## **Other Funding Opportunities**

### **\*New – U.S. Department of State - Franklin Fellows Program**

The attached letter provides an overview of the Franklin Fellow Program <<http://careers.state.gov/work/fellowships/franklin-fellows>>.

Researchers may apply on their own, or be nominated by their institution. There is no limit to how many people an institution may nominate, and applications are accepted year round.

This opportunity is for mid/upper level expert professionals who are US citizens and are able to obtain a security clearance as part of the application to the program. Clearance is not needed prior to applying.

This is an unfunded fellowship. Sponsoring institutions, which nominate Fellows, can continue to provide compensation and benefits during the period of the fellowship (one year).

**\*New - Alliance for the Prudent Use of Antibiotics (APUA) – 2014 Leadership Awards Call for Nominations**

The Alliance for the Prudent Use of Antibiotics (APUA) would like to take this opportunity to acknowledge the valuable contributions of leaders who have had a major impact on containing antimicrobial resistance. We invite you, as an esteemed colleague, to participate in this process by nominating a candidate for the [2014 APUA Leadership Award](#).

This award honors an individual or organization for extraordinary leadership in promoting the prudent use of antibiotics as a means to contain antibiotic resistance. [We seek nominees](#) active in the fields of science, medicine, and policy from around the world.

In addition, the [APUA Chapter Leadership Award](#) will be presented to a chapter that has exhibited tireless effort and leadership to promote the prudent use of antibiotics in its country and contain antibiotic resistance. Consideration will be given to advances made in basic science, national public health policy, and clinical practice.

Please submit your nomination(s) [using this form](#) before August 15, 2014 via email to [APUA@tufts.edu](mailto:APUA@tufts.edu)

**\*New - The Chronic Effects of Neurotrauma Consortium (CENC) – Request for Applications**

The Chronic Effects of Neurotrauma Consortium (CENC) is seeking applications for collaborations and research studies focused on the impact and sequelae of mTBI/CTE on active duty service members and veterans. Studies will address questions and areas complementary to the Consortium's mission and alignment to specified programmatic needs and funding alignments. Information on the CENC can be found at <https://cenc.rti.org>. Information on the CENC integrated grant program and the Fall 2014 Request for Applications (RFA) can be found at <https://cenc.rti.org/Research-Studies/CENC-Grant-Program>.

Questions regarding this opportunity should be directed to the CENC Peer Review Program Chair, Dr. Steven West ([slwest2@vcu.edu](mailto:slwest2@vcu.edu)).

**\*New - PCORI Offers New Funding Support for Meetings and Events**

Do you have ideas for a symposium, workshop, or other event focused on developing and sharing information about patient-centered comparative clinical effectiveness research (CER)? Our [Eugene Washington PCORI Engagement Awards program](#) today announced a new funding opportunity to support such initiatives. Eligible organizations may begin applying immediately for these awards, ranging from \$50,000 to \$250,000. This is the latest addition to our Engagement Awards program, which supports a range of projects that encourage involvement by patients, clinicians, and other healthcare stakeholders in the work we do

## **Art because Breast Cancer Foundation – Seed the Scientist Award 2014**

The Art beCAUSE Breast Cancer Foundation is happy to announce its' 9th "Seed the Scientist" grant to benefit a young scientist participating in breast cancer research. This two-year award of \$60,000 will be given to a scientist that is accomplished in research relating to **breast cancer and the environment** and shows significant potential to develop into an outstanding scientist in this area. The Art beCAUSE Breast Cancer Foundation is committed to funding research that is dedicated to finding the environmental causes of breast cancer, and is determined to find highly talented breast cancer researchers to help reach this goal.

### **I. Program objective:**

The incidence of breast cancer has increased significantly since the early 1940's such that 1 in 8 women now can expect to be diagnosed with breast cancer in their lifetime. Approximately 40,000 women in the U.S. will die this year of breast cancer. The inability to account for this increase in breast cancer incidence with known risk factors such as diet and exercise, and the cumulative findings of hundreds of epidemiological studies, suggest that exposure to environmental pollutants contributes to breast cancer. The primary mission of the Art beCAUSE Breast Cancer Foundation is to fund research dedicated to identifying these putative environmental causes of breast cancer. A secondary goal is to provide support to highly talented breast cancer researchers in the early stages of their careers in order to motivate their development into outstanding breast cancer scientists.

