Center for Disease Control and Prevention

*New* - CDC: State Occupational Safety and Health Surveillance Program (SSP)
Closing Date: August 29, 2016

CDC: Immunization Improving Immunization Rates and Enhancing Disease Prevention through Partnerships with Providers and National Organizations that focus on Public Health financed solely by 2014 Prevention and Public Health Funds Modification 1
Closing Date: August 21, 2014

CDC: Immunization Improving Immunization Rates and Enhancing Disease Prevention through Partnerships with Providers and National Organizations that focus on Public Health financed solely by 2014 Prevention and Public Health Funds Grant
Closing Date: August 21, 2014

CDC: State Occupational Safety and Health Surveillance Program (SSP)
Closing Date: August 29, 2016

CDC: NIOSH Support for Conferences and Scientific Meetings (U13)
Closing Date: December 13, 2015

CDC: Workers Compensation Surveillance Modification 2
Closing Date: August 29, 2014

CDC: Agricultural, Forestry and Fishing Safety and Health Research Grant
Closing Date: October 31, 2014

CDC: Workers Compensation Surveillance
Closing Date: August 29, 2016

CDC: Prevention NIOSH Small Research Program
Closing Date: September 8, 2015

CDC: Prevention NIOSH Exploratory/Developmental Grant Program
Closing Date: September 8, 2015

CDC: Occupational Safety and Health Research
Closing Date: March 5, 2018

CDC: NIOSH Exploratory/Developmental Grant Program
Closing Date: September 8, 2015

CDC: NIOSH Small Research Program
Closing Date: September 8, 2015
Department of Defense

United States Army Medical Research Materiel Command Congressionally Directed Medical Research Programs
CDMRP Research Funding for 2014

Program Announcement may be downloaded from the Grants.gov website http://www.grants.gov, or the CDMRP website http://cdmrp.army.mil upon its release.

Amyotrophic Lateral Sclerosis Research Program
Autism Research Program
Bone Marrow Failure Research Program
Breast Cancer Research Program
Duchenne Muscular Dystrophy Research Program
Gulf War Illness Research Program
Lung Cancer Research Program
Multiple Sclerosis Research Program
Neurofibromatosis Research Program
Ovarian Cancer Research Program
Peer Reviewed Cancer Research Program
Peer Reviewed Medical Research Program
Peer Reviewed Orthopaedic Research Program
Prostate Cancer Research Program
Spinal Cord Injury Research Program
Tuberous Sclerosis Complex Research Program

Lung Cancer Concept Award
Closing Date: August 15, 2014

FY13 – FY14 Department of Defense HIV/AIDS Prevention Program: Military Specific HIV/AIDS Prevention, Care, and Treatment Program for PEPFAR (President’s Emergency Plan for AIDS Relief) Funded Countries Modification 20
Closing Date: September 30, 2014

Department of Health and Human Services

DHHS: AHRQ Health Services Research Demonstration and Dissemination Grants (R18)
Closing Date: May 25, 2017

DHHS: AHRQ Health Services Research Projects (R01)
Closing Date: July 5, 2017

DHHS: Establish Adjuvant Hub to Enable Adjuvanted Influenza Vaccines in Under-Resourced Nations Modification 1
Closing Date: August 18, 2014
DHHS: Establish Adjuvant Hub to Enable Adjuvanted Influenza Vaccines in Under-Resourced Nations  
Closing Date: August 18, 2014

DHHS: Comparative Health System Performance in Accelerating PCOR Dissemination (U19)  
Closing Date: October 17, 2014

DHHS: Agency for Health Care Research and Quality Advances in Patient Safety through Simulation Research (R18) Grant  
Closing Date: September 25, 2016

DHHS: Agency for Health Care Research and Quality Exploratory and Developmental Grant to Improve Health Care Quality through Health Information Technology (IT) (R21) Grant  
Closing Date: November 16, 2016

DHHS: Pre-application: Opportunities for Collaborative Research at the NIH Clinical Center (X02) Modification 3  
Closing Date: November 20, 2014

Environmental Protection Agency

EPA: Training and Technical Assistance to Improve Water Quality and Enable Small Public Water Systems to Provide Safe Drinking Water Modification 1  
Closing Date: September 2, 2014

Food & Drug Administration

FDA: Advancing Medical Device Postmarket Surveillance Infrastructure and Epidemiologic Methodologies through Multi-stakeholder Partnership  
Closing Date: April 30, 2017

Health Resources & Services Administration

HRSA: Health Resources & Services Administration Service Area Competition: Additional Area (SAC-AA) Baltimore, MD Grant  
Closing Date: August 13, 2014

HRSA: Consolidated Health Centers (Community Health Centers, Migrant Health Centers, Health Care for the Homeless, and Public  
Closing Date: August 13, 2014

HRSA: Affordable Care Act New Access Point Grants Grant  
Closing Date: August 20, 2014

HRSA: Consolidated Health Centers (Community Health Centers, Migrant Health Centers, Health Care for the Homeless, and Public  
Closing Date: August 27, 2014
National Institutes of Health

*New - NIH: Cancer Intervention and Surveillance Modeling Network (CISNET) (U01)
Closing Date: November 14, 2014

*New - NIH: Gene-Environment Interplay in Substance Use Disorders (R01) Modification 1
Closing Date: January 7, 2015

*New - NIH: Gene-Environment Interplay in Substance Use Disorders (R03) Modification 1
Closing Date: January 7, 2015

