## **Previously Announced – National Institutes of Health**

**\*\*Denotes a Limited Submission Opportunity (LSO)** – If you are interested in applying for any of the LSOs listed below, please inform ORSD at [orsd@hsph.harvard.edu](mailto:orsd@hsph.harvard.edu). Visit the ORSD [website](#) for more information about Limited Submission opportunities.

### **\*\*Limited Submission (FOR STUDENTS) – NCI Predoctoral to Postdoctoral Transition Award**

Internal NOI Deadline: October 14, 2016

The purpose of the program is to encourage and retain outstanding graduate students who have demonstrated potential and interest in pursuing careers as independent cancer researchers. The Harvard Chan School can nominate one applicant for this award and ORSD will manage the internal application and selection process for the School. A notice of intent must be submitted to [Imelanson@hsph.harvard.edu](mailto:Imelanson@hsph.harvard.edu) by Friday, October 14, 2016. Please include the following information:

- Applicant name, department, degree program and faculty mentor
- Number of years in degree program and expected dissertation start date
- Brief description (4-5 sentences) of dissertation research project.

### **\*\*Limited Submission – NIH: NIOSH Occupational Safety and Health Training Project Grants (T03)**

Closing Date: November 4, 2019

**CLOSED:** The Harvard Chan School has an existing NIOSH training grant.

### **\*\*Limited Submission – NIH: NIOSH Occupational Safety and Health Education and Research Centers (T42)**

Closing Date: November 21, 2019

**CLOSED:** The Harvard Chan School has an existing NIOSH training grant.

### **\*\*Limited Submission – NIH: T Cell Reagent Resource for the Study of Allergic Diseases (U19)**

Closing Date: March 4, 2017

### **\*\*Limited Submission – NIH: Innovation Corps (I-Corps) at NIH Program for NIH and CDC Phase I Small Business Innovation Research (SBIR) and Small Business Technology Transfer (STTR) Grantees (Admin Supp )**

Closing Date: January 10, 2017

### **\*\*Limited Submission: NIOSH Centers of Excellence for Total Worker Health® (U19)**

Closing Date: November 30, 2019

### **\*\*Limited Submission – Continuation of the Hepatitis B Research Network Clinical Centers (U01)**

Closing Date: December 20, 2016

### **\*\*Limited Submission – NIH: Centers of Biomedical Research Excellence (COBRE) (P20)**

Closing Date: January 25, 2019

### **\*\*Limited Submission – NIH: Kidney Precision Medicine Project Central Hub (U2C)**

Closing Date: December 7, 2016

### **\*\*Limited Submission – NIH: Limited Competition for Data Coordinating Center (DCC) for NIDDK Inflammatory Bowel Disease Genetics Consortium (IBDGC) (U24)**

Closing Date: December 15, 2016

### **\*\*Limited Submission – NIH: NIDDK Inflammatory Bowel Disease Genetics Consortium (IBDGC) Genetic Research Centers (GRCs) (U01)**

Closing Date: December 15, 2016

### **\*\*Limited Submission – NIH: Human Heredity and Health in Africa (H3Africa): Global Health Bioinformatics Research Training Program (U2R)**

Closing Date: November 16, 2016

### **\*\*Limited Submission – NIH: BD2K Research Education Curriculum Development: Data Science Overview for Biomedical Scientists (R25)**

Closing Date: December 2, 2017

**\*\*Limited Submission – NIH: Centers for HIV/AIDS-Related Structural Biology (P50)**

Closing Date: January 10, 2017

**\*\*Limited Submission – NIH: Asthma and Allergic Diseases Cooperative Research Centers (U19)**

Closing Date: April 4, 2017

**\*\*Limited Submission – NIH: Continuation of Epidemiology of Diabetes Interventions and Complications (EDIC) Study Biostatistics Research Center (Collaborative U01)**

Closing Date: November 9, 2016

**\*\*Limited Submission – NIH: Continuation of Epidemiology of Diabetes Interventions and Complications (EDIC) Study Clinical Research Center (Collaborative U01)**

