Internal Funding Opportunities

[Internal Funding: Harvard University Lemann Brazil Research Fund](#)

Application deadline: January 22, 2018

The Fund is intended to foster collaboration between scholars and to support research projects focused on current issues facing Brazil. Proposals are sought for research projects that address education management and administration; social science and its applications; public administration and policy; technological advances in education; and evidence-based research. Consideration will also be given to projects that propose collaboration between Harvard faculty and Brazilian academics in the life sciences, physical sciences and engineering, and basic and applied sciences.

[Internal Funding – Harvard's Solar Geoengineering Research Program](#)

Applications will be accepted on a rolling basis.

Harvard's Solar Geoengineering Research Program (SGRP) invites faculty and researchers throughout Harvard to apply for grants. No prior experience in solar geoengineering required. The goal of the program is to: Take an active stance on research with a unique mandate to develop new path-breaking technologies that might improve solar geoengineering's effectiveness and reduce its risks; Employ Harvard's convening power to bring together scientists, environmental leaders, and government officials to discuss the technology and its governance; Advance science and technology, assess efficacy and risks, and lay out governance options and social implications.

LIMITED SUBMISSION OPPORTUNITIES:

[Limited Submission – Eisenhower Institute: Eisenhower-Roberts Graduate Fellowship 2019-2020 \(STUDENTS\)](#)

Internal deadline: January 7, 2019

Sponsor deadline: March 22, 2019

The Eisenhower Institute is a nonpartisan organization dedicating to perpetuating Dwight D. Eisenhower's legacy by fostering integrity and trust in the federal government, promoting broader understanding of democracy, and supporting leadership in public service. Harvard University, as one institution, can nominate **two** applicants for this award and the Office of the Vice Provost for Research will manage the application and selection process for the University. Harvard Chan School applicants should apply through HUFPP (Harvard University Funding Portal). The hyperlink above will bring you to the application portal, where you can find more information on award eligibility and internal submission requirements.

[Limited Submission - Brain Research Foundation 2019: Fay/ Frank Seed Grant Program](#)

Internal deadline: November 26, 2018

Sponsor deadline: January 8, 2019

The purpose of the Brain Research Foundation's Fay/Frank Seed Grant Program is to provide start-up money to junior faculty for new research projects and innovative programs in the field of neuroscience. The proposed projects should show potential of becoming competitive for an NIH grant or other external funding sources. Harvard University, as one institution, can nominate one (1) applicant for this award and the Office of the Vice Provost for Research will manage the application and selection process for the University. Harvard Chan School applicants should apply through HUFPP (Harvard University Funding Portal). The hyperlink above will bring you to the application portal, where you can find more information on award eligibility and internal submission requirements.

[Limited Submission - Camille and Henry Dreyfus Foundation: Camille Dreyfus Teacher-Scholar Awards Program, 2019](#)

Internal deadline: November 26, 2018

Sponsor deadline: February 7, 2019

The Camille Dreyfus Teacher-Scholar Awards Program supports the research and teaching careers of talented young faculty in the chemical sciences. The program provides discretionary funding to faculty at an early stage of their careers. Harvard University, as one institution, can nominate one (1) applicant for this award and the Office of the Vice Provost for Research will manage the application and selection process for the University. Harvard Chan School applicants should apply through HUFPP (Harvard University Funding Portal). The hyperlink above will bring you to the application portal, where you can find more information on award eligibility and internal submission requirements.

OTHER NON-FEDERAL FUNDING OPPORTUNITIES:

[*NEW: American Heart Association: Arrhythmias and Sudden Cardiac Death Strategically Focused Research](#)

Letter of Intent deadline: December 4, 2018

The intent of this initiative is to support a collaboration of basic, clinical and population researchers from different disciplines whose collective efforts will lead to new approaches to study arrhythmias and sudden cardiac death.

[*NEW: Institute for Precision Cardiovascular Medicine: Artificial Intelligence and Machine Learning Grants](#)

Application deadline: January 29, 2019

Two-year grant to test and refine artificial intelligence and machine learning algorithms using learning health care system data and/or multiple longitudinal data sources to improve our understanding of all data related to precision medicine.

