Previously Announced – NIH Limited Submission Opportunities

****Denotes a Limited Submission Opportunity (LSO)** – If you are interested in applying for any of the LSOs listed below, please inform ORSD at orsd@hsph.harvard.edu. Visit the ORSD [website](#) for more information about Limited Submission opportunities.

****Limited Submission – NIH: NIOSH Occupational Safety and Health Training Project Grants (T03)**

Closing Date: November 4, 2019

CLOSED: The Harvard Chan School has an existing NIOSH training grant.

****Limited Submission – NIH: NIOSH Occupational Safety and Health Education and Research Centers (T42)**

Closing Date: November 21, 2019

CLOSED: The Harvard Chan School has an existing NIOSH training grant.

****Limited Submission – NIH: Cohort Studies of HIV/AIDS and Substance Abuse (U01)**

Closing Date: September 30, 2017

****Limited Submission – NIH: Pediatric Early Phase Clinical Trials Network (UM1)**

Closing Date: August 17, 2017

****Limited Submission – NIH: NINDS Neuroscience Development for Advancing the Careers of a Diverse Research Workforce (R25)**

Closing Date: September 26, 2019

****Limited Submission – NIH: Institutional Development Award (IDeA) Program Infrastructure for Clinical and Translational Research (IDeA-CTR)(U54)**

Closing Date: October 3, 2019

****Limited Submission – NIH: Claude D. Pepper Older Americans Independence Centers (P30)**

Closing Date: October 21, 2017

****Limited Submission – NIH: StrokeNet Regional Coordinating Stroke Centers (U24)**

Closing Date: September 26, 2017

****Limited Submission – NIH: Director's Early Independence Awards (DP5)**

Closing Date: September 23, 2017

****Limited Submission – NIH: NIAMS Rheumatic Diseases Research Resource-based Centers (P30)**

Closing Date: October 4, 2017

****Limited Submission – NIH: National Swine Resource and Research Center (U42)**

Sponsor Deadline: January 26, 2018

****Limited Submission – NIH: Cystic Fibrosis Research and Translation Center (P30)**

Closing Date: July 21, 2017

****Limited Submission – NIH: Data Coordinating Center for the NICHD Neonatal Research Network (U24)**

Closing Date: July 1, 2017

****Limited Submission – NIH: Data Coordinating Center for Type 1 Diabetes TrialNet (UC4)**

Closing Date: July 16, 2017

****Limited Submission – NIH: George M. O'Brien Kidney Research Core Centers (P30)**

Closing Date: November 2, 2017

****Limited Submission – NIH: NIDCR Dental Specialty and PhD Program (DSPP)(K12)**

Closing Date: July 4, 2017

****Limited Submission – NIH: Centers for AIDS Research (P30)**

Closing Date: August 18, 2019

****Limited Submission – NIH: Developmental Centers for AIDS Research (P30)**

Closing Date: August 18, 2019

****Limited Submission – NIH: Environmental Health Sciences Core Centers (EHS CC) (P30)**

Closing Date: April 18, 2019

****Limited Submission – NIH: Maintenance and Enhancement of ISO/IEC 17025 Accreditation and Whole Genome Sequencing for State Food Testing Laboratories (U18)**