NIH: NIH Transformative Research Awards (R01) Grant
Closing Date: October 10, 2014

NIH: Hazardous Materials Worker Health and Safety Training (U45)
Closing Date: November 6, 2014

NIH: Hazmat Training at DOE Nuclear Weapons Complex (UH4) Grant
Closing Date: November 6, 2014

NIH: Interventions for Youth who Misuse/Abuse Prescription Stimulant Medications in High School and/or College-Attending Youth (U01) Grant
Closing Date: November 13, 2014

NIH: U.S.-China Program for Research Toward a Cure for HIV/AIDS (R01) Grant
Closing Date: November 21, 2014

NIH: Pilot Centers for Precision Disease Modeling (U54)
Closing Date: October 1, 2014

NIH: Blood Pressure Measurement Technologies for Low-Resource Settings in the US and India (U01)
Closing Date: January 7, 2015

NIH: Connectomes Related to Human Disease (U01)
Closing Date: July 14, 2016

NIH: International Research Collaboration on Alcohol and Alcoholism (U01) Grant
Closing Date: September 7, 2017

NIH: Enriching the Hematology Research Workforce through Short-term Educational Experiences in Emerging Science Research Education Program Grant (R25)
Closing Date: October 13, 2014
NIH: Interventions for Health Promotion and Disease Prevention in Native American Populations (R01) Grant  
Closing Date: August 24, 2014

NIH: Superfund Hazardous Substance Research and Training Program (P42) Grant  
Closing Date: September 3, 2014

NIH: Specialized Alcohol Research Centers (P50)  
Closing Date: December 3, 2014

NIH: Comprehensive Alcohol Research Centers (P60)  
Closing Date: December 3, 2014

NIH: Basic Research on HIV Persistence (R21)  
Closing Date: January 7, 2017

NIH: Basic Research on HIV Persistence (R01)  
Closing Date: January 7, 2017

NIH: Multidisciplinary Studies of HIV and Viral Hepatitis Co-Infection (R01)  
Closing Date: May 7, 2017

NIH: Multidisciplinary Studies of HIV and Viral Hepatitis Co-Infection (R21)  
Closing Date: May 7, 2017

NIH: Research on Chronic Overlapping Pain Conditions (R01)  
Closing Date: September 7, 2017

NIH: Research on Chronic Overlapping Pain Conditions (R21)  
Closing Date: September 7, 2014

NIH: U.S.-India Bilateral Collaborative Research Partnerships (CRP) on Diabetes Research (R21) Grant  
Closing Date: September 18, 2014

NIH: Translational Programs in Lung Diseases (PO1)  
Closing Date: May 19, 2017

NIH: Silvio O. Conte Digestive Diseases Research Core Centers (P30) Grant  
Closing Date: November 19, 2014

NIH: Nutrition Obesity Research Centers (NORCs) (P30) Grant  
Closing Date: June 18, 2015

NIH: Exploratory Studies of Smoking Cessation Interventions for People with Schizophrenia (R21/R33)  
Closing Date: April 17, 2017

NIH: Exploratory Studies of Smoking Cessation Interventions for People with Schizophrenia (R33)  
Closing Date: April 17, 2017

NIH: Long-Term Retention in Care for U.S. Substance Using Populations (R34)  
Closing Date: May 7, 2017
NIH: Long-Term Retention in Care for U.S. Substance Using Populations (R34)  
Closing Date: May 7, 2017

NIH: Long-Term Retention in Care for U.S. Substance Using Populations (R01)  
Closing Date: May 7, 2017

NIH: Diabetes Impact Award-Closed Loop Technologies: Clinical, Physiological and Behavioral Approaches to Improve Type 1 Diabetes Outcomes (DP3) Grant  
Closing Date: November 24, 2014

NIH: Diabetes Impact Award-Closed Loop Technologies: Development and Integration of Novel Components for an Automated Artificial Pancreas System (DP3) Grant  
Closing Date: November 24, 2014

NIH: NIH StrokeNet Clinical Trials and Biomarker Studies for Stroke Treatment, Recovery, and Prevention (U01)  
Closing Date: March 15, 2017

NIH: Administrative Supplements for Research on Dietary Supplements (Admin Supp) Grant  
Closing Date: April 15, 2015

NIH: Environmental Contributors to Autism Spectrum Disorders (R01) Grant  
Closing Date: August 26, 2016

NIH: Environmental Contributors to Autism Spectrum Disorders (R21) Grant  
Closing Date: August 26, 2016

NIH: Global Infectious Disease Research Training Program (D43)  
Closing Date: July 29, 2016

NIH: Planning Grant for Global Infectious Disease Research Training Program (D71)  
Closing Date: July 29, 2016

NIH: Epidemiology and Prevention in Alcohol Research (R21)  
Closing Date: September 7, 2017

NIH: Epidemiology and Prevention in Alcohol Research (R03)  
Closing Date: September 7, 2017

NIH: Epidemiology and Prevention in Alcohol Research (R01)  
Closing Date: September 7, 2017

NIH: Predoctoral Training in Biomedical Big Data Science (T32)  
Closing Date: July 27, 2015

NIH: Clinical Trial Planning Grant for Interventions and Services to Improve Treatment and Prevention of HIV/AIDS (R34) Grant  
Closing Date: January 7, 2017

