***New - The Holberg Prize for outstanding scholarly work in arts and humanities, social science, law, and theology**

Closing Date: June 15, 2015

The Holberg Prize was established by the Norwegian Parliament in 2003 and is awarded annually. The Prize is awarded to scholars who have made outstanding contributions to research in the arts and humanities, social science, law or theology. The prize may be awarded both for work within a particular academic discipline and for work of a cross disciplinary nature. The prize winner must have had a decisive influence on international research. The Prize for 2016 amounts to approximately \$646,000 USD. The prize winner will be announced in March 2016, and the award ceremony will take place in Bergen, Norway in June 2016.

Scholars holding positions at universities and other research institutions, including academies, are entitled to nominate candidates to the Prize. The letter of nomination should be written in English and state the reason for the nomination in 2 to 3 pages. The nomination should also include the candidate's CV and suggest referees who know the scholar's work.

***New - Vilcek Prizes For Creative Promise in Biomedical Science**

Closing Date: June 15, 2015

The Vilcek Foundation will award three prizes of \$50,000 each to young foreign-born biomedical scientists who demonstrate outstanding early achievement. Eligible work may be in basic, applied, and/or translational biomedical science.

***New - The Dana-Farber/Harvard Cancer Center Specialized Program in Research Excellence (SPORE)**

Closing Date: May 29, 2015

The Dana-Farber/Harvard Cancer Center SPORE in Prostate Cancer seeks applications for a Career Development Award and Developmental Project Award in Prostate Cancer Translational Research.

Career Development Award

Eligible candidates are either in their final year of clinical or postdoctoral fellowship (MD, PhD or MD/PhD required), or hold an academic appointment not higher than Assistant Professor at Harvard Medical School or the Harvard School of Public Health. A track record of interest and productivity in prostate cancer research is required. The research plan and career goals of the individual may include the disciplines of basic biology, treatment science, population studies, or outcomes research, but must have a plan for translation into humans, since the purpose of this program is to promote translational research in prostate cancer. Applications will be judged on their scientific merit and/or the potential for contribution to the overall status of the DF/HCC Prostate Cancer Program/Prostate Cancer SPORE. The awardee will receive up to \$50,000 in direct costs for one year for the budget period 7/1/2015-6/30/2016 (although it is possible, depending on the potential for translation and contribution to the SPORE, that the award may be renewed for a 2nd year at the discretion of the SPORE Director), which can be used for salary and/or support of research at Harvard Medical School, the Harvard School of Public Health or any of the Harvard-affiliated hospitals. Funding provided needs to be spent within the budgeted time period. The individual would become a member of the DF/HCC Prostate Cancer Program and the DF/HCC Prostate Cancer SPORE and would be expected to attend SPORE activities (meetings, retreats, research presentations). Women and minority candidates are encouraged to apply.

Please e-mail a single PDF containing the following application materials to jenny_lutz@dfci.harvard.edu by May 29, 2015:

- **A brief summary of the research plan** (not to exceed 5 pages excluding references) including an Abstract, Specific Aims, Background and Relevance, Preliminary Data, Experimental Methods/Research Plan, Translational Goals, and anticipated time line.
- **Budget (NIH 398 Form Page 4)** up to \$50,000 direct costs per year (plus indirect costs using your institution's federally negotiated rate) for budget period 7/1/15-6/30/16.
- **Applicant's Biosketch (New NIH Format – 5 page limit)**
- **Reference letter from applicant's primary mentor.** The letter should outline the research and career plan for the candidate.
- **Letter of institutional support** from the applicant's department chair or division chief providing evidence of institutional support and a guarantee of protected time, research space, and office space.

Developmental Project Award

Applicants must be on the faculty at Harvard Medical School or the Harvard School of Public Health at the level of Instructor or higher. Research may span the disciplines of basic biology, treatment science, population studies, or outcomes research. However, all basic research supported by the SPORE must have a plan for translation into application or studies in humans, since the purpose of this program is to promote translational research in prostate cancer. Applications will be judged on their scientific merit and/or the potential for contribution to the overall status of the DF/HCC Prostate Cancer Program/Prostate Cancer SPORE. The awardee will receive up to \$50,000 in direct costs for one year for the budget period 7/1/2015-6/30/2016 (although it is possible, depending on the potential for translation and contribution to the SPORE, that the award may be renewed for a 2nd year at the discretion of the SPORE Director), which can be used for salary and/or support of research at Harvard Medical School, the Harvard School of Public Health or any of the Harvard-affiliated hospitals.