Closing Date: April 18, 2018

****Limited Submission – NIH: Research Education: Bridges to the Doctorate (R25)**

Closing Date: September 26, 2018

- **Limited Submission – NIH: IDeA Networks of Biomedical Research Excellence (INBRE) (P20)**
Closing Date: March 28, 2019
- **Limited Submission – NIH: Data Science Research: Personal Health Libraries for Consumers and Patients (R01)**
Closing Date: March 20, 2018
- **Limited Submission – NIH: National Primate Research Centers (P51)**
Closing Date: January 26, 2020
- **Limited Submission – NIH: Jointly Sponsored Ruth L. Kirschstein National Research Service Award for Institutional Predoctoral Training Programs in the Neurosciences (T32)**
Closing Date: May 26, 2019
- **Limited Submission – NIH: Cancer Center Support Grants (CCSGs) for NCI-designated Cancer Centers (P30)**
Closing Date: January 8, 2020
- **Limited Submission – NIH: Miner Safety and Health Training Program - Western United States (U60)**
Closing Date: February 22, 2017
- **Limited Submission – NIH: Shared Instrumentation for Animal Research (SIFAR) Grant Program (S10)**
Closing Date: June 1, 2017
- **Internal Coordination Required – NIH: High-End Instrumentation (HEI) Grant Program (S10)**
Closing Date: June 1, 2017
- **Internal Coordination Required – Shared Instrumentation Grant (SIG) Program (S10)**
Closing Date: June 1, 2017
- **Limited Submission – NIH: Silvio O. Conte Digestive Diseases Research Core Centers (P30)**
Closing Date: June 2, 2018
- **Limited Submission – NIH: Postbaccalaureate Research Education Program (PREP) (R25)**
Closing Date: January 25, 2019
- **Limited Submission – NIH: Research Education: Initiative for Maximizing Student Development (IMSD) Program (R25)**
Closing Date: January 29, 2019
- **Limited Submission: NIOSH Centers of Excellence for Total Worker Health® (U19)**
Closing Date: November 30, 2019
- **Limited Submission – NIH: Centers of Biomedical Research Excellence (COBRE) (P20)**
Closing Date: January 25, 2019
- **Limited Submission – NIH: BD2K Research Education Curriculum Development: Data Science Overview for Biomedical Scientists (R25)**
Closing Date: December 2, 2017
- **Limited Submission – NIH: Research Initiative for Scientific Enhancement (RISE) (R25)**
Closing Date: May 26, 2018
- **Limited Submission – NIH: Bridges to the Doctorate (R25)**
Closing Date: September 26, 2018
- **Limited Submission – NIH: Institutional Research and Academic Career Development Awards (IRACDA) (K12)**
Closing Date: September 20, 2018
- **Limited Submission – NIH: Centers for Agricultural Safety and Health (U54)**
Closing Date: December 1, 2017

****Limited Submission – NIH: Limited Competition for the Renewal of the National Cell Repository of Alzheimer’s Disease (NCRAD) (U24)**

Closing Date: September 26, 2017

****Limited Submission – NIH: Clinical and Translational Science Award (U54)**

Closing Date: May 26, 2018

****Limited Submission – NIH: Institutional Training for a Dental, Oral and Craniofacial Research Workforce (T90/R90)**

Closing Date: September 26, 2017

****Limited Submission – NIH: Ruth L. Kirschstein National Research Service Award (NRSA) Institutional Training for a Dental, Oral and Craniofacial Research Workforce (T32)**

Closing Date: September 26, 2017

National Science Foundation

[NSF-Simons Research Centers for Mathematics of Complex Biological Systems \(MathBioSys\)](#)

LOI Deadline: August 10, 2017

[NSF: Biological and Environmental Interactions of Nanoscale Materials](#)

No Deadline - Proposals for this program will be accepted throughout the year.

[NSF: Faculty Early Career Development Program \(CAREER\)](#)

Application Deadline: July 19, 2017 (BIO, CISE, HER); July 20, 2017 (ENG); July 21, 2017 (GEO, MPS, SBE)

[NSF: Industry-University Cooperative Research Centers Program \(IUCRC\)](#)

Preliminary Proposal Deadline: October 18, 2017

Proposal Target Deadline: December 20, 2017

[NSF: SBE Postdoctoral Research Fellowships \(SPRF\)](#)

Application Deadlines: October 09, 2017 (Second Monday in October, Annually Thereafter)

[Joint NSF/NIH Initiative on Quantitative Approaches to Biomedical Big Data \(QuBBD\)](#)

Application Deadline: September 12, 2017 (Second Tuesday in September, Annually Thereafter)

Recent advances in medical and healthcare technologies are creating a paradigm shift in how medical practitioners and biomedical researchers approach the diagnosis, prevention, and treatment of diseases. Coupled with the rapid growth in computing and

infrastructure, researchers now have the ability to collect, store, and analyze vast amounts of health- and disease-related data from biological, biomedical, behavioral, social, environmental, and clinical studies. The Quantitative Approaches to Biomedical Big Data Program is designed to support research that addresses important application areas at the intersection of the biomedical and data sciences.

Closing Date: July 13, 2017

Internal Funding Opportunities

[Internal Funding – Harvard's Solar Geoengineering Research Program](#)

Applications will be accepted on a rolling basis.