NIH: mHealth Tools for Underserved Populations with Chronic Conditions to Promote Effective Patient-Provider Communication, Adherence to Treatment and Self-Management (R01) Grant  
Closing Date: May 7, 2017
NIH: mHealth Tools for Underserved Populations with Chronic Conditions to Promote Effective Patient-Provider Communication, Adherence to Treatment and Self-Management (R21) Grant
Closing Date: May 7, 2017

NIH: Healthy Habits: Timing for Developing Sustainable Healthy Behaviors in Children and Adolescents (R21) Grant
Closing Date: May 7, 2017

NIH: Healthy Habits: Timing for Developing Sustainable Healthy Behaviors in Children and Adolescents (R01) Grant
Closing Date: May 7, 2017

NIH: Exploratory Clinical Trials of Mind and Body Interventions for NCCAM High Priority Research Topics (R34)
Closing Date: September 7, 2017

NIH: Mental Health Research Dissertation Grant to Increase Diversity
Closing Date: December 22, 2014

NIH: Innovative Programs to Enhance Research Training (IPERT) (R25)
Closing Date: January 21, 2016

NIH: Avenir Award Program for Research on Substance Abuse and HIV/AIDS (DP2)
Closing Date: November 14, 2016

NIH: Prevention and Treatment of Substance Using Populations with or at Risk for HCV (R21) Modification 1
Closing Date: May 7, 2017

NIH: Prevention and Treatment of Substance Using Populations with or at Risk for HCV (R01) Modification 1
Closing Date: May 7, 2017

NIH: Avenir Award Program for Genetics or Epigenetics of Substance Abuse (DP2)
Closing Date: August 18, 2016

NIH: Clinical Studies of Mental Illness Not Involving Treatment Development, Efficacy, or Effectiveness Trials (Collaborative R01)
Closing Date: May 7, 2017

NIH: Effects of Cannabis Use and Cannabinoids on the Developing Brain (R03)
Closing Date: May 7, 2017

NIH: Effects of Cannabis Use and Cannabinoids on the Developing Brain (R21)
Closing Date: May 7, 2017

NIH: Effects of Cannabis Use and Cannabinoids on the Developing Brain (R01)
Closing Date: May 7, 2017

NIH: Core Infrastructure and Methodological Research for Cancer Epidemiology Cohorts (U01) Grant
Closing Date: March 10, 2017

NIH: Translational Research to Help Older Adults Maintain their Health and Independence in the Community (R21)
Closing Date: May 7, 2017
NIH: Chronic Inflammation and Age-related Disease (R01) Grant
Closing Date: September 7, 2014

NIH: Pre-application: Opportunities for Collaborative Research at the NIH Clinical Center (X02) Modification 1
Closing Date: November 20, 2014

NIH: Early Stage Development of Technologies in Biomedical Computing, Informatics, and Big Data Science (R01) Grant
Closing Date: May 7, 2017

NIH: Extended Development, Hardening and Dissemination of Technologies in Biomedical Computing, Informatics and Big Data Science (R01)
Closing Date: May 7, 2017

NIH: Ruth L. Kirschstein National Research Service Award (NRSA) Individual Predoctoral Fellowship to Promote Diversity in Health-Related Research (Parent F31 - Diversity) Modification 1
Closing Date: January 7, 2017

NIH: Ruth L. Kirschstein National Research Service Award (NRSA) Individual Postdoctoral Fellowship (Parent F32) Grant
Closing Date: January 7, 2017

NIH: Ruth L. Kirschstein National Research Service Award (NRSA) Individual Predoctoral MD/PhD or Other Dual-Doctoral Degree Fellowship (Parent F30) Grant
Closing Date: January 7, 2017

NIH: Ruth L. Kirschstein National Research Service Awards (NRSA) for Individual Senior Fellowship (Parent F33)
Closing Date: January 7, 2017

NIH: Community Partnerships to Advance Research (CPAR) (R21)
Closing Date: May 7, 2017

NIH: Community Partnerships to Advance Research (CPAR) (R15)
Closing Date: May 7, 2017

NIH: Community Partnerships to Advance Research (CPAR) (R15)
Closing Date: May 7, 2017

NIH: Establishing Behavioral and Social Measures for Causal Pathway Research in Dental, Oral and Craniofacial Health (R01) Grant
Closing Date: September 7, 2017

NIH: Establishing Behavioral and Social Measures for Causal Pathway Research in Dental, Oral and Craniofacial Health (R21) Grant
Closing Date: September 16, 2017

Limited Submission - NIH: Initiative for Maximizing Student Development (IMSD) (R25) Grant
Closing Date: January 25, 2016

NIH: Accelerating Improvements in the HIV Care Continuum (R21)
Closing Date: January 7, 2017
NIH: Accelerating Improvements in the HIV Care Continuum (R01)
Closing Date: January 7, 2017

NIH: Advancing Structural Level Interventions Through Enhanced Understanding of Social Determinants in HIV Prevention and Care (R01)
Closing Date: January 7, 2017

NIH: Advancing Structural Level Interventions Through Enhanced Understanding of Social Determinants in HIV Prevention and Care (R21)
Closing Date: January 7, 2017

NIH: Design and Development of Novel Technologies for Healthy Independent Living (R21) Grant
Closing Date: January 7, 2017

NIH: Improving Delivery of HIV Prevention and Treatment through Implementation Science and Translational Research (R01)
Closing Date: January 7, 2017

NIH: Strengthening Adherence to Antiretroviral-Based HIV Treatment and Prevention (R21)
Closing Date: January 7, 2017

NIH: Strengthening Adherence to Antiretroviral-Based HIV Treatment and Prevention (R01)
Closing Date: January 7, 2017