[*NEW: International Group of Funding Agencies for Global Change Research: Transdisciplinary Research for Ocean Sustainability](#)

Application Deadline: January 31, 2019

This call aims to bring together researchers across the globe to innovate solutions to accelerate sustainable use of oceans and minimize the effects from global change.

[*NEW: Agropolis Foundation: Olam Prize for Innovation in Food Security](#)

Application deadline: February 28, 2019

The Prize recognizes an innovative scientific research project for its potential impact on the availability, affordability, accessibility or adequacy of food and the UN's Sustainable Development Goal #2: End hunger, achieve food security and improved nutrition, and promote sustainable agriculture.

[*NEW: Parkinson's Foundation: Research Centers of Excellence](#)

Letter of Intent deadline: December 17, 2018

This program provides funding for innovative team science at institutions working on a thematic area of Parkinson's disease. The Foundation is interested in proposals that tackle critical issues or problems that are impeding progress in the field of PD research.

[The Burroughs Welcome Fund: Preterm Birth Initiative](#)

Application deadline: December 4, 2018

This award is designed to stimulate both creative individual scientists and multi-investigator teams to approach the problem of preterm birth using creative basic and translation science methods.

[The Burroughs Welcome Fund: Innovation in Regulatory Science](#)

Application deadline: February 6, 2019

The program's focus is on providing support for academic researchers developing new methodologies or innovative approaches in regulatory science that will ultimately inform the regulatory decisions FDA and others make.

[Robert Wood Johnson Foundation: The Health Data for Action: Leveraging Health Data for Actionable Insights Program](#)

Application deadline: December 14, 2018

This award supports innovative research that uses available data to answer important research questions. Applicants under this Call for Proposals will write a proposal for a research study using data from one of the following four data providers: The Health Care Cost Institute (HCCI), OptumLabs, CareJourney, or athenahealth. The proposed studies should enable relevant, innovative, and actionable research that uses the available data to answer important, policy-relevant questions.

[The American Heart Association: Transformational Project Award](#)

Application deadline: January 23, 2019

This program aims to provide pilot or seed funding to support highly innovative, high-impact projects that build on work in progress that could ultimately lead to critical discoveries or major advancements that will accelerate the field of cardiovascular and stroke research.

[Marion and Jasper Whiting Foundation: Fellowships for Higher Education of Present and Prospective Teachers](#)

Application deadline: January 11, 2019

This opportunity is for teachers (primarily at the college or university level) to improve and enhance the quality of their instruction, and to do so in a location other than that which they are most closely associated.

[Alex's Lemonade Stand Foundation for Childhood Cancer: Young Investigator Grants](#)

Application deadline: December 17, 2018

The Young Investigator Grant is designed to support scientists during their fellowship training or early in their research careers. Demonstration of outstanding mentorship and demonstration of a career plan that shows commitment to pediatric cancer investigation are critical components of a successful application.

[The Pediatric Cancer Research Foundation: Basic Research Science Grant](#)

Application deadline: May 1, 2019

This type of grant primarily funds basic science, translational and/or clinical state of the art pediatric cancer research initiatives.

[*NEW The Pediatric Cancer Research Foundation: Translational Research Grant](#)

Application deadline: May 1, 2019

This type of grant primarily funds new research protocols and therapies that hold promise for improved outcomes and accelerates cures from the laboratory bench to the bedside of children and teens with high-risk cancers. This Grant will be given to a program that involves open, multi-institutional cancer clinical trials, or consortia, and implements new approaches to therapy.

[The Pediatric Cancer Research Foundation: Emerging Investigator Fellowship Grant](#)

Application deadline: May 1, 2019

These grants are designed to support Post-Doctoral Fellowships and Clinical Investigator training for emerging pediatric cancer researchers to pursue exciting research ideas. Applicants must have completed two years of their fellowship, or not more than two years as a junior faculty instructor or assistant professor at the start of the award period.

[The Pediatric Cancer Research Foundation: Designated Grant Program](#)

Application deadline: May 1, 2019

Funds projects in communities or regions local to the specific donor or fundraising activity. Outside contributing organizations, fundraisers and donors work with the Foundation to identify a specific project, focus on a specific disease type, facility or awareness program.

[United States-Israel Bi-national Science Foundation: Regular Grants Program](#)

Application deadline: November 20, 2018

Applications to the program are made jointly by a US and an Israeli researcher(s) who would like to work together. No prior cooperation is required, but the synergy between the PIs must be evident.