Harvard's Solar Geoengineering Research Program (SGRP) invites faculty and researchers throughout Harvard to apply for grants. No prior experience in solar geoengineering required. The goal of the program is to: Take an active stance on research with a unique mandate to develop new path-breaking technologies that might improve solar geoengineering's effectiveness and reduce its risks; Employ Harvard's convening power to bring together scientists, environmental leaders, and government officials to discuss the technology and its governance; Advance science and technology, assess efficacy and risks, and lay out governance options and social implications.

Non-Federal Funding Opportunities

[*NEW: Limited Submission – American Heart Association, 2018 Vascular Disease Network](#)

Internal NOI: June 30, 2017

The AHA is interested in the science community exploring the etiology, prevention or treatment of cardiovascular disease or stroke in Vascular Disease, which can assist the AHA in reaching its 2020 Goals and overall mission of building healthier lives free of cardiovascular disease and stroke.

[*NEW: Limited Submission – Cummings Foundation \\$100K for 100 Grant Program](#)

Internal NOI: Wednesday, June 28, 2017

The \$100K for 100 program will fund a wide variety of local causes, especially including human services, education, healthcare, and social justice. The program primarily seeks to support nonprofits in Middlesex, Essex, and Suffolk counties in Massachusetts. Applicants should not only be based in but also provide at least 80 percent of their services in this tri-county area.

[*NEW: AACR Stand Up To Cancer Dream Team Translational Research Grant](#)

LOI Deadline: September 5, 2017

This program will fund a translational cancer research project that will address critical problems in patient care, including prevention strategies for those at risk, and deliver near-term patient benefit through investigation by a multidisciplinary, multi-institutional,

collaborative Dream Team of expert investigators. The ideas may focus on particular organ sites, patient populations (such as pediatrics) or on innovative methods of treatment. Projects must be designed to accelerate the application of new preventive, diagnostic or therapeutic approaches to the clinic (i.e., lead to patient involvement within 2-3 years from the beginning of the grant).

[*NEW: Water Environment & Reuse Foundation Research Program](#)

Pre-Proposal Deadline: July 13, 2017

The Unsolicited Research Program seeks to fund innovative research projects that will significantly advance knowledge and scientific understanding and that could provide fundamentally transformative results. Proposals in all relevant wastewater, recycled water, stormwater, and other sources of water addressing water quality areas are welcome. WE&RF would consider proposals that would take existing research to the next level of completion, resulting in practical solutions to water challenges.

[**Limited Submission – Searle Scholars Program](#)

Internal Deadline: July 17, 2017

This program supports early stage investigators in biochemistry, cell biology, genetics, immunology, neuroscience, pharmacology, and related areas in chemistry, medicine, and the biological sciences. Harvard University, as one institution, can nominate two applicants for this award and the Office of the Vice Provost for Research will manage the application and selection process for the University. Harvard Chan School applicants should apply through HUFPP (Harvard University Funding Portal). The hyperlink above will bring you to the application portal, where you can find more information on award eligibility and internal submission requirements.

[**Internal Coordination Required – Banting Postdoctoral Fellowship](#)

Internal Deadline: September 12, 2017

The Banting Postdoctoral Fellowship, offered by the Government of Canada, provides two year fellowships to eligible postdoctoral students both nationally and internationally. There are no limits to the number of applicants that may apply to the Banting Fellowship opportunity, but those who wish to be hosted by Harvard University must include with their application a Letter of Endorsement signed by the Vice Provost for Research. Applicants requesting a Letter of Endorsement are asked to complete a questionnaire provide the OVPR (Office of the Vice Provost for Research) with a copy of their proposed Supervisor's Statement. The hyperlink above will bring you to the application portal.

[Juvenile Diabetes Research Foundation - Career Development Award](#)

Application Deadline: June 28, 2017

JDRF fosters the development and productivity of the best and the brightest established independent researchers who will bridge the gap between the bench and bedside. The primary purpose of the Career Development Award is to attract qualified and promising scientists early in their faculty careers and to give them the opportunity to establish themselves in areas that reflect the JDRF research emphasis areas. Although JDRF is especially interested in fostering careers in clinical investigation, Career Development Awards may emphasize either basic or clinical topics.