NIH: Technologies for Healthy Independent Living (R01) Grant
Closing Date: January 7, 2017

NIH: Targeted Basic Behavioral and Social Science and Intervention Development for HIV Prevention and Care (R01)
Closing Date: January 7, 2017

NIH: Targeted Basic Behavioral and Social Science and Intervention Development for HIV Prevention and Care (R21)
Closing Date: January 7, 2017

NIH: Prevention and Treatment of Substance Using Populations with or at Risk for HCV (R34)
Closing Date: May 7, 2017

NIH: Prevention and Treatment of Substance Using Populations with or at Risk for HCV (R21)
Closing Date: May 7, 2017

NIH: Prevention and Treatment of Substance Using Populations with or at Risk for HCV (R01)
Closing Date: May 7, 2017

NIH: Synthetic Psychoactive Drugs and Strategic Approaches to Counteract Their Deleterious Effects (R21)
Closing Date: May 7, 2017

NIH: Synthetic Psychoactive Drugs and Strategic Approaches to Counteract Their Deleterious Effects (R03)
Closing Date: May 7, 2017

NIH: Synthetic Psychoactive Drugs and Strategic Approaches to Counteract Their Deleterious Effects (R01)
Closing Date: May 7, 2017
NIH: NIDA Avant-Garde Award Program for HIV/AIDS and Drug Use Research (DP1) Grant
Closing Date: July 29, 2016

NIH: NIDCD Research on Hearing Health Care (R21) Grant
Closing Date: May 7, 2017

NIH: NIDCD Research on Hearing Health Care (R01) Grant
Closing Date: May 7, 2017

NIH: Administrative Supplements to Existing NIH Grants and Cooperative Agreements (Parent Admin Supp) Grant
Closing Date: January 30, 2017

NIH: Postbaccalaureate Research Education Program (PREP) (R25) Grant
Closing Date: January 25, 2016

NIH: Mentored Career Development Award in Biomedical Big Data Science for Clinicians and Doctorally Prepared Scientists (K01) Grant
Closing Date: April 1, 2015

NIH: Courses for Skills Development in Biomedical Big Data Science (R25)
Closing Date: April 1, 2016

NIH: Open Educational Resources for Biomedical Big Data (R25)
Closing Date: April 1, 2016

NIH: Centers for AIDS Research and Developmental Centers for AIDS Research (P30) Modification 1
Closing Date: July 28, 2016

NIH: Substance Use and Abuse, Risky Decision Making and HIV/AIDS (R01) Grant
Closing Date: May 7, 2017

NIH: Substance Use and Abuse, Risky Decision Making and HIV/AIDS (R21) Grant
Closing Date: May 7, 2017

NIH: Substance Use and Abuse, Risky Decision Making and HIV/AIDS (R03) Grant
Closing Date: May 7, 2017

NIH: Cancer Center Support Grants (CCSGs) for NCI-designated Cancer Centers (P30) Grant
Closing Date: January 7, 2017

NIH: Developmental Origins of Health and Disease (DOHaD): Epigenetic Modification in Gametogenesis and Transgenerational Inheritance (R01) Grant
Closing Date: January 30, 2015

NIH: Replication of Key Clinical Trials Initiative (U01) Grant
Closing Date: January 14, 2016

NIH: NINDS Research Education Programs for Residents and Fellows in Neurology, Neurosurgery, Neuropathology, Neuroradiology and Emergency Medicine (R25) Grant
Closing Date: January 25, 2016
NIH: Nutrition and Alcohol-Related Health Outcomes (R03) Modification 1
Closing Date: January 7, 2017

NIH: Nutrition and Alcohol-Related Health Outcomes (R21) Modification 1
Closing Date: January 7, 2017

NIH: Nutrition and Alcohol-Related Health Outcomes (R01) Modification 1
Closing date: May 7, 2017

NIH: Clinical Research in the Prevention, Diagnosis, and Treatment of HIV-Related Heart, Lung, and Blood (HLB) Diseases in Adults and Children (R01) Grant
Closing Date: January 8, 2015

NIH: Establishing Outcome Measures for Clinical Studies of Oral and Craniofacial Diseases and Conditions (R21) Grant
Closing Date: September 7, 2015

NIH: Establishing Outcome Measures for Clinical Studies of Oral and Craniofacial Diseases and Conditions (R01) Grant
Closing Date: September 7, 2015

NIH: Advancing the Science of Geriatric Palliative Care (R21) Modification 1
Closing Date: January 7, 2017

NIH: Advancing the Science of Geriatric Palliative Care (R01) Modification 1
Closing Date: January 7, 2017

NIH: Opportunities for Collaborative Research at the NIH Clinical Center (U01) Modification 2
Closing Date: March 20, 2015

NIH: Research on Malignancies in the Context of HIV/AIDS (R21)
Closing Date: September 7, 2016

NIH: Research on Malignancies in the Context of HIV/AIDS (R01) Grant
Closing Date: September 7, 2016

NIH: Modeling Social Behavior (R01)
Closing Date: January 7, 2017

NIH - Evaluating Natural Experiments in Healthcare to Improve Diabetes Prevention and Treatment (R18) Grant
Closing Date: November 1, 2016

NIH: Pragmatic Research in Healthcare Settings to Improve Diabetes Prevention and Care (R18) Grant
Closing Date: November 1, 2016