[American Heart Association: Arrhythmias and Sudden Cardiac Death Strategically Focused Research Network](#)

LOI deadline: December 4, 2018

Application deadline: February 7, 2019

The intent of this initiative is to support a collaboration of basic, clinical and population researchers from different disciplines whose collective efforts will lead to new approaches to study arrhythmias and sudden cardiac death.

[Cancer Epidemiology Education in Special Populations \(CEESP\) Program: Summer Research Grants \(STUDENTS\)](#)

Application deadline: January 7, 2019

This program will provide mentored summer research in global and U.S. minority settings for a period of up to 15 weeks during summer 2019 for MPH and PhD candidates. Students can work with their local university faculty mentors and their research and/or utilize the infrastructure created by CEESP in global and U.S. settings.

[American Heart Association Institute for Precision Cardiovascular Medicine: Artificial Intelligence and Machine Learning Training Grants \(for students and post-docs\)](#)

Application deadline: January 31, 2019

Two-year grants focused on training student researchers in testing and refining artificial intelligence and machine learning algorithms using learning health care system data and/or multiple longitudinal data sources to improve our understanding of all data related to precision medicine.

[The Thrasher Research Fund: E.W. "AI" Thrasher Awards](#)

Deadline: Rolling

The purpose of the E.W. "AI" Thrasher Awards is to improve children's health through medical research, with an emphasis on projects that have the potential to translate into clinically meaningful results within a few years.

[Laura and John Arnold Foundation: Randomized Controlled Trials to Evaluate Social Programs Whose Delivery Will Be Funded by Government or Other Entities](#)

Letter of Intent Deadline: Continuous

This grant funds strongly designed randomized controlled trials (RCTs) that evaluate social programs with highly promising prior evidence or that are widely implemented

[BrightFocus Foundation: Multiple Awards](#)

Application deadline: Multiple dates

This program consists of three different awards focusing on the following: Alzheimer's disease, Macular degeneration and Glaucoma.

[American Foundation for Suicide Prevention: Distinguished Investigator Innovation Grants, Young Investigator Innovation Grants and Pilot Innovation Grants](#)

Closing date: November 15, 2018

AFSP's Research Grants support studies that will increase our understanding of suicide or test treatments and other interventions that save lives.

[Tourette Association of America: Support for Research Consortia and Collaborative Research Projects](#)

Application deadline: Rolling

This award supports research consortia working on large issues relevant to TS, including the TAA genetics consortium, neuroimaging consortium, behavioral sciences consortium, and deep brain stimulation registry, which have a direct impact on the patient and research community.

[American Lung Association: Public Policy Research Award](#)

Application Deadline: December 13, 2018

This mechanism is designed to help stimulate and inform important public policy debates around healthy air and lung disease. This award supports research on and evaluation of existing public policy and programs, as well as projects that inject innovative ideas into public policies impacting lung health.

[American Lung Association and the American Academy of Allergy, Asthma & Immunology \(AAAAI\) Allergic Respiratory Diseases Research Award](#)

Application Deadline: December 13, 2018

A long-standing joint effort between the American Lung Association and the American Academy of Allergy, Asthma & Immunology to encourage and support early stage investigators with a primary faculty appointment in an allergy/immunology division or section, to conduct research into advancing the understanding of allergic respiratory disease.

[American Gastroenterological Association \(AGA\): AGA-Takeda Pharmaceuticals Research Scholar Award in Inflammatory Bowel Disease](#)

Application Deadline: December 14, 2018

The objective of the AGA-Takeda Pharmaceuticals Research Scholar Award in Inflammatory Bowel Disease (IBD) is to support young gastroenterologists working toward independent and productive research careers in IBD by ensuring that a major proportion of their time is protected for research (i.e. a minimum of 75 percent effort dedicated to the proposed project). This AGA Research Foundation award will support young faculty (not fellows) who have demonstrated exceptional promise and have some record of accomplishment in research.