[Lung Cancer Research Foundation Funding Program](#)

Application Deadline: July 1, 2017

The Lung Cancer Research Foundation's grant program provides funding for innovative research focused on the prevention, diagnosis, treatment and cure of lung cancer. The Foundation encourages applications for projects investigating a wide variety of research topics, including:

- Improving our understanding of lung cancer biology
- Prevention and screening for early detection
- Identification of new biomarkers and the development of targeted therapies
- Development of next-generation chemotherapeutic agents
- Supportive measures for people with lung cancer and their families
- Quality of care and outcomes research

[Damon Runyon Innovation Award](#)

Application Deadline: July 6, 2017

The Damon Runyon-Rachleff Innovation Award is designed to provide support for the next generation of exceptionally creative thinkers with "high-risk/high-reward" ideas that have the potential to significantly impact our understanding of and/or approaches to the prevention, diagnosis or treatment of cancer. The Innovation Award is specifically designed to provide funding to extraordinary early career researchers who have an innovative new idea but lack sufficient preliminary data to obtain traditional funding. It is not designed to fund incremental advances. The research supported by the award must be novel, exceptionally creative and, if successful, have the strong potential for high impact in the cancer field.

[Burrough's Wellcome Fund: Infectious Diseases: Investigators in the Pathogenesis of Infectious Disease \(PATH\)](#)

Pre-proposal Deadline: July 14, 2017

The Investigators in the Pathogenesis of Infectious Disease program provides opportunities for assistant professors to bring multidisciplinary approaches to the study of human infectious diseases. The goal of the program is to provide opportunities for accomplished investigators still early in their careers to study what happens at the points where the systems of humans and potentially infectious agents connect. The program supports research that sheds light on the fundamentals that affect the outcomes of these encounters: how colonization, infection, commensalism, and other relationships play out at levels ranging from molecular interactions to systemic ones.

[Howard Hughes Medical Institute: Investigator Program](#)

Application Deadline: June 27, 2017

Howard Hughes Medical Institute is pleased to announce a national competition for the appointment of outstanding scientists as HHMI investigators. This competition will enable HHMI to strengthen its community of basic researchers and physician scientists who bring innovative approaches to the study of biological problems in biomedical disciplines, plant biology, evolutionary biology, biophysics, chemical biology, biomedical engineering, and computational biology.

[Grand Challenges Canada: Stars in Reproductive, Maternal, Newborn and Child Health](#)

Application Deadline: August 3, 2017

Grand Challenges Canada: Stars in Reproductive, Maternal, Newborn and Child Health seeks bold ideas for products, services and implementation models that could transform how persistent challenges in reproductive, maternal, newborn and child health are addressed in low- and middle-income countries. Successful proposals will be awarded seed grants of up to \$100,000 CAD over a maximum of 12 to 18 months.

[American Foundation for Suicide Prevention: Focus Grants](#)

LOI Deadline: August 1, 2017

The American Foundation for Suicide Prevention is accepting letters of intent for its 2017 Focus Grants in three areas (1) Short-Term Risk – The Focus Grant for Short-Term Risk is open to innovative, potentially high-yield proposals that focus on short-term risk for suicide. (2) Reaching 20% by 2025 – This Focus Grant RFA seeks applications that address potential biological, psychological, social and/or environmental pathways and interventions that can significantly reduce the national suicide rate if ultimately implemented on a large scale. (3) Investigator Initiated Research Grant – Supports an innovative, impactful high risk/high reward study in an area of suicide research that will achieve significant goals. This mechanism is intended for studies that, by their very nature, are clearly beyond the financial scope of our Innovation Grants.

[William T. Grant Foundation: Research Grants](#)

LOI Deadlines: August 2, 2017

This program supports high-quality research that is relevant to policies and practices that affect the lives of young people ages 5 to 25 in the United States. Funds are intended for research that increases our understanding of programs, policies, and practices that reduce inequality in youth outcomes, and research that identifies, builds, and tests strategies to improve the use of research evidence in ways that benefit youth. Research grants on reducing inequality typically range from \$100,000 to \$600,000 and cover two to three years of support. Improving the use of research evidence grants will range from \$100,000 to \$1,000,000 and cover two to four years of support.

[American Cancer Society: Pilot and Exploratory Projects in Palliative Care of Cancer Patients and Their Families](#)

Application Deadline: October 15, 2017

Pilot data are typically needed before funding agencies (e.g., NIH, VA or the American Cancer Society) will consider funding a research project. In an effort to support clinician investigators conducting patient-oriented research in palliative care, the American Cancer Society, in parallel with the National Palliative Care Research Center (NPCRC), is soliciting applications for pilot/exploratory research grants in palliative care of cancer patients and their families. These grants will generate the pilot data necessary to maximize an investigator's chances of competing successfully for larger grants.

