**ACTIVE LIMITED SUBMISSION OPPORTUNITIES:**

**\*\*NEW: Limited Submission - NIH: Diabetes Research Centers (P30)**

Internal deadline: November 2, 2018

Sponsor deadline: June 21, 2019

If you are interested in applying for this award, you must submit a brief Notice of Intent including PI name, department, and a brief (1-2 sentence) description of the proposed project to the Office of Research Strategy and Development ([hconrad@hsph.harvard.edu](mailto:hconrad@hsph.harvard.edu)) no later than **November 2, 2018**. Based on the number of notices received, we will determine whether an internal competition is needed.

**Limited Submission – NIH: NCI Pre-doctoral to Postdoctoral Fellow Transition Award**

Internal Deadline: November 12, 2018

Sponsor Deadline: February 22, 2019

The NCI Pre-doctoral to Postdoctoral Fellow Transition Award facilitates the transition of graduate students into successful cancer research postdoctoral appointments. Harvard University, as one institution, can nominate one applicant for this award and the Office of the Vice Provost for Research will manage the application and selection process for the University. Harvard Chan School applicants should apply through HUFPP (Harvard University Funding Portal). The hyperlink above will bring you to the application portal, where you can find more information on award eligibility and internal submission requirements.

[Internal Funding – Harvard's Solar Geoengineering Research Program](#)

Applications will be accepted on a rolling basis.

Harvard's Solar Geoengineering Research Program (SGRP) invites faculty and researchers throughout Harvard to apply for grants. No prior experience in solar geoengineering required. The goal of the program is to: Take an active stance on research with a unique mandate to develop new path-breaking technologies that might improve solar geoengineering's effectiveness and reduce its risks; Employ Harvard's convening power to bring together scientists, environmental leaders, and government officials to discuss the technology and its governance; Advance science and technology, assess efficacy and risks, and lay out governance options and social implications.

**Non-Federal Funding Opportunities**

**LIMITED SUBMISSION OPPORTUNITIES:**

**[\\*\\*NEW: Limited Submission - Brain Research Foundation 2019: Fay/ Frank Seed Grant Program](#)**

Internal deadline: November 26, 2018

Sponsor deadline: January 8, 2019

The purpose of the Brain Research Foundation's Fay/Frank Seed Grant Program is to provide start-up money to junior faculty for new research projects and innovative programs in the field of neuroscience. The proposed projects should show potential of becoming competitive for an NIH grant or other external funding sources. Harvard University, as one institution, can nominate one (1) applicant for this award and the Office of the Vice Provost for Research will manage the application and selection process for the University. Harvard Chan School applicants should apply through HUFPP (Harvard University Funding Portal). The hyperlink above will bring you to the application portal, where you can find more information on award eligibility and internal submission requirements.

**[\\*\\*NEW: Limited Submission - Camille and Henry Dreyfus Foundation: Camille Dreyfus Teacher-Scholar Awards Program, 2019](#)**

Internal deadline: November 26, 2018

Sponsor deadline: February 7, 2019

The Camille Dreyfus Teacher-Scholar Awards Program supports the research and teaching careers of talented young faculty in the chemical sciences. The program provides discretionary funding to faculty at an early stage of their careers. Harvard University, as one institution, can nominate one (1) applicant for this award and the Office of the Vice Provost for Research will manage the application and selection process for the University. Harvard Chan School applicants should apply through HUFPP (Harvard University Funding Portal). The hyperlink above will bring you to the application portal, where you can find more information on award eligibility and internal submission requirements.

[Limited Submission: Google: Research Fellowship, 2019](#)

Internal deadline: November 5, 2018

Sponsor deadline: December 1, 2018

The Google Ph.D. Fellowship program is a two-year fellowship (with opportunity to extend to 3rd year) that recognizes graduate students doing work in the area of computer science and related disciplines. Harvard University, as one institution, can nominate two applicants for this award and the Office of the Vice Provost for Research will manage the application and selection process for the University. Harvard Chan School applicants should apply through HUFPP (Harvard University Funding Portal). The hyperlink above will bring you to the application portal, where you can find more information on award eligibility and internal submission requirements.

**OTHER NON-FEDERAL FUNDING OPPORTUNITIES:**

[United States-Israel Bi-national Science Foundation: Regular Grants Program](#)

Application deadline: November 20, 2018

Applications to the program are made jointly by a US and an Israeli researcher(s) who would like to work together. No prior cooperation is required, but the synergy between the PIs must be evident.

[American Heart Association: Arrhythmias and Sudden Cardiac Death Strategically Focused Research Network](#)

LOI deadline: December 4, 2018

Application deadline: February 7, 2019

The intent of this initiative is to support a collaboration of basic, clinical and population researchers from different disciplines whose collective efforts will lead to new approaches to study arrhythmias and sudden cardiac death.