NIH - Research on the Health Determinants and Consequences of Violence and its Prevention, Particularly Firearm Violence (R03) Grant
Closing Date: January 7, 2017

NIH - Research on the Health Determinants and Consequences of Violence and its Prevention, Particularly Firearm Violence (R01) Grant
Closing Date: January 7, 2017
NIH - Planning Grants for Pragmatic Research in Healthcare Settings to Improve Diabetes Prevention and Care (R34) Grant
Closing Date: November 1, 2016

NIH - Research on the Health Determinants and Consequences of Violence and its Prevention, Particularly Firearm Violence (R21) Grant
Closing Date: January 7, 2017

NIH - Opportunities for Collaborative Research at the NIH Clinical Center (U01)
Closing Date: November 20, 2014

NIH - Nutrition and Alcohol-Related Health Outcomes (R21)
Closing Date: February 7, 2017

NIH: Sustained Release of Antivirals for Treatment and Prevention of HIV
Closing Date: January 7, 2016

NIH: Translational Research to Improve Diabetes and Obesity Outcomes (R01)
Closing Date: January 7, 2017

NIH: Bridges to the Doctorate (R25)
Closing Date: September 25, 2015

NIH: Mechanisms of Alcohol and Stimulant Co-Addiction (R01)
Closing Date: January 7, 2017

NIH: Neuroscience Research on Drug Abuse (R21)
Closing Date: January 7, 2017

NIH: National Cancer Institute Program Project Applications (P01)
Closing Date: January 7, 2015

NIH: Increased Knowledge and Innovative Strategies to Reduce HIV Incidence-iKnow Projects
Closing Date: January 7, 2016

NIH: Methods for Prevention Packages Program III (MP3 III) (R01)
Closing Date: January 7, 2016

National Science Foundation

Limited Submission - NSF Partnerships for International Research and Education (PIRE)
Funding to support science and engineering research and education through international collaboration. For more information and to apply, click the title above. **Deadline: September 15, 2014**

U.S. Agency for International Development

USAID: Tanzania USAID-Dar es Salaam – Comprehensive Community HIV Prevention Program for Key and Vulnerable Populations (CP2)
Closing Date: August 25, 2014

USAID: Research and Innovation for Health Supply Chain Systems and Commodity Security
Closing Date: May 29, 2019

Internal Funding Opportunities

Harvard - Climate Change Solutions Fund
For research initiatives intended to hasten the transition from carbon-based energy systems to those that rely on renewable energy sources, to develop methods for diminishing the impact of existing carbon-based energy systems on the climate, and to propel innovations needed to accelerate progress toward cleaner energy and a greener world. For more information and to apply, click on title above

**Deadline: October 1, 2014**
The Program on the Global Demography of Aging at Harvard University – Call for Pilots

The Program on the Global Demography of Aging at Harvard University funds pilot project grants in the area of the Economics and Demography of Aging. The aim is to provide assistance to Harvard researchers in undertaking preliminary research that may subsequently lead to a larger research project. The PGDA is a center for research on the Economics and Demography of Aging funded by the National Institute of Aging. More information on the PGDA is available at https://www.hsph.harvard.edu/pgda/.

Pilot projects are solicited in the areas of:

1. Measurement of the global patterns of disease, mortality, and morbidity in aging populations
2. Social determinants of population health and aging
3. Economics of health care provision for the elderly
4. Macroeconomic consequences of population aging
5. Migration and Aging
6. Aging and HIV/AIDS

Applications that involve collaboration with our international partners in the International Institute for Population Sciences (IIPS), Mumbai, India, the INDEPTH Network Secretariat, Accra, Ghana, the Africa Center for Health and Population Studies, KwaZulu-Natal, South Africa, MRC/Wits Rural Public Health and Heath Transitions Research Unit, Agincourt, South Africa, Ifakara Health Institute, Dar es Salaam, Tanzania, and the Navrongo Health Research Center, Navrongo, Ghana, or that complement the ongoing Longitudinal Study of Aging in India (LASI) and the Health and Aging in Africa Longitudinal Study in INDEPTH communities (HAALSI) are particularly welcomed.

The pilot should be designed so as to produce results that will support a future application for research funding to the NIH or other bodies. The pilot projects are designed to support new researchers in aging (without previous R01 grants or equivalent) and more experienced researchers who wish to investigate new areas of research.

Researchers who are considering applying are encouraged to discuss their proposed application with David Bloom or David Canning to ensure that the proposal falls into areas of interest of PGDA.

Eligibility

We welcome applications from all parts of Harvard University. Principal Investigators of pilot projects must be Harvard University faculty members or appointed on the research scientist track. Graduate students, visitors, and postdoctoral fellows, may not apply directly for a pilot project but a faculty member or researcher may include salary support for a graduate student or postdoctoral fellow in their application.

Grants

Pilot project grants will usually be for up to $50,000. Smaller grants, and larger grants of up to $75,000, will be considered but the applicant should recognize that larger funding requests will need to be particularly compelling. Applicants requiring a higher level of funding should consider applying directly to the NIH for a R03 small grant. Applications should be for research periods of one year with a start date on or before January 1, 2015.

There is no limit on the number of applications submitted. Grants may be used to support: faculty salaries (for example, summer salary support); travel, research assistance, acquisition of research materials (including electronic databases); to facilitate communication with colleagues and institutions in other countries; and for other appropriate research purposes as allowed by the NIH (N.B. stipend and tuition not allowed). Grants may be used to acquire computer software and databases, but not for hardware purchases.
PGDA collaborates with the Research and Computing Core at the Harvard Center for Population and Development Studies. Principal investigators wishing to have specific computing, data archiving or research assistance as a part of their pilot should contact Jocelyn Finlay, Director of Research and Computing Core at jfinlay@hsph.harvard.edu.