Closing Date: November 9, 2016

**\*\*Limited Submission – NIH: Alzheimer's Clinical Trials Consortium (ACTC) (U24)**

Closing Date: February 3, 2017

**\*\*Limited Submission – NIH: George M. O'Brien Kidney Research Core Centers (P30)**

Sponsor Deadline: November 14, 2016

**\*\*Limited Submission – NIH: Pediatric Centers of Excellence in Nephrology (P50)**

Sponsor Deadline: November 2, 2016

**\*\*Limited Submission – NIH: Outstanding New Environmental Scientist (ONES) Award (R01)**

Closing Date: February 28, 2018

**\*\*Limited Submission – NIH: Diabetes Research Centers (P30)**

Closing Date: March 1, 2017

**\*\*Limited Submission – NIH: Nutrition Obesity Research Centers (NORCs) (P30)**

Closing Date: November 24, 2016

**\*\*Limited Submission – NIH: Research Initiative for Scientific Enhancement (RISE) (R25)**

Closing Date: May 26, 2018

**\*\*Limited Submission – NIH: Bridges to the Doctorate (R25)**

Closing Date: September 26, 2018

**\*\*Limited Submission – NIH: Institutional Research and Academic Career Development Awards (IRACDA) (K12)**

Closing Date: September 20, 2018

**\*\*Limited Submission – NIH: Academic-Community Partnership Conference Series (R13)**

Closing Date: November 18, 2016

**\*\*Limited Submission – NIH: Addressing Health Disparities in Maternal and Child Health through Community-Based Participatory Research (R03)**

Closing Date: November 22, 2016

**\*\*Limited Submission – NIH: Centers for Agricultural Safety and Health (U54)**

Closing Date: December 1, 2017

**\*\*Limited Submission – NIH: Cancer Center Support Grants (CCSGs) for NCI-designated Cancer Centers (P30)**

Closing Date: January 8, 2017

**\*\*Limited Submission – NIH: National Primate Research Centers (P51)**

Recent advances in medical and healthcare technologies are creating a paradigm shift in how medical practitioners and biomedical researchers approach the diagnosis, prevention, and treatment of diseases. Coupled with the rapid growth in computing and infrastructure, researchers now have the ability to collect, store, and analyze vast amounts of health- and disease-related data from biological, biomedical, behavioral, social, environmental, and clinical studies. The Quantitative Approaches to Biomedical Big Data Program is designed to support research that addresses important application areas at the intersection of the biomedical and data sciences.

Closing Date: October 16, 2016

[USAID: Securing Water for Food: A Grand Challenge for Development 4th Global Call for Innovations](#)

Deadline: October 10, 2016

This funding competition sources and accelerates innovations that will enable the production of more food with less water or make more water available for food production, processing, and distribution. The three areas that are deemed critical to reducing water scarcity in the food value chain are listed as: Improving water efficiency and reusing agricultural wastewater to significantly extend the productivity of limited water resources; Effective water capture and storage systems for extending temporal availability of water supply in regions where precipitation is seasonal; Management of salinity in water supplies, as it is a major threat to food production.

## **Internal Funding Opportunities**

**\*NEW: Internal Funding – Harvard China Faculty Grant Program**

Application Deadline: October 31, 2016

For the FY17 grant cycle, the Harvard China Fund is offering conference grants of up to \$60,000 each as well as research grants of \$50,000 - \$100,000. The proposed conference should take place at the Harvard Center Shanghai, preferably before March 2018. We welcome conference proposals in all research fields. Research proposals are welcome in any field and we especially encourage proposals in the areas of traditional Chinese arts and culture, environmental studies and education.

**Internal Funding – Program on the Global Demography of Aging at Harvard University Pilot Projects**

Application Deadline: October 15, 2016

The Program on the Global Demography of Aging (PGDA) at Harvard University funds pilot projects in the area of the Economics and Demography of Aging. The project should be designed to produce results that will support future application for research funding to the National Institutes of Health (NIH) or other bodies. The pilot projects are designed to support new researchers in aging (without previous R01 grants or equivalent), and more experienced researchers who wish to investigate new areas of research.

#### [Internal Funding – Blavatnik Biomedical Accelerator](#)

Spring 2017 Cycle (Development and Pilot applications) Pre-proposal Deadline: November 28, 2016

The Blavatnik Biomedical Accelerator at Harvard University supports Harvard faculty in the performance and commercialization of applied life sciences research. A significant obstacle to the development of early-stage university discoveries is the lack of funding for the proof-of-concept and validation studies needed to demonstrate commercial potential. To overcome this barrier, the Accelerator provides funding and other support to help faculty validate their nascent technologies and identify potential industry partners to advance these technologies to the marketplace.

## Non-Federal Funding Opportunities

#### [\\*\\*NEW: Limited Submission – Brain Research Foundation: 2017 Fay/Frank Seed Grant Program](#)

Internal Deadline: November 21, 2016

Sponsor Deadline: January 4, 2017

This program provides support to Assistant and Associate Professors with innovative projects in the area of brain function. Harvard University, as one institution, can nominate one applicant for this award and the Office of the Vice Provost for Research will manage the application and selection process for the University. Harvard Chan School applicants should apply through HUFPP (Harvard University Funding Portal). The hyperlink above will bring you to the application portal, where you can find more information on award eligibility and internal submission requirements.