[Cancer Epidemiology Education in Special Populations \(CEESP\) Program: Summer Research Grants \(STUDENTS\)](#)

Application deadline: January 7, 2019

This program will provide mentored summer research in global and U.S. minority settings for a period of up to 15 weeks during summer 2019 for MPH and PhD candidates. Students can work with their local university faculty mentors and their research and/or utilize the infrastructure created by CEESP in global and U.S. settings.

[American Heart Association: The Established Investigator Award](#)

LOI deadline: October 23, 2018

Application deadline: January 15, 2019

This award supports mid-career healthcare and academic investigators with unusual promise and in rapid growth phase, who have established records of accomplishments, and demonstrated commitment to questions related to cardiovascular or cerebrovascular science.

[American Heart Association: 2019 Innovative Projects Award](#)

LOI deadline: October 29, 2018

Application deadline: January 17, 2019

The Innovative Project Award supports highly innovative, high-impact research that could ultimately lead to critical discoveries or major advancements that will accelerate the field of cardiovascular or stroke research. Research deemed innovative may introduce a new paradigm, challenge current paradigms, look at existing problems from new perspectives, or exhibit other uniquely creative qualities.

[American Heart Association Institute for Precision Cardiovascular Medicine: Artificial Intelligence and Machine Learning Training Grants \(for students and post-docs\)](#)

Application deadline: January 31, 2019

Two-year grants focused on training student researchers in testing and refining artificial intelligence and machine learning algorithms using learning health care system data and/or multiple longitudinal data sources to improve our understanding of all data related to precision medicine.

#### [Chan Zuckerberg Science Initiative: Seed Networks for the Human Cell Atlas](#)

Application Deadline: November 13, 2018

CZI will seek applications to form Seed Networks consisting of at least three principal investigators that will support continued growth, solidify collaborations, and help generate valuable data and tools for the first draft of the Human Cell Atlas.

#### [The Thrasher Research Fund: E.W. "Al" Thrasher Awards](#)

Deadline: Rolling

The purpose of the E.W. "Al" Thrasher Awards is to improve children's health through medical research, with an emphasis on projects that have the potential to translate into clinically meaningful results within a few years.

#### [Laura and John Arnold Foundation: Randomized Controlled Trials to Evaluate Social Programs Whose Delivery Will Be Funded by Government or Other Entities](#)

Letter of Intent Deadline: Continuous

This grant funds strongly designed randomized controlled trials (RCTs) that evaluate social programs with highly promising prior evidence or that are widely implemented

#### [Alpha Phi Foundation: Heart to Heart Grant](#)

Application deadline: November 4, 2018

This annual grant supports research and education that lessens the impact of heart disease in women.

#### [BrightFocus Foundation: Multiple Awards](#)

Application deadline: Multiple dates

This program consists of three different awards focusing on the following: Alzheimer 's disease, Macular degeneration and Glaucoma.

#### [American Foundation for Suicide Prevention: Distinguished Investigator Innovation Grants, Young Investigator Innovation Grants and Pilot Innovation Grants](#)

Closing date: November 15, 2018

AFSP's Research Grants support studies that will increase our understanding of suicide or test treatments and other interventions that save lives.

#### [Tourette Association of America: Support for Research Consortia and Collaborative Research Projects](#)

Application deadline: Rolling

This award supports research consortia working on large issues relevant to TS, including the TAA genetics consortium, neuroimaging consortium, behavioral sciences consortium, and deep brain stimulation registry, which have a direct impact on the patient and research community.

#### [Crohn's & Colitis Foundation Research Grants and Fellowships Program](#)

LOI Deadline: November 5, 2018

The Foundation offers several ongoing funding opportunities to support student and early-career researchers, as well as other professional development opportunities to enhance the pool of talent working in the field of IBD.

- The Litwin IBD Pioneers Initiative supports innovative clinical and translational research projects with the potential to impact the treatment of IBD patients in the near future. The program encourages novel research into the diagnosis, identification of clinically relevant subsets, treatments, and cures for inflammatory bowel diseases (IBD) and funds innovative pilot research so that scientists can test their initial ideas and generate preliminary data.
- Senior Research Awards provide established researchers with funds to generate sufficient preliminary data to become competitive for funds from other sources.
- Career Development Awards help prepare individuals with research potential to transition to a career of independent investigation.
- Research Fellowship Awards help prepare individuals with research potential for a career of independent investigation.
- Student Research Awards support college, graduate, and medical students performing research on topics relevant to IBD during the months of June to September of each year. Please note this award has only one cycle annually.

#### [American Lung Association: Public Policy Research Award](#)

Application Deadline: December 13, 2018

This mechanism is designed to help stimulate and inform important public policy debates around healthy air and lung disease. This award supports research on and evaluation of existing public policy and programs, as well as projects that inject innovative ideas into public policies impacting lung health.

#### [American Lung Association and the American Academy of Allergy, Asthma & Immunology \(AAAAI\) Allergic Respiratory Diseases Research Award](#)

Application Deadline: December 13, 2018

A long-standing joint effort between the American Lung Association and the American Academy of Allergy, Asthma & Immunology to encourage and support early stage investigators with a primary faculty appointment in an allergy/immunology division or section, to conduct research into advancing the understanding of allergic respiratory disease.

