### NIH-PEPFAR Collaboration on Implementation Science for HIV: Towards an AIDS-free Generation (R21)
- **Title:** NIH-PEPFAR Collaboration on Implementation Science for HIV: Towards an AIDS-free Generation (R21)
- **Announcement Number:** RFA-AI-15-021
- **Issuing Organization:** NIAID
- **Release Date:** 04-24-2015
- **Opening Date (SF424 Only):** 06-28-2015
- **Expiration Date:** 07-29-2015
- **Activity Code:** R21

### Technologies for Improving Population Health and Eliminating Health Disparities (R41/R42)
- **Title:** Technologies for Improving Population Health and Eliminating Health Disparities (R41/R42)
- **Announcement Number:** RFA-MD-15-008
- **Issuing Organization:** NIMHD
- **Release Date:** 04-24-2015
- **Opening Date (SF424 Only):** 06-23-2015
- **Expiration Date:** 07-24-2015
- **Activity Code:** R41/R42

### Characterization of Pro- and Anti-Geronic Proteins and Peptides (R01)
- **Title:** Characterization of Pro- and Anti-Geronic Proteins and Peptides (R01)
- **Announcement Number:** RFA-AG-16-005
- **Issuing Organization:** NIA
- **Release Date:** 04-23-2015
- **Opening Date (SF424 Only):** 06-09-2015
- **Expiration Date:** 07-10-2015
- **Activity Code:** R01

### Tobacco Regulatory Science Small Grant Program for New Investigators (R03)
- **Title:** Tobacco Regulatory Science Small Grant Program for New Investigators (R03)
- **Announcement Number:** RFA-OD-15-004
- **Issuing Organization:** ODP
- **Release Date:** 04-23-2015
- **Opening Date (SF424 Only):** 07-20-2015
- **Expiration Date:** 02-24-2017
- **Activity Code:** R03

*Limited Submission: NIDDK Career Development Programs in Diabetes Research for Pediatric Endocrinologists (K12)
- **Title:** Characterization of Pro- and Anti-Geronic Proteins and Peptides (R01)
- **Announcement Number:** RFA-DK-15-006
- **Issuing Organization:** NIDDK
- **Release Date:** 04-21-2015
- **Opening Date (SF424 Only):** 11-02-2015
- **Expiration Date:** 12-03-2015
- **Activity Code:** K12

*Limited Submission – if you are interested in applying for this opportunity, please inform ORSD at orsd@hsph.harvard.edu

*New - The Holberg Prize for outstanding scholarly work in arts and humanities, social science, law, and theology
Closing Date: June 15, 2015
The Holberg Prize was established by the Norwegian Parliament in 2003 and is awarded annually. The Prize is awarded to scholars who have made outstanding contributions to research in the arts and humanities, social science, law or theology. The prize may be awarded both for work within a particular academic discipline and for work of a cross disciplinary nature. The prize winner must have had a decisive influence on international research. The Prize for 2016 amounts to approximately $646,000 USD. The prize winner will be announced in March 2016, and the award ceremony will take place in Bergen, Norway in June 2016.

Scholars holding positions at universities and other research institutions, including academies, are entitled to nominate candidates to the Prize. The letter of nomination should be written in English and state the reason for the nomination in 2 to 3 pages. The nomination should also include the candidate’s CV and suggest referees who know the scholar’s work.

*New - Vilcek Prizes For Creative Promise in Biomedical Science
Closing Date: June 15, 2015
The Vilcek Foundation will award three prizes of $50,000 each to young foreign-born biomedical scientists who demonstrate outstanding early achievement. Eligible work may be in basic, applied, and/or translational biomedical science.

*New - The Dana-Farber/Harvard Cancer Center Specialized Program in Research Excellence (SPORE)
Closing Date: May 29, 2015
The Dana-Farber/Harvard Cancer Center SPORE in Prostate Cancer seeks applications for a Career Development Award and Developmental Project Award in Prostate Cancer Translational Research.

**Career Development Award**
Eligible candidates are either in their final year of clinical or postdoctoral fellowship (MD, PhD or MD/PhD required), or hold an academic appointment not higher than Assistant Professor at Harvard Medical School or the Harvard School of Public Health. A track record of interest and productivity in prostate cancer research is required. The research plan and career goals of the individual may include the disciplines of basic biology, treatment science, population studies, or outcomes research, but must have a plan for translation into humans, since the purpose of this program is to promote translational research in prostate cancer. Applications will be judged on their scientific merit and/or the potential for contribution to the overall status of the DF/HCC Prostate Cancer Program/Prostate Cancer SPORE. The awardee will receive up to $50,000 in direct costs for one year for the budget period 7/1/2015-6/30/2016 (although it is possible, depending on the potential for translation and contribution to the SPORE, that the award may be renewed for a 2nd year at the discretion of the SPORE Director), which can be used for salary and/or support of research at Harvard Medical School, the Harvard School of Public Health or any of the Harvard-affiliated hospitals. Funding provided needs to be spent within the budgeted time period. The individual would become a member of the DF/HCC Prostate Cancer Program and the DF/HCC Prostate Cancer SPORE and would be expected to attend SPORE activities (meetings, retreats, research presentations). Women and minority candidates are encouraged to apply.

Please e-mail a single PDF containing the following application materials to jenny_lutz@dfci.harvard.edu by May 29, 2015:
A brief summary of the research plan (not to exceed 5 pages excluding references) including an Abstract, Specific Aims, Background and Relevance, Preliminary Data, Experimental Methods/Research Plan, Translational Goals, and anticipated time line.

