in the field of clinical translational cancer research, cancer prevention and/or epidemiology and can provide critical guidance during the period of the award.
5. Must commit 80% time to research.
6. Applicants may not concurrently hold another physician-scientist career development award from a private source. See foundation website for examples. Candidates holding or awarded R01s at the time of application are not eligible to apply.
7. Must be a U.S. citizen or permanent resident

Applicants are encouraged to review the Foundation [website](#) as well as the list of most [recently awarded grants](#).

To apply please visit the link below:

[HMS Foundation Funds application](#)

Application materials should include the following:

1. Summary of the proposed research. (Limit 2 pages and a third page may be used for references) [Characteristics of a successful research proposal](#)
2. Statement of the resources/facilities available for the project as is standard for NIH grants. (Limit 1 page)
3. Nominating letter signed by your department or division head AND co-signed by a research sponsor/mentor (instructors still in training, see next list item). If your department/division head is your research mentor, then only one signature is required. (Limit 2 pages) [Characteristics of a strong letter of support](#)

4. All instructors who are still in training: Include a separate letter of support from your research mentor. (Limit 2 pages)
5. Up-to-date biosketch in NIH format, including publications and listing of current, past and pending sources of funding (Limit 4 pages)

Harvard University Blavatnik Biomedical Accelerator RFA

The Blavatnik Biomedical Accelerator at Harvard University is pleased to announce its 2014-15 Request for Proposals, which is attached as a PDF file. The Blavatnik Biomedical Accelerator supports Harvard faculty in the performance and commercialization of applied life sciences research. It seeks to enable innovative, investigator-initiated research aimed at establishing proof-of-concept and generating robust intellectual property positions. The Blavatnik Accelerator's primary goal is to advance technologies to the point where additional development funding from industry is obtained. The Blavatnik Accelerator is managed by the Office of Technology Development (OTD) under the auspices of the Office of the Provost, in consultation with an independent advisory committee comprising leaders from the Boston life science community.

Funding opportunities for applied life sciences research are offered in two categories: Pilot Grants and Development Grants. Pilot Grant awards will be funded at a maximum of \$100k for a period of 12 months, and Development Grants will be funded at \$200k-300k total for a period of 12-24 months. Anyone with rights as a principal investigator, whose employer is Harvard University and who has an obligation to assign intellectual property rights to Harvard, is eligible to apply. Successful proposals are expected to demonstrate strong commercial potential as well as scientific and technical merit.

The deadline for pre-proposals is 5 pm ET on November 26, 2014. Potential applicants should notify blavatnik_accelerator@harvard.edu as soon as possible and no later than October 31, 2014, of intent to submit a pre-proposal. General inquiries should be directed to: blavatnik_accelerator@harvard.edu.

Harvard Initiative for Learning and Teaching – Spark Grants

U.S. Department of State - Franklin Fellows Program

The attached letter provides an overview of the Franklin Fellow Program
<<http://careers.state.gov/work/fellowships/franklin-fellows>>.

Researchers may apply on their own, or be nominated by their institution. There is no limit to how many people an institution may nominate, and applications are accepted year round.

This opportunity is for mid/upper level expert professionals who are US citizens and are able to obtain a security clearance as part of the application to the program. Clearance is not needed prior to applying.

This is an unfunded fellowship. Sponsoring institutions, which nominate Fellows, can continue to provide compensation and benefits during the period of the fellowship (one year).

PCORI Offers New Funding Support for Meetings and Events

Do you have ideas for a symposium, workshop, or other event focused on developing and sharing information about patient-centered comparative clinical effectiveness research (CER)? Our

[Engagement Awards program](#) today announced a new funding opportunity to support such initiatives. Eligible organizations may begin applying immediately for these awards, ranging from \$50,000 to \$250,000. This is the latest addition to our Engagement Awards program, which supports a range of projects that encourage involvement by patients, clinicians, and other healthcare stakeholders in the work we do.

PCORI – Eugene Washington PCORI Engagement Awards Program

The Engagement Awards were created to forge opportunities for patients and other stakeholder communities to become more involved in patient-centered research. Each award provides support for up to \$250,000 with a project period of no more than two years. In 2014, PCORI will award up to \$15 million to support projects in three categories:

- Knowledge Awards
- Training and Development Awards
- Dissemination Awards

Together, the awards will help establish a diverse community of passionate individuals with opportunities to participate in patient-centered research. More information about the [Eugene Washington PCORI Engagement Awards](#).

Letters of Inquiry (LOI) are received on a rolling basis.

PCORI Funding Opportunities

PCORI has three broad funding cycles a year. Starting with May 2013, cycles are designated by the month and year that applications are due. More targeted and special funding opportunities may be available outside of these cycles.

There are some differences in the [latest round of PFAs](#), issued Feb. 5, including the fact that for many of them, Letters of Intent (LOIs) are competitive. This means they'll be reviewed for their responsiveness and fit with program goals and authors will be notified if they're invited to submit a full application. Be sure to check the details of the PFA to which you're applying.

American Diabetes Association Research Programs - Notice of Change in Grant Cycle for 2015 Funding

Over the past few years, the Association has seen operational expenses for employee costs, mission activities and fundraising activities increase. Unfortunately, our revenue growth has not been able to keep pace. We are continuing to work diligently to improve revenue results for 2014, while closely monitoring expenses and maintaining our focus on strengthening efficiencies and maximizing the impact of every donor dollar.

Under these circumstances, the Association has postponed the upcoming Core Research Program call for applications that was planned for an October submission deadline. We will know more when the organizational budget for 2015 is approved at the end of 2014, and additional information regarding the timing of future Core Research Program grant cycles will be posted on our [website](#) as it becomes available. The American Diabetes Association® Pathway to Stop Diabetes® and Targeted Research initiatives will proceed as scheduled.

We apologize for the inconvenience and thank you for your patience as we work as an organization to improve our financial health, so that we may continue to provide critical support for diabetes research over the long term and best serve people with diabetes.