#### [American Gastroenterological Association \(AGA\): AGA-Takeda Pharmaceuticals Research Scholar Award in Inflammatory Bowel Disease](#)

Application Deadline: December 14, 2018

The objective of the AGA-Takeda Pharmaceuticals Research Scholar Award in Inflammatory Bowel Disease (IBD) is to support young gastroenterologists working toward independent and productive research careers in IBD by ensuring that a major proportion of their time is protected for research (i.e. a minimum of 75 percent effort dedicated to the proposed project). This AGA Research Foundation award will support young faculty (not fellows) who have demonstrated exceptional promise and have some record of accomplishment in research.

#### [Burroughs Wellcome Fund: Career Awards at the Scientific Interface](#)

Full Proposal Deadline: January 9, 2019 by 4:00pm EST

BWF's Career Awards at the Scientific Interface (CASI) provide \$500,000 over five years to bridge advanced postdoctoral training and the first three years of faculty service. These grants are intended to foster the early career development of researchers who have transitioned or are transitioning from undergraduate and/or graduate work in the physical/mathematical/computational sciences or engineering into postdoctoral work in the biological sciences, and who are dedicated to pursuing a career in academic research.

#### [AHA: Research Funding Program 2018-2019](#)

Multiple deadlines

AHA awards are open to an array of academic and health professionals. Clinical, translational, population, behavioral, and basic scientists are encouraged to apply. AHA maintains dedicated Peer Review Committees by program type and science type.

#### [Crohn's and Colitis Foundation of America: Broad Medical Research Program](#)

Application deadline: Rolling

The BMRP is funding innovative research into the possible reasons for low and high incidence of IBD in different areas of the globe. Proposals should be exploratory in nature or designed as pilot. The research should shed light on factors that may influence low versus high global areas of prevalence of the disease. The research should ultimately be helpful in improved understanding of the etiology of IBD and the factors that enhance or prevent the genesis of the disease.

#### [Robert Wood Johnson Foundation: Pioneering Ideas and a Culture of Health](#)

Letter of Inquiry: Rolling Deadline

The goal of this award is to look into the future and put health first as we design for changes in how we live, learn, work and play; to wade into uncharted territory in order to better understand what new trends, opportunities and breakthrough ideas can enable everyone in America to live the healthiest life possible. The Robert Wood Johnson Foundation focuses on four broad areas: Health Leadership; Health Systems; Healthy Communities; and Healthy Kids, Healthy Weight.

#### [Robert Wood Johnson Foundation: Evidence for Action: Investigator-Initiated Research to Build a Culture of Health](#)

Letter of Inquiry: Rolling Deadline

This program funds research that expands the evidence base needed to build a Culture of Health. RWJF is looking for research that examines the health impacts of programmatic or policy interventions that address factors outside the domain of health care services or public health practice.

#### [Simons Foundation: SFARI Explorer Awards](#)

Application Deadline: Rolling

This award program is designed to enhance our existing support of autism research by providing timely resources to enable focused experiments highly relevant to our mission. A deeper understanding of the mechanisms underlying autism spectrum disorders or

potential therapeutic approaches will require investigation at multiple levels, including but not limited to studies focused on gene discovery, molecular mechanisms, circuits, anatomy, and cognition and behavior. We will consider proposals at all of these levels.

#### [Genome-Wide Investigation of Late-Effects Using the Childhood Cancer Survivor Study \(CCSS\) Cohort](#)

Application Deadline Rolling

The CCSS leadership is now broadening the scope of this initiative to study the role of genetic susceptibility in the development of non-malignant treatment-related outcomes (in addition to subsequent malignancies) in cancer survivors. Accordingly, CCSS is announcing a request for proposals to collaborate with CCSS and NCI investigators in the use of existing genome-wide association study (GWAS) data and corresponding outcomes-related data to address innovative research questions relating to potential genetic contributions to risk for treatment-related outcomes. Requests will be accepted on an ongoing basis. Requests will be reviewed three times per year, in February, June and October (cut-offs for receipt of applications will be February 1, June 1, and October 1).

#### [Alfred P. Sloan Foundation: Economic Institutions, Behavior and Performance Grants](#)

Deadline: Continuous

The Foundation's program on Economic Institutions, Behavior, and Performance supports rigorous and objective research projects on U.S. economic structure, behavior, and performance whose findings inform and strengthen decision-making by regulators, policymakers, and the public.

#### [American Association for Respiratory Care \(AARC\) Research Program](#)

Deadline: Continuous

The American Association for Respiratory Care Research Program was established in 1996 to sponsor research to determine relationships between clinical interventions by respiratory therapists and the outcomes of care. The primary purpose of the AARC Research Program is to sponsor research initiatives which can document the clinical and economic impact of respiratory therapists in the delivery of health care. Clinical trials and effectiveness research to determine how clinical interventions by respiratory therapists affect overall health of patients, including physiologic indicators and quality of life, will be considered for funding.