Budget (NIH 398 Form Page 4) up to $50,000 direct costs per year (plus indirect costs using your institution’s federally negotiated rate) for budget period 7/1/15-6/30/16.

Applicant’s Biosketch (New NIH Format – 5 page limit)

Reference letter from applicant’s primary mentor. The letter should outline the research and career plan for the candidate.

Letter of institutional support from the applicant’s department chair or division chief providing evidence of institutional support and a guarantee of protected time, research space, and office space.

Developmental Project Award

Applicants must be on the faculty at Harvard Medical School or the Harvard School of Public Health at the level of Instructor or higher. Research may span the disciplines of basic biology, treatment science, population studies, or outcomes research. However, all basic research supported by the SPORE must have a plan for translation into application or studies in humans, since the purpose of this program is to promote translational research in prostate cancer. Applications will be judged on their scientific merit and/or the potential for contribution to the overall status of the DF/HCC Prostate Cancer Program/Prostate Cancer SPORE. The awardee will receive up to $50,000 in direct costs for one year for the budget period 7/1/2015-6/30/2016 (although it is possible, depending on the potential for translation and contribution to the SPORE, that the award may be renewed for a 2nd year at the discretion of the SPORE Director), which can be used for salary and/or support of research at Harvard Medical School, the Harvard School of Public Health or any of the Harvard-affiliated hospitals. Funding provided needs to be spent within the budgeted time period. The individual would become a member of the DF/HCC Prostate Cancer Program and the DF/HCC Prostate Cancer SPORE and would be expected to attend SPORE activities (meetings, retreats, research presentations). Women and minority candidates are encouraged to apply.

*New - South African Medical Research Council - Newton Fund UK/South Africa Joint Research Programme*

Deadline for LOI: June 28, 2015

If of interest to Harvard T.H Chan SPH partners in South Africa, GSK has signed a collaborative agreement with the UK and South African MRCs, and today launched a call for proposals in South Africa focused on NCDs (cancer, cardiovascular disease, diabetes, chronic kidney disease and chronic respiratory disease.). They seek proposals that integrate basic laboratory-based research, clinical research, and population-based research, with the long-term aim of improving scientific understanding of the unique attributes of NCDs in African population. Funding is as follows: £2.5m will be provided by the UK MRC, via the UK Newton Fund (focused on development), and approximately £1.5m will come from the South African Medical Research Council. GSK will provide an additional £1m, together with a commitment of internal R&D expertise, to support projects within South Africa.

**Limited Submission - 2014 Advancing Digitization of Biodiversity Collections (ADBC)/ NSF 13-569**

Deadline: September 15, 2015

Only proposals for Thematic Collections Networks (TCN) limit the number of applications from an institution. Harvard may put forward one TCN proposal. For more information, click here.
PCORI Offers New Funding Support for Meetings and Events

Do you have ideas for a symposium, workshop, or other event focused on developing and sharing information about patient-centered comparative clinical effectiveness research (CER)? Our Eugene Washington PCORI Engagement Awards program today announced a new funding opportunity to support such initiatives. Eligible organizations may begin applying immediately for these awards, ranging from $50,000 to $250,000. This is the latest addition to our Engagement Awards program, which supports a range of projects that encourage involvement by patients, clinicians, and other healthcare stakeholders in the work we do.

PCORI – Eugene Washington PCORI Engagement Awards Program

The Engagement Awards were created to forge opportunities for patients and other stakeholder communities to become more involved in patient-centered research. Each award provides support for up to $250,000 with a project period of no more than two years. In 2014, PCORI will award up to $15 million to support projects in three categories:

- Knowledge Awards
- Training and Development Awards
- Dissemination Awards

Together, the awards will help establish a diverse community of passionate individuals with opportunities to participate in patient-centered research. More information about the Eugene Washington PCORI Engagement Awards.

Letters of Inquiry (LOI) are received on a rolling basis.

Robert Wood Johnson Foundation: Active Calls for Proposals

*New - RWJF New Connections Grants Awarded through the Healthy Eating Research Program
Closing Date: July 1, 2015 (3:00 PM EST)
Healthy Eating Research: Building Evidence to Prevent Childhood Obesity is a national program that supports research on environmental and policy strategies with strong potential to promote healthy eating among children to prevent childhood obesity, especially among groups at highest risk for obesity: Black, Latino, American Indian, Asian/Pacific Islander children, and children who live in lower-income communities (urban, suburban, and/or rural). Findings are expected to advance RWJF’s efforts to reverse the childhood obesity epidemic, eliminate disparities, and help all children achieve a healthy weight.

The sponsor anticipates funding two types of awards aimed at providing advocates, decision-makers, and policymakers with evidence to reverse the childhood obesity epidemic. The award types are: Round 9 grants and RWJF New Connections grants awarded through the Healthy Eating Research program.

*New - RWJF Healthy Eating Research: Building Evidence to Prevent Childhood Obesity—Round 9
Closing Date: August 12, 2015
Healthy Eating Research: Building Evidence to Prevent Childhood Obesity is a national program that supports research on environmental and policy strategies with strong potential to promote healthy eating among children to prevent childhood obesity, especially among groups at highest risk for obesity: Black, Latino, American Indian, Asian/Pacific Islander children, and children who live in lower-income communities (urban, suburban, and/or rural). Findings are expected to advance RWJF’s efforts to reverse the childhood obesity epidemic, eliminate disparities, and help all children achieve a healthy weight.