### **II. Award description**

The Art beCAUSE Breast Cancer Foundation has developed a "Seed a Scientist" program to supply seed money to support research by those investigating environmental etiologies of breast cancer. A two year award of up to \$60,000 (including up to 10% indirect costs) will be made at \$30,000 per year. Applicants should be accomplished in research relating to breast cancer and the environment and show significant potential to develop into an outstanding scientist in this area. As detailed below in "Format", the grant should summarize previous work, goals for future research, and how this seed grant could lead to subsequent funding to further research efforts. The total length of the format sections IV E through IV I, including figures, may not exceed 5 pages, excluding references. Awardees will agree to attend the Foundation's annual fund-raising event in Boston, Massachusetts on October 16, 2014 to accept the award and to speak briefly about how the award will help them in their research, and to attend conferences, events, etc. sponsored by the Foundation and which reasonably fit into their schedule. Every six months, Awardees are expected to provide a progress report on the research funded by the Seed the Scientist grant.

Applications are reviewed by a panel of scientists, physicians, and breast cancer research advocates with significant expertise in laboratory- and community-based studies.

Applications are due **August 15, 2014**. Awards are announced **September 19, 2014**

### **III. Eligibility**

The applicant should have an M.D., Ph.D., and/or MPH degree or must anticipate completing the requirements for one of these degrees within 2 years of receiving an award from Art BeCAUSE. All awardees must be within 10 years of their terminal degree. For junior scientists and pre-doctoral fellows, mentorship from senior investigators is encouraged and, when appropriate, should be indicated by a letter of support from the sponsor/mentor. Candidates for this award must exhibit a commitment to breast cancer research.

### **PCORI – Eugene Washington PCORI Engagement Awards Program**

The Engagement Awards were created to forge opportunities for patients and other stakeholder communities to become more involved in patient-centered research. Each award provides support for up to \$250,000 with a project period of no more than two years. In 2014, PCORI will award up to \$15 million to support projects in three categories:

- Knowledge Awards
- Training and Development Awards
- Dissemination Awards

Together, the awards will help establish a diverse community of passionate individuals with opportunities to participate in patient-centered research. More information about the [Eugene Washington PCORI Engagement Awards](#).

Letters of Inquiry (LOI) are received on a rolling basis.

#### [PCORI Funding Opportunities](#)

PCORI has three broad funding cycles a year. Starting with May 2013, cycles are designated by the month and year that applications are due. More targeted and special funding opportunities may be available outside of these cycles.

There are some differences in the [latest round of PFAs](#), issued Feb. 5, including the fact that for many of them, Letters of Intent (LOIs) are competitive. This means they'll be reviewed for their responsiveness and fit with program goals and authors will be notified if they're invited to submit a full application. Be sure to check the details of the PFA to which you're applying.

## Other Announcements

### **Fulbright Canada Short Notice Health Sciences Funding Opportunity (US\$35,000)**

Fulbright Canada has a targeted opportunity for scholars in Health who specialise in improving the continuum of care for families that are impacted by addiction, mental health problems, and trauma. Fulbright Canada and the Norlien Foundation have partnered to create and support a program of Distinguished Visiting Research Chairs in Brain Science, and Child and Family Health and Wellness. At one of Alberta's three research intensive universities, the scholar(s) would conduct translational research that would improve Alberta's current approaches to preventing and treating addiction and mental health issues.

Given that this is a new opportunity, that three chairs will be appointed annually, and that the recruitment period for these opportunities was limited, we would strongly encourage all interested applicants to begin the online application immediately. **This short notice funding opportunity, valued at US\$35,000 for a four month residential exchange, closes on August 1<sup>st</sup>, 2014.** Interested candidates should email [Brad Hector](#), Program Officer for Scholars. Additional Information regarding our awards is below.

To increase the chance of receiving a Fulbright Award, applicants are encouraged to identify their primary and alternate choices on the application. We offer three [Fulbright Canada Visiting Research Chairs in Health \(award 5488\)](#) that may also be of interest to your scholars.