#### [\\*NEW: Laura and John Arnold Foundation: Improving the Treatment of Opioid Use Disorders](#)

Application Deadline: December 15, 2016

We know very little about the efficacy of opioid addiction treatment programs provided by governments and health care practices. LJAF is seeking proposals for projects that fall under the following categories: 1. Evaluations of interventions funded by governments or other entities to treat opioid use disorders; 2. Innovations in government program design, delivery systems, and infrastructure to build rigorous evidence, redirect spending, and improve access to proven treatment programs.

#### [\\*NEW: McKnight Endowment Fund for Neuroscience: Technological Innovations in Neuroscience Awards](#)

Application Deadline: December 5, 2016

These awards support scientists working on new and unusual approaches to understanding brain function. The program seeks to advance and enlarge the range of technologies available to the neurosciences. It does not support research based primarily on existing techniques. The Endowment Fund is especially interested in how technology may be used or adapted to monitor, manipulate, analyze, or model brain function at any level, from the molecular to the entire organism. Collaborative and cross-disciplinary applications are invited.

#### [\\*NEW: American Heart Association Institute for Precision Cardiovascular Medicine Data Grants Portfolio](#)

Deadlines: Innovative Development Grants (January 31, 2017); Data Mining Grants (January 31, 2017); Methods Validation Grants (June 1, 2017); Fellowships (June 1, 2017)

Driven by advanced methods of aggregating, integrating and analyzing patient data, precision cardiovascular medicine has the potential to improve, preserve and prolong health, as well as ultimately reduce overall healthcare costs. With that goal in mind, the AHA Institute for Precision Cardiovascular Medicine will award 14 grants over the next 12 months focused in four areas: Data Mining, Methods Validation, Innovative Development and Fellowships.

#### [\\*\\*Limited Submission \(FOR STUDENTS\) – Google Research Fellowship, 2017](#)

Internal Deadline: November 7, 2016

Sponsor Deadline: December 1, 2016

This award recognizes graduate students doing work in the area of computer science and related disciplines. Harvard University, as one institution, can nominate two applicants for this award and the Office of the Vice Provost for Research will manage the application and selection process for the University. Harvard Chan School applicants should apply through HUFPP (Harvard University Funding Portal). The hyperlink above will bring you to the application portal, where you can find more information on award eligibility and internal submission requirements.

#### [BrightFocus Foundation: Alzheimer's Disease Research Program](#)

Application Deadline: October 13, 2016

The portfolio of BrightFocus donor supported research extends from basic molecular and cellular biology through clinical and behavioral health research. The ADR program offers two types of awards: (1) Standard Awards provide significant funding for researchers who have already generated some amount of preliminary data, but are often required to demonstrate additional, significant progress before they can apply to governmental or industrial funding agencies and (2) Postdoctoral fellowship awards are intended for young researchers in their final stages of mentored training.

#### [Alex's Lemonade Stand: Psychosocial: Family Impact Grants](#)

Application Deadline: October 14, 2016

ALSF is committed to addressing the psychosocial and behavioral health outcomes for children diagnosed with cancer and their families. Our Psychosocial Grants will fill a direct need for research funding by supporting studies that aim to explain and/or improve psychosocial outcomes of those affected by childhood cancer. These grants are designed to fund researchers who have novel approaches to understanding the psychosocial aspects of pediatric cancer and whose proposals will have clinically significant impact.

#### [American Cancer Society Grants Program](#)

Application Deadline: October 15, 2016

As the nation's largest private, not-for-profit source of funds for scientists studying cancer, the American Cancer Society (ACS) funds investigator-initiated, peer-reviewed proposals through a variety of funding mechanisms. Grant applications for most grant types are accepted two times per year – April 1 and October 15. Review the individual [grant types](#) or the full listing of all [grant deadlines](#) for more information.

#### [The Michael J. Fox Foundation for Parkinson's Research: Core Funding Programs](#)

Application Deadline: October 19, 2016

Core funding programs include: target advancement; therapeutic development; and outcome measures. While the foundation places a strong emphasis on funding translational and clinical research, they also support high-risk/high-reward discovery work. Learn more about funding priorities on their [Research Strategy page](#).