Award Conditions

Researchers awarded pilots will either be or become affiliates of the PGDA. These awards will be made from federal funds and must be administered in accordance with HSPH-NIH grant policies. Funded projects will require approval for research on human subjects from Harvard School of Public Health Institutional Review Board. Additionally, these projects will need to be reviewed by all other involved institutions including your local sponsored research office before funds can be disbursed. To help alleviate the burden of multiple IRB reviews, these studies may be eligible for an IRB Authorization Agreement with HSPH. (For more information, please visit the Human Subject Committee website.)

Studies that involve use of data from foreign human subjects/or collaboration with foreign individuals or institutions will also require US State Department Foreign Clearance. PGDA will assist in obtaining IRB and foreign clearance.

Reporting Requirements

Successful principle investigators are required to submit annual progress reports on the project to PGDA. Upon completion of the project, the principle investigator is required to submit a report of the work carried out under the grant. Awardees will also be encouraged to present the results of their work in a seminar and are welcome to submit a paper to PGDA’s working paper series. The principle investigator is required to report to PGDA any subsequent grant applications and publications that derive from the pilot project. Publications are subject to the NIH Policy on Enhancing Public Access to Archived Publications Resulting from NIH-Funded Research which ensures the use of NIH funding is acknowledged and the publication is open access.

Applications

We ask that applicants submit the following documents:

- PGDA Cover Sheet (See Downloadable Forms and Instructions)
- Proposal narrative: Proposals should not exceed 3 pages in length (not including references) and should include a description of the research, as well as an explanation of how the pilot would aid progress to a larger research project.
- A CV or NIH biosketch for key personnel
- Budget justification
- Budget (on PHS 398 Form Page 4, use page 5 as well if project period is less than 12 months)

We strongly encourage applicants to consult their local financial administrator or grant manager prior to submission. Local unit budget approval is not required at the proposal stage, but must be in place before the award will be made. Prospective applicants should discuss budget issues with the PGDA Program Coordinator, Donna DiBartolomeo, ddibart@hsph.harvard.edu.

Submission and Review

Complete submissions should be received electronically by 5pm on September 3, 2014

Submissions should be sent by email to:
Please note that the detailed budget should be in a separate file from the rest of the submission.

PGDA decisions will be communicated to applicants in November 2014.

Downloadable Forms and Instructions:

- PGDA 2014 Pilot Project Cover Sheet
- PHS 398 Form 4
- PHS 398 Form 5
- PGDA Pilot Project Budget Instructions

Other Funding Opportunities

Burroughs Wellcome Fund - Career Awards at the Scientific Interface

Advancing the careers of physical, chemical, or computational science researchers and engineers whose work addresses biological questions.

The Burroughs Wellcome Fund’s Career Awards at the Scientific Interface provide $500,000 to bridge advanced postdoctoral training and the first years of faculty service. Awards are intended to foster the early career development of researchers with backgrounds in the physical/mathematical/computational sciences and engineers whose work addresses biological questions.

Preproposal Deadline: September 1, 2014

Burroughs Wellcome Fund – Career Awards for Medical Scientists

Awards foster the development and productivity of physician-scientists who are early in their careers and help them make the critical transition to becoming independent investigators.

Application Deadline: October 1, 2014

Burroughs Wellcome Fund - Investigators in the Pathogenesis of Infectious Disease

Awards for assistant professors to study infectious disease pathogenesis, with a focus on the intersection of human and pathogen biology. This program is intended to shed light on how infectious disease systems work by encouraging assistant professors to take on fundamental biological questions at the intersection of human and microbial biology.

Application Deadline: November 3, 2014
Note: Application link will go live on August 7, 2014

**Limited Submission - The Greenwall Foundation Faculty Scholars Program** Funding for junior faculty in the field of Bioethics

For more information and to apply, click on title above.
**Deadline: September 29, 2014**

**Limited Submission - Massachusetts Life Sciences Center Capital Project Grants** for capital projects that support the life sciences in Massachusetts

For more information and to apply, click on title above.

PLEASE NOTE: At this writing we are still awaiting a decision from the MLSC office on how Harvard will be viewed for this opportunity, as one institution or more.
**Deadline: August 29, 2014**

**Limited Submission - Simons Investigator Awards**

Funding for individual investigators in Mathematics, Physics, Computer Science, and Mathematical Modeling of Living Systems
**Deadline: September 9, 2014**

Information available on request from Liz Langdon-Gray<mailto:elizabeth_langdon-gray@harvard.edu>

**Arnold and Mable Beckman Foundation Young Investigators Program**
**Deadline: September 3, 2014**

**U.S. Department of State - Franklin Fellows Program**

Researchers may apply on their own, or be nominated by their institution. There is no limit to how many people an institution may nominate, and applications are accepted year round.

This opportunity is for mid/upper level expert professionals who are US citizens and are able to obtain a security clearance as part of the application to the program. Clearance is not needed prior to applying.
Alliance for the Prudent Use of Antibiotics (APUA) – 2014 Leadership Awards Call for Nominations

The Alliance for the Prudent Use of Antibiotics (APUA) would like to take this opportunity to acknowledge the valuable contributions of leaders who have had a major impact on containing antimicrobial resistance. We invite you, as an esteemed colleague, to participate in this process by nominating a candidate for the 2014 APUA Leadership Award.

