Research Computing Training Schedule

ORSD and FASRC are pleased to announce the kickoff of the Fall semester’s training series in addition to the normally scheduled office hours. This semester’s Research Computing Office Hours. This semester, FASRC will host Office Hours weekly and will incorporate the training modules during the first 30 - 45 minutes of office hours every other week.

Please join us weekly to learn new skills, refine existing ones, and ask questions about Harvard’s largest computing platform with the support of experts from FASRC.

For additional information about Research Computing at the Harvard Chan School, please visit the ORSD website.

For technical questions, please submit a ticket to FASRC or chat with Odybot.