#### [Crohn's & Colitis Foundation of America: Research Grants and Fellowships](#)

LOI Deadlines: November 1, 2016; May 1, 2017

The Crohn's & Colitis Foundation of America is a leading funder of basic and clinical research in inflammatory bowel diseases (IBD), or Crohn's disease and ulcerative colitis. CCFA supports research that increases our understanding of the etiology, pathogenesis, therapy, and prevention of these diseases. In addition to supporting studies and clinical trials, CCFA provides grants and fellowships for the training and development of the next generation of researchers and physicians specializing in IBD.

#### [Alpha Phi Foundation: 2017 Heart to Heart Grant](#)

Deadline: November 1, 2016

The Alpha Phi Foundation advances women's lives through the power of philanthropy. We do this by raising and awarding funds for programs that further leadership development, encourage academic excellence, improve women's heart health, support sisters in need, preserve heritage, and educate about the value of philanthropy. Programs must target education/care of women.

#### [National Palliative Care Research Center Grants Program](#)

LOI Deadline: November 2 (Pilot Projects & Career Development Awards); November 7, 2016 (Transition to Independence Award)

The National Palliative Care Research Center funds palliative care research initiatives whose purpose is to test interventions, develop research methodologies, and explore novel areas of research that are directly related to the Center's core mission and stated areas of interest: pain and symptom management, communication, and models of care for palliative care delivery.

#### [American Heart Association: Collaborative Sciences Award](#)

LOI Deadline: November 3, 2016

The objective of the program is to foster innovative, new collaborative approaches to research projects that propose novel pairings of investigators from at least two broad disciplines. The proposal must focus on the collaborative relationship, such that the scientific objectives could not be achieved without the efforts of at least two co- principal investigators and their respective disciplines. The combination and integration of studies may be inclusive of basic, clinical, population and/or translational research.

#### [Bill & Melinda Gates Foundation: Grand Challenges Explorations Round 18](#)

Application Deadline: November 9, 2016

Grand Challenges Explorations fosters early-stage discovery research to expand the pipeline of ideas for solving our greatest global health and development challenges. proposals were solicited that target the following challenges: Assess Family Planning Needs, Preferences and Behaviors to Inform Innovations in Contraceptive Technologies; Develop Novel Platforms to Accelerate Contraceptive Drug Discovery; Design New Solutions to Data Integration for Malaria Elimination; Accelerate Development of New Therapies for Childhood Cryptosporidium Infection.

#### [Harry J. Lloyd Charitable Trust: Melanoma Research Grants](#)

Application Deadline: November 10, 2016

Career Development awards provide salary support for promising young melanoma investigators; Basic Science awards support promising research into new biological insights in to melanoma development or progression. Translational Research awards fund clinically important melanoma research. With a special focus on screening and prevention, most individual grants do not exceed \$125,000 per year.

#### [AACR: The Pancreatic Cancer Action Network-AACR Pathway to Leadership Grant](#)

Application Deadline: November 15, 2016

This program represents a joint effort to ensure the future leadership of pancreatic cancer research by supporting outstanding early career investigators beginning in their postdoctoral research positions and continuing through their successful transition to independence. Applicants must hold a full-time, mentored research position, have completed their most recent doctoral degree or medical residency within the past five years, and not already have a full-time faculty position.

#### [Neuroendocrine Tumor Research Foundation: Accelerator Grants](#)

Application Deadline: November 18, 2016

NETRF is launching a new Accelerator Program specifically designed to fund research with the potential to transform our understanding of neuroendocrine cancers and/or have substantial promise to lead to improved treatments and diagnostics for patients. Proposals will be accepted from a broad array of disciplines including but not limited to investigations in genetic and epigenetic profiling, intensive analysis of cell biology and protein expression, immune microenvironment of tumors, development of faithful disease models or any other area with an impact on the biology of neuroendocrine tumors.

#### [Russell Sage Foundation: Special Initiative on Computational Social Science](#)

LOI Deadline: November 30, 2016

The Russell Sage Foundation's initiative on Computational Social Science (CSS) supports innovative social science research that brings new data and methods to bear on questions of interest in its core programs in Behavioral Economics, Future of Work, Race, Ethnicity and Immigration, and Social Inequality. Limited consideration will be given to questions that pertain to core methodologies, such as causal inference and innovations in data collection.

#### [Burroughs Wellcome Fund: Preterm Birth Initiative](#)

Application Deadline: December 1, 2016

This program was created to increase the understanding of the biological mechanisms underlying parturition and spontaneous preterm birth and will provide up to \$600,000 over a four-year period (\$150,000 per year). The initiative is designed to stimulate both creative individual scientists and multi-investigator teams to approach the problem of preterm birth using creative basic and translation science methods. Postdoctoral fellows nearing their transition to independent investigator status through senior established investigators are encouraged to apply.