This award honors an individual or organization for extraordinary leadership in promoting the prudent use of antibiotics as a means to contain antibiotic resistance. We seek nominees active in the fields of science, medicine, and policy from around the world.

In addition, the APUA Chapter Leadership Award will be presented to a chapter that has exhibited tireless effort and leadership to promote the prudent use of antibiotics in its country and contain antibiotic resistance. Consideration will be given to advances made in basic science, national public health policy, and clinical practice.

Please submit your nomination(s) using this form before August 15, 2014 via email to APUA@tufts.edu

The Chronic Effects of Neurotrauma Consortium (CENC) – Request for Applications

The Chronic Effects of Neurotrauma Consortium (CENC) is seeking applications for collaborations and research studies focused on the impact and sequelae of mTBI/CTE on active duty service members and veterans. Studies will address questions and areas complementary to the Consortium’s mission and alignment to specified programmatic needs and funding alignments. Information on the CENC can be found at https://cenc.rti.org. Information on the CENC integrated grant program and the Fall 2014 Request for Applications (RFA) can be found at https://cenc.rti.org/Research-Studies/CENC-Grant-Program.

Pre-Application Deadline: 8:00PM Eastern Time (ET), August 15, 2014

Questions regarding this opportunity should be directed to the CENC Peer Review Program Chair, Dr. Steven West (sliwest2@vcu.edu).

PCORI Offers New Funding Support for Meetings and Events

Do you have ideas for a symposium, workshop, or other event focused on developing and sharing information about patient-centered comparative clinical effectiveness research (CER)? Our Eugene Washington PCORI Engagement Awards program today announced a new funding opportunity to support such initiatives. Eligible organizations may begin applying immediately for these awards, ranging from $50,000 to $250,000. This is the
latest addition to our Engagement Awards program, which supports a range of projects that encourage involvement by patients, clinicians, and other healthcare stakeholders in the work we do

Art because Breast Cancer Foundation – Seed the Scientist Award 2014

The Art beCAUSE Breast Cancer Foundation is happy to announce its’ 9th “Seed the Scientist” grant to benefit a young scientist participating in breast cancer research. This two-year award of $60,000 will be given to a scientist that is accomplished in research relating to breast cancer and the environment and shows significant potential to develop into an outstanding scientist in this area. The Art beCAUSE Breast Cancer Foundation is committed to funding research that is dedicated to finding the environmental causes of breast cancer, and is determined to find highly talented breast cancer researchers to help reach this goal.

I. Program objective:

The incidence of breast cancer has increased significantly since the early 1940’s such that 1 in 8 women now can expect to be diagnosed with breast cancer in their lifetime. Approximately 40,000 women in the U.S. will die this year of breast cancer. The inability to account for this increase in breast cancer incidence with known risk factors such as diet and exercise, and the cumulative findings of hundreds of epidemiological studies, suggest that exposure to environmental pollutants contributes to breast cancer. The primary mission of the Art beCAUSE Breast Cancer Foundation is to fund research dedicated to identifying these putative environmental causes of breast cancer. A secondary goal is to provide support to highly talented breast cancer researchers in the early stages of their careers in order to motivate their development into outstanding breast cancer scientists.

II. Award description

The Art beCAUSE Breast Cancer Foundation has developed a “Seed a Scientist” program to supply seed money to support research by those investigating environmental etiologies of breast cancer. A two year award of up to $60,000 (including up to 10% indirect costs) will be made at $30,000 per year. Applicants should be accomplished in research relating to breast cancer and the environment and show significant potential to develop into an outstanding scientist in this area. As detailed below in “Format”, the grant should summarize previous work, goals for future research, and how this seed grant could lead to subsequent funding to further research efforts. The total length of the format sections IV E through IV I, including figures, may not exceed 5 pages, excluding references. Awardees will agree to attend the Foundation’s annual fund-raising event in Boston, Massachusetts on October 16, 2014 to accept the award and to speak briefly about how the award will help them in their research, and to attend conferences, events, etc. sponsored by the Foundation and which reasonably fit into their schedule. Every six months, Awardees are expected to provide a progress report on the research funded by the Seed the Scientist grant.

Applications are reviewed by a panel of scientists, physicians, and breast cancer research advocates with significant expertise in laboratory- and community-based studies.

Applications are due August 15, 2014. Awards are announced September 19, 2014
For additional information contact:
Ellie Anbinder, ellie@artbecause.org
Completed applications should be sent electronically to info@artbecause.org and a copy mailed to:
III. Eligibility

The applicant should have an M.D., Ph.D., and/or MPH degree or must anticipate completing the requirements for one of these degrees within 2 years of receiving an award from Art BeCAUSE. All awardees must be within 10 years of their terminal degree. For junior scientists and pre-doctoral fellows, mentorship from senior investigators is encouraged and, when appropriate, should be indicated by a letter of support from the sponsor/mentor. Candidates for this award must exhibit a commitment to breast cancer research.