[Burroughs Wellcome Fund: Career Awards at the Scientific Interface](#)

Full Proposal Deadline: January 9, 2019 by 4:00pm EST

BWF's Career Awards at the Scientific Interface (CASI) provide \$500,000 over five years to bridge advanced postdoctoral training and the first three years of faculty service. These grants are intended to foster the early career development of researchers who have transitioned or are transitioning from undergraduate and/or graduate work in the physical/mathematical/computational sciences or engineering into postdoctoral work in the biological sciences, and who are dedicated to pursuing a career in academic research.

[AHA: Research Funding Program 2018-2019](#)

Multiple deadlines

AHA awards are open to an array of academic and health professionals. Clinical, translational, population, behavioral, and basic scientists are encouraged to apply. AHA maintains dedicated Peer Review Committees by program type and science type.

[Crohn's and Colitis Foundation of America: Broad Medical Research Program](#)

Application deadline: Rolling

The BMRP is funding innovative research into the possible reasons for low and high incidence of IBD in different areas of the globe. Proposals should be exploratory in nature or designed as pilot. The research should shed light on factors that may influence low versus high global areas of prevalence of the disease. The research should ultimately be helpful in improved understanding of the etiology of IBD and the factors that enhance or prevent the genesis of the disease.

[Robert Wood Johnson Foundation: Pioneering Ideas and a Culture of Health](#)

Letter of Inquiry: Rolling Deadline

The goal of this award is to look into the future and put health first as we design for changes in how we live, learn, work and play; to wade into uncharted territory in order to better understand what new trends, opportunities and breakthrough ideas can enable everyone in America to live the healthiest life possible. The Robert Wood Johnson Foundation focuses on four broad areas: Health Leadership; Health Systems; Healthy Communities; and Healthy Kids, Healthy Weight.

[Robert Wood Johnson Foundation: Evidence for Action: Investigator-Initiated Research to Build a Culture of Health](#)

Letter of Inquiry: Rolling Deadline

This program funds research that expands the evidence base needed to build a Culture of Health. RWJF is looking for research that examines the health impacts of programmatic or policy interventions that address factors outside the domain of health care services or public health practice.

[Simons Foundation: SFARI Explorer Awards](#)

Application Deadline: Rolling

This award program is designed to enhance our existing support of autism research by providing timely resources to enable focused experiments highly relevant to our mission. A deeper understanding of the mechanisms underlying autism spectrum disorders or potential therapeutic approaches will require investigation at multiple levels, including but not limited to studies focused on gene discovery, molecular mechanisms, circuits, anatomy, and cognition and behavior. We will consider proposals at all of these levels.

[Genome-Wide Investigation of Late-Effects Using the Childhood Cancer Survivor Study \(CCSS\) Cohort](#)

Application Deadline Rolling

The CCSS leadership is now broadening the scope of this initiative to study the role of genetic susceptibility in the development of non-malignant treatment-related outcomes (in addition to subsequent malignancies) in cancer survivors. Accordingly, CCSS is announcing a request for proposals to collaborate with CCSS and NCI investigators in the use of existing genome-wide association study (GWAS) data and corresponding outcomes-related data to address innovative research questions relating to potential genetic contributions to risk for treatment-related outcomes. Requests will be accepted on an ongoing basis. Requests will be reviewed three times per year, in February, June and October (cut-offs for receipt of applications will be February 1, June 1, and October 1).

[Alfred P. Sloan Foundation: Economic Institutions, Behavior and Performance Grants](#)

Deadline: Continuous

The Foundation's program on Economic Institutions, Behavior, and Performance supports rigorous and objective research projects on U.S. economic structure, behavior, and performance whose findings inform and strengthen decision-making by regulators, policymakers, and the public.

[American Association for Respiratory Care \(AARC\) Research Program](#)

Deadline: Continuous

The American Association for Respiratory Care Research Program was established in 1996 to sponsor research to determine relationships between clinical interventions by respiratory therapists and the outcomes of care. The primary purpose of the AARC Research Program is to sponsor research initiatives which can document the clinical and economic impact of respiratory therapists in the delivery of health care. Clinical trials and effectiveness research to determine how clinical interventions by respiratory therapists affect overall health of patients, including physiologic indicators and quality of life, will be considered for funding.

[Wellcome Trust: Innovator Awards](#)

Deadline: Continuous

These awards support researchers who are transforming great ideas into healthcare innovations that could have a significant impact on human health. Our current focus areas are mental health, neurological disorders and neglected tropical diseases.