#### [Damon Runyon Cancer Research Foundation: Physician-Scientist Training Award](#)

Application Deadline: December 1, 2016

In an effort to confront the crisis arising from a growing dearth of physician-scientists, Damon Runyon wishes to encourage more physicians to pursue research careers. The goals of this program are to a) transform these individuals into the highest quality physician-scientists, capable of conducting research that has the potential to transform the diagnosis, treatment and/or prevention of cancer and b) to eliminate the financial disincentive to entering this career path.

#### [Simons Foundation Autism Research Initiative \(SFARI\): Pilot and Research Awards](#)

Deadline: December 9, 2016

The Simons Foundation Autism Research Initiative's mission is to improve the understanding, diagnosis and treatment of autism spectrum disorders by funding innovative research of the highest quality and relevance. They solicit applications for SFARI Awards from individuals who will conduct bold, imaginative, rigorous and relevant research in three main research areas: cognition and behavior, gene discovery and molecular mechanisms.

#### [Alex's Lemonade Stand: Epidemiology Grants](#)

Application Deadline: December 15, 2016

These awards will support investigators pursuing research studies in human populations using epidemiological approaches aimed at improving our understanding of childhood cancer. This grant mechanism is designed to support hypothesis-driven research that focuses on the epidemiology, early detection and prevention of childhood cancer or comparative effectiveness and outcomes research related to detection, prevention and treatment.

### [Howard Hughes Medical Institute \(HHMI\): Hanna H. Gray Fellows Program](#)

Application Deadline: February 15, 2017

This new program through HHMI is intended to recruit and retain early-career scientists who are from gender, racial, ethnic, and other groups underrepresented in the life sciences, including those from disadvantaged backgrounds. In this two-phase program, fellows will be supported from early postdoctoral training through several years of a tenure-track position. Each fellow will receive funding for up to eight years, with mentoring and active involvement within the HHMI community.

### [American Association for Respiratory Care \(AARC\) Research Program](#)

Deadline: Continuous

The American Association for Respiratory Care Research Program was established in 1996 to sponsor research to determine relationships between clinical interventions by respiratory therapists and the outcomes of care. The primary purpose of the AARC Research Program is to sponsor research initiatives which can document the clinical and economic impact of respiratory therapists in the delivery of health care. Clinical trials and effectiveness research to determine how clinical interventions by respiratory therapists affect overall health of patients, including physiologic indicators and quality of life, will be considered for funding.

## **Robert Wood Johnson Foundation: Active Calls for Proposals**

### [Evidence for Action: Investigator-Initiated Research to Build a Culture of Health](#)

Deadline: Open (Applications are accepted on a rolling basis)

*Evidence for Action: Investigator-Initiated Research to Build a Culture of Health* is a national program of RWJF that supports the Foundation's commitment to building a Culture of Health in the United States. The program aims to provide individuals, organizations, communities, policymakers, and researchers with the empirical evidence needed to address the key determinants of health encompassed in the Culture of Health Action Framework. Additionally, ***Evidence for Action* will also support efforts to assess outcomes and set priorities for action. It will do this by encouraging and supporting creative, rigorous research on the impact of innovative programs, policies and partnerships on health and wellbeing, and on novel approaches to measuring health determinants and outcomes.** Approximately \$2.2 million will be awarded annually. RWJF expect to fund between five and 12 grants each year for periods of up to 30 months.

## **Patient-Centered Outcomes Research (PCORI): Active Calls for Proposals**

### [\\*NEW: PCORI: Treatment of Multiple Sclerosis - Cycle 3 2016](#)

LOI Deadline: November 1, 2016

Application Deadline: February 7, 2017

The Patient-Centered Outcomes Research Institute (PCORI) seeks to fund randomized clinical trials (RCTs) or large observational studies that compare two or more alternative clinical strategies for treatment of MS that address the following questions: (1) What are the comparative benefits and harms of different disease-modifying therapies (DMTs) or therapeutic strategies in patients with relapsing, remitting multiple sclerosis on symptoms, functioning, quality of life, disease activity, and disease progression? (2) What are the comparative benefits and harms of different approaches, other than DMTs, for ameliorating important symptoms in people with MS? (3) What is the comparative effectiveness of telerehabilitation vs. conventional direct care interventions for improving outcomes in people with MS, such as functional status, fatigue, and quality of life?