[American Cancer Society: The Role of Health Policy and Health Insurance in Improving Access to and Performance of Cancer Prevention, Early Detection, and Treatment Services](#)

Application Deadline: October 15, 2017

A call for research that evaluates the impact of the many changes now occurring in the healthcare system with a particular focus on cancer prevention, control, and treatment. Efforts focusing on improving access to care may also impact inequities that contribute to health disparities. New health public policy initiatives such as the new federal and state marketplaces that have expanded insurance coverage, as well as Medicaid expansion in some states, create natural experiments ripe for evaluation.

[American Cancer Society Grants Programs](#)

Application Deadline: October 15, 2017

As the nation's largest private, not-for-profit source of funds for scientists studying cancer, the American Cancer Society (ACS) focuses its funding on investigator-initiated, peer-reviewed proposals. This process ensures that scientists propose projects that they believe are ready to be tackled with the available knowledge and techniques. This intellectual freedom encourages discovery in areas that scientists believe are most likely to solve the problems of cancer.

[Genome-Wide Investigation of Late-Effects Using the Childhood Cancer Survivor Study \(CCSS\) Cohort](#)

Application Deadline Rolling

The CCSS leadership is now broadening the scope of this initiative to study the role of genetic susceptibility in the development of non-malignant treatment-related outcomes (in addition to subsequent malignancies) in cancer survivors. Accordingly, CCSS is announcing a request for proposals to collaborate with CCSS and NCI investigators in the use of existing genome-wide association study (GWAS) data and corresponding outcomes-related data to address innovative research questions relating to potential genetic contributions to risk for treatment-related outcomes. Requests will be accepted on an ongoing basis. Requests will be reviewed three times per year, in February, June and October (cut-offs for receipt of applications will be February 1st, June 1st, and October 1st).

[Alfred P. Sloan Foundation: Economic Institutions, Behavior and Performance Grants](#)

Deadline: Continuous

The Foundation's program on Economic Institutions, Behavior, and Performance supports rigorous and objective research projects on U.S. economic structure, behavior, and performance whose findings inform and strengthen decision-making by regulators, policymakers, and the public.

[American Association for Respiratory Care \(AARC\) Research Program](#)

Deadline: Continuous

The American Association for Respiratory Care Research Program was established in 1996 to sponsor research to determine relationships between clinical interventions by respiratory therapists and the outcomes of care. The primary purpose of the AARC Research Program is to sponsor research initiatives which can document the clinical and economic impact of respiratory therapists in the delivery of health care. Clinical trials and effectiveness research to determine how clinical interventions by respiratory therapists affect overall health of patients, including physiologic indicators and quality of life, will be considered for funding.

[Wellcome Trust: Innovator Awards](#)

Deadline: Continuous

These awards support researchers who are transforming great ideas into healthcare innovations that could have a significant impact on human health. Our current focus areas are mental health, neurological disorders and neglected tropical diseases.

Robert Wood Johnson Foundation: Active Calls for Proposals

[Robert Wood Johnson Foundation: Research in Transforming Health & Health Care Systems](#)

Application Deadline: June 23, 2017

The Foundation's new Research in Transforming Health and Health Care Systems (RTHS) call for proposals (CFP) seeks to fund rigorous, empirical studies that evaluate or predict the potential effects of policies or policy changes intended to transform health and health care systems. The 2017 RTHS CFP will focus on empirical and policy-relevant analyses that can inform strategies to ensure access to high-quality, affordable health care and insurance coverage.

[Evidence for Action: Investigator-Initiated Research to Build a Culture of Health](#)

Deadline: Open (Applications are accepted on a rolling basis)

Evidence for Action: Investigator-Initiated Research to Build a Culture of Health is a national program of RWJF that supports the Foundation's commitment to building a Culture of Health in the United States. The program aims to provide individuals, organizations, communities, policymakers, and researchers with the empirical evidence needed to address the key determinants of health encompassed in the Culture of Health Action Framework. Additionally, ***Evidence for Action will also support efforts to assess outcomes and set priorities for action. It will do this by encouraging and supporting creative, rigorous research on the impact of innovative programs, policies and partnerships on health and wellbeing, and on novel approaches to measuring health determinants and outcomes.*** Approximately \$2.2 million will be awarded annually. RWJF expect to fund between five and 12 grants each year for periods of up to 30 months.