Georgetown University School of Foreign Service in Qatar
RFP: The Gulf Family

The Center for International and Regional Studies sponsors major studies of regional and international significance, including research initiatives in the areas of international relations, political economy, and domestic politics of the Gulf. CIRS regularly identifies emerging socio-economic and political trends in the region, and develops research initiatives in areas which require further focused scholarship.

http://cirs.georgetown.edu/research/the-gulf-family-main-page
http://cirs.georgetown.edu/research/the-gulf-family-rfp

The submission deadline to Georgetown/ CIRS is September 15, 2014.
Grants are for one year only
$25,000 is the max amount
Field work required

American Psychological Foundation - Lizette Peterson-Homer Injury Prevention Grant Award

The Lizette Peterson Homer Memorial Injury Research Grant supports research into psychological and behavioral aspects of the prevention of injuries in children and adolescents as reflected in the activities and interests within pediatric psychology of the late Lizette Peterson-Homer and her commitment to improving the status of children in the face of the most significant threats to their health and development. This grant is open to students and faculty to support research related to the prevention of injuries in children and adolescents. Funding is available up to $5,000 and is sponsored jointly by the American Psychological Foundation and APA Div. 54.

Closing Date: October 1, 2014
For more info visit: http://www.apa.org/apf/funding/peterson-homer.aspx
PCORI – Eugene Washington PCORI Engagement Awards Program

The Engagement Awards were created to forge opportunities for patients and other stakeholder communities to become more involved in patient-centered research. Each award provides support for up to $250,000 with a project period of no more than two years. In 2014, PCORI will award up to $15 million to support projects in three categories:

- Knowledge Awards
- Training and Development Awards
- Dissemination Awards

Together, the awards will help establish a diverse community of passionate individuals with opportunities to participate in patient-centered research. More information about the Eugene Washington PCORI Engagement Awards.

Letters of Inquiry (LOI) are received on a rolling basis.

PCORI Funding Opportunities

PCORI has three broad funding cycles a year. Starting with May 2013, cycles are designated by the month and year that applications are due. More targeted and special funding opportunities may be available outside of these cycles.

There are some differences in the latest round of PFAs, issued Feb. 5, including the fact that for many of them, Letters of Intent (LOIs) are competitive. This means they'll be reviewed for their responsiveness and fit with program goals and authors will be notified if they're invited to submit a full application. Be sure to check the details of the PFA to which you're applying.

Robert Wood Johnson Foundation: Active Calls for Proposals

Future of Nursing Scholars
Deadline - Wed, 1 Oct 2014
3:00 p.m. ET

The goal of this program is to develop the next generation of PhD-prepared nurse leaders committed to long-term careers that advance science and discovery, strengthen nursing education, and bring transformational change to nursing and health care.

2015 RWJF Culture of Health Prize
Deadline: Wed, 17 Sep 2014
The RWJF Culture of Health Prize honors and elevates U.S. communities that are making great strides in their journey toward better health.

**Fulbright Canada Short Notice Health Sciences Funding Opportunity (US$35,000)**

Fulbright Canada has a targeted opportunity for scholars in Health who specialise in improving the continuum of care for families that are impacted by addiction, mental health problems, and trauma. Fulbright Canada and the Norlien Foundation have partnered to create and support a program of Distinguished Visiting Research Chairs in Brain Science, and Child and Family Health and Wellness. At one of Alberta’s three research intensive universities, the scholar(s) would conduct translational research that would improve Alberta’s current approaches to preventing and treating addiction and mental health issues.

Given that this is a new opportunity, that three chairs will be appointed annually, and that the recruitment period for these opportunities was limited, we would strongly encourage all interested applicants to begin the online application immediately. **This short notice funding opportunity, valued at US$35,000 for a four month residential exchange, closes on August 1st, 2014.** Interested candidates should email Brad Hector, Program Officer for Scholars. Additional Information regarding our awards is below.

To increase the chance of receiving a Fulbright Award, applicants are encouraged to identify their primary and alternate choices on the application. We offer three **Fulbright Canada Visiting Research Chairs in Health (award**
Limited Submission Fellowship Opportunity

American Psychological Foundation - Elizabeth Munsterberg Koppitz Child Psychology Graduate

The 2015 Elizabeth Munsterberg Koppitz Child Psychology Graduate Student Fellowship

Harvard, as one institution, may nominate one candidate for this award. The Office of the Vice Provost for Research will facilitate an internal process to identify an eligible candidate.

Sponsor: American Psychological Foundation
Program: Elizabeth Munsterberg Koppitz Child Psychology Graduate Student Fellowship
Internal Due Date: Monday, September 29, 2014

Internal Competition Instructions:
- Description of proposed project to include goal, relevant background, target population, methods and anticipated outcomes.
  Format: not to exceed 5 pages, 1 inch margins, 12 point font
- Relevant background, literature review, specific aims, significance: approximately 2 pages.
- Methods section: approximately 3 pages (The method section must be detailed enough so that the design, assessments, and procedures can be evaluated.)
- Implications section: approximately 1 page
- Current CV
- Two letters of recommendation (one from a graduate advisor and the other from the department chair or director of graduate studies)
  - Letters should be addressed to Richard McCullough, Vice Provost for Research
  - Letters of recommendation are welcome to be emailed separately to Autumn_Bennett@harvard.edu

- All of the above should be sent to Autumn_Bennett@harvard.edu by the deadline of Monday, September 29, 2014

Sponsor Due Date: Saturday, November 15, 2014

Foundation Eligibility Requirements:
- Completed doctoral candidacy (documentation required)
- IRB approval needed from host institution before funding can be awarded if human participants are involved

Overview of Opportunity:
- Scholarly Focus of Fellowship: Child Psychology, including child clinical, pediatric, school, educational, and developmental psychopathology
- Support for one year only, up to $25,000.
